Hans Schattle

The Practices of Global Citizenship Hans Schattle,2008 What is global citizenship, exactly? Are we all global citizens? In *The Practices of Global Citizenship*, Hans Schattle provides a striking account of how global citizenship is taking on much greater significance in everyday life. This lively book includes many fascinating conversations with global citizens all around the world. Their personal stories and reflections illustrate how global citizenship relates to important concepts such as awareness, responsibility, participation, cross-cultural empathy, international mobility, and achievement. Now more than ever, global citizenship is being put into practice by schools, universities, corporations, community organizations, and government institutions. This book is a must-read for everyone who participates in global events--all of us.

American Citizen, Global Citizen Mark Gerzon,2010-07-30 Discusses how to work effectively with any one, in any part of the world, by realizing our global common ground and explores the basic skills necessary to fix the problems facing all of humanity.

Global Citizenship Nigel Dower,John Williams,2016-04-22 The idea of global citizenship is that human beings are citizens of the world. Whether or not we are global citizens is a topic of great dispute, however those who take part in the debate agree that a global citizen is a member of the wider community of humanity, the world, or a similar whole which is wider than that of a nation-state or other political community of which we are normally thought to be citizens. Through four main sections, the contributors to *Global Citizenship* discuss global challenges and attempt to define the ways in which globalization is changing the world in which we live. Offering a breadth of coverage to the core theme of the individual in a global world, *Global Citizenship* combines two factors-the idea of global responsibility and the development of institutional structures through which this responsibility can be exercised.

Global Citizen - Challenges and Responsibility in an Interconnected World Aksel Braanen Sterri,2015-02-03 A globalized world places new demands on us as citizens. *Global Citizen - Challenges and Responsibility in an Interconnected World* gives insight and perspectives on what it means to be a citizen in a global world from Norway's most distinguished scholars. It poses and answers important questions, such as which duties and rights do we have as citizens in a globalized world; which institutions are just and sustainable, and how can a global ethic and a global worldview be reconciled with the fact that the lives of the greater part of the Earth's population is still local? *Global Citizen - Challenges and Responsibility in an Interconnected World* draws on insights from philosophy, jurisprudence, theology, and the social sciences to shed light on this manifold and important topic, with relevance for policy makers, stakeholders, academics, but most important, for us as citizens who need to take both a political and personal decision on how to live as a citizen in a global world.

Global Issues for Global Citizens Vinay Kumar Bhargava,2006-01-01 Written by 27 World Bank experts, this book draws on the Bank's unique global capabilities and experience to promote an understanding of key global issues that cannot be solved by any one nation alone in an increasingly interconnected world. It describes the forces that are shaping public and private action to address these issues and highlights the Bank's own work in these areas. Covering four broad themes (global economy, global human development, global environment, and global governance), this comprehensive volume provides an introduction to today's most pressing global issues -- from poverty.

Global Citizens Mark Gerzon,2010 We are all aware of the number of global problems that need to be solved in order to save the future of the world- finance, the environment and terrorism, to name a few. But as the author of this stimulating and practical book makes clear, it is not enough for us to wait for governments and international companies to sort things out. We all have to realise our global common ground amidst differences everywhere in our lives, both at home and at work, locally and abroad. At the moment we are putting forward piecemeal solutions from the standpoint of each country when we really need to start seeing ourselves as citizens of the world. The author, Mark Gerzon, is perfectly placed to explain this important new step which we all need to take. He travels the globe lecturing, consulting and training, on the one hand showing Chinese politicians how to change their mindsets and, on the other, encouraging the world's top think tanks to work together and to sharpen four key skills- witnessing, learning, connecting and partnering. Only when we have all truly become 'global citizens' does he believe we will start to solve the many crises facing our world.

Global Citizen Action Michael Edwards,John Gaventa,2014-04-08 Civil society, or citizen's groups, have taken centre stage in international policy debates and global problem solving. They hold out the promise of a global community and global governance. This volume, by leading scholars and participants, shows how to understand the changes that are occurring, particularly in relation to the international institutions involved. It includes case studies from all the major social movements of the 1990s.

