*Brave New Home* Diana Lind, 2020-10-13 This smart, provocative look at how the American Dream of single-family homes, white picket fences, and two-car garages became a lonely, overpriced nightmare explores how new trends in housing can help us live better. Over the past century, American demographics and social norms have shifted dramatically. More people are living alone, marrying later in life, and having smaller families. At the same time, their lifestyles are changing, whether by choice or by force, to become more virtual, more mobile, and less stable. But despite the ways that today's America is different and more diverse, housing still looks stuck in the 1950s. In *Brave New Home*, Diana Lind shows why a country full of single-family houses is bad for us and our planet, and details the new efforts underway that better reflect the way we live now, to ensure that the way we live next is both less lonely and more affordable. Lind takes readers into the homes and communities that are seeking alternatives to the American norm, from multi-generational living, in-law suites, and co-living to microapartments, tiny houses, and new rural communities. Drawing on Lind's expertise and the stories of Americans caught in or forging their own paths outside of our cookie-cutter housing trap, *Brave New Home* offers a diagnosis of the current American housing crisis and a radical re-imagining of future possibilities.

*The House that Pinterest Built* Diane Keaton, 2017-10-10 At once a style guide, an inspirational tome, and a how-to volume on creating one's home, this book will serve as a go-to reference for all those