How to Raise a Global Citizen Anna Davidson,2021-09-23 Our children have the energy, capacity, and passion to create and nurture a global culture in which inclusion, acceptance, respect, and participation are the core values that underpin a human being's every interaction. As parents and carers, our job is to help our children take their first steps along that path. Raising truly globally minded, and socially conscious children happens at home and in the community. Children can be inspired, equipped, and mobilized to make a difference in the world. By encouraging values such as responsible and kind use of social media, respect, open mindedness, empathy, a sense of community, parents can help to shape a new generation of emotionally intelligent, outward-looking, politically ethical world citizens. Relevant to parents of children of all ages - from toddlers to teens - the book gives practical advice on how to talk to your children, the vocabulary to use, and activities and projects you can undertake with your children, from planting a tree to keeping a gratitude diary to cooking themed cuisines. And you'll find out how to model global citizenship through your own day-to-day actions.

Globalization and Global Citizenship Irene Langran,Tammy Birk,2016-06-10 Globalization and Global Citizenship examines the meaning and realities of global citizenship as a manifestation of recent trends in globalization. In an interdisciplinary approach, the chapters outline and analyse the most significant dimensions of global citizenship, including transnational, historical, and cultural variations in its practice; foreign and domestic policy influences; and its impact on personal identities. The contributions ask and explore questions that are of immediate relevance for today's scholars, including: How does globalization in its current form present a new set of challenges for states, non-state actors, and individual citizens? How has globalization diminished, expanded, or complicated notions of citizenship? What rights could exist outside the context of state sovereignty?

How can social accountability be imagined beyond the borders of towns, cities, or states? What forms of political representational legitimacy could be productive on the global level? When is it useful, possible or desirable for individuals to identify with global political communities? Drawing together a broad range of contributors and cutting edge research the volume offers chapters that seek to reflect the full spectrum of approaches and topics, providing a valuable resource which highlights the value of an extended and thoughtful study of the idea and practice of global citizenship within a broader consideration of the processes of globalization. It will be of great use to graduates and scholars of international relations, sociology, and global studies/affairs, as well as globalization.

Handbook of Research on Promoting Global Citizenship Education Keengwe, Jared, 2022-02-18 A global citizen is an individual who believes in a public responsibility for their local community to grow and interconnect amongst the world's diverse people and things. Global citizenship education is a fast-moving process that continues to intertwine communities all over the world. As we move toward a more global world, the improvement in education, health, poverty rates, and standard of living should come with it. This global world must be a place where people are aware of what is going on and can have an impact as well. The Handbook of Research on Promoting Global Citizenship Education explores various ways to empower educators to design and implement a curriculum that incorporates global citizen education. Covering a range of topics such as global issues and academic migration, this major reference work is ideal for academicians, industry professionals, policymakers, researchers, scholars, instructors, and students.

Global Citizen Formation Amy Shumin Chen, 2021-07-17 This book explains the rationale of the changes and challenges of Taiwanese citizenship which emphasizes the various identities in the global and multicultural era. And what outcomes and attainments had the Taiwan's undergraduates' knowledge, attitudes and practices of competency on citizenship?

How to Be a Muslim Haroon Moghul, 2017-06-06 A searing portrait of Muslim life in the West, this "profound and intimate" memoir captures one man's struggle to forge an American Muslim identity (Washington Post) Haroon Moghul was thrust into the spotlight after 9/11, becoming an undergraduate leader at New York University's Islamic Center forced into appearances everywhere: on TV, before interfaith audiences, in print. Moghul was becoming a prominent voice for American Muslims even as he struggled with his relationship to Islam. In high school he was barely a believer and entirely convinced he was going to hell. He sometimes drank. He didn't pray regularly. All he wanted was a girlfriend. But as he discovered, it wasn't so easy to leave religion behind. To be true to himself, he needed to forge a unique American Muslim identity that reflected his beliefs and personality. How to Be a Muslim reveals a young man coping with the crushing pressure of a world that fears Muslims, struggling with his faith and searching for intellectual forebears, and suffering the onset of bipolar disorder. This is the story of the second-generation immigrant, of what it's like to lose yourself between cultures and how to pick up the pieces.

The Cosmopolites Atossa Araxia Abrahamian, 2015 The cosmopolites are literally citizens of the world, from the Greek word kosmos, meaning world, and polites, or citizen. Garry Davis, aka World Citizen No. 1, and creator of the World Passport, was a former Broadway actor and World War II bomber pilot who renounced his American citizenship in 1948 as a form of protest against nationalism, sovereign borders, and war. Today there are cosmopolites of all stripes, rich or poor, intentional or unwitting, from 1-percenters who own five passports thanks to tax-havens to the Bidoon, the stateless people of countries like the United Arab Emirates. Journalist Atossa Abrahamian, herself a cosmopolite, travels around the globe to meet the people who have come to embody an increasingly fluid, borderless world. Along the way you are introduced to a colorful cast of characters, including passport-burning atheist hackers, the new Knights of Malta, California libertarian seastealers, who are residents of floating city-states, Bidoons, who have been forced to be citizens of the island nation Comoros, entrepreneurs in the business of buying and selling passports, cosmopolites who live on a luxury cruise ship called The World, and shady businessmen with ties to Syrian dictator Bashar al Assad.

Global Citizenship Education: A Critical Introduction to Key Concepts and Debates Edda Sant, Ian Davies, Karen Pashby, Lynette Shultz, 2018-02-22 Global Citizenship Education explores key ideas and issues within local, national and global dimensions. Including examples and case studies from across the world, the authors draw on ideas, experiences and histories within and beyond 'the West' to contribute to multifaceted perspectives on global citizenship education. In concise chapters, the authors set out the key concepts and debates within the field. Global citizenship education is contextualized within key educational frameworks, including citizenship education, global education, development education and peace education. Edda Sant, Ian Davies, Karen Pashby and Lynette Shultz explore the different ways in which global citizenship can be taught, learned and assessed in formal and informal contexts. Including examples from a wide range of education institutions, chapters provide overviews of policy making and international practices borne out of different approaches to global citizenship education. With each chapter including a summary of key issues, an annotated list of key resources, an exercise for students and a further reading list, Global Citizenship Education will aid understanding of this complex and debated area of study.

Understanding the Global Experience Thomas Arcaro, Rosemary Haskell, Chinedu Eke, Robert Anderson, Stephen Braye, Ann Cahill, Brian Digre, Anne Bolin, Mathew Gendle, Duane McClearn, Jeffrey Pugh, Laura Roselle, Jean Schwind, Kerstin Sorensen, Anthony Weston, 2016-03-22 First Published in 2016. Global Citizenship Education William Gaudelli, 2016-03-22 Global Citizenship Education addresses the intersection of globalization, education and programmatic efforts to prepare young people to live in a more interdependent, complex and fragile world. The book explores topics such as sustainability education, cultural diversity, and human rights education, offering critical insights into how these facets of GCE are interpreted around the world. The book also strives to give voice to student populations within historically marginalized communities, rather than focusing solely on the role of GCE in elite schools. Gaudelli blends theory and practice to provide both an overview of GCE as well as examining current efforts to develop more globally-conscious classrooms. Blending empirical research and practical illustrations, this important volume encourages educators to take seriously their own call to prepare young people to engage global challenges with a sense of urgency and helps chart a new direction for global learning that is increasingly expansive, dialogic and inclusive.

The Political Economy of Global Citizenship Education Vanessa De Oliveira Andreotti, 2016-03-16 This edited collection offers analyses of 'global citizenship education' within and across different national contexts. This book illustrates the contingency of definitions, the complexities of juxtaposing demands and priorities in different educational contexts, and the difficulties and tensions of asking a question that is arguably one of the most pressing of our time: how should we live together in interdependent ecologies in a finite planet? In the discipline of education, where market imperatives and the dictatorship of 'effective replicable results' have laid siege to independent debates, this book aims to emphasize the importance of raising our intellectual game as educators to interrupt new and old problematic patterns of engagements, representations, uncomplicated solutions and conceptual straightjackets. Contributors to this volume address the tensions between homogenizing universalisms and parochial specifisms, ethnocentrisms and relativisms, deficit theorizations and romanticizations of difference, fantasies of supremacy and paralyzes in guilt, the 'global' and the 'local'. The chapters take different approaches to map the origins, meanings, workings, ethics, politics and implications of initiatives, approaches, and conceptual frameworks related to the ideas of globalization, citizenship and education in different sites of knowledge production. This book was originally published as a special issue of Globalisation, Societies and Education.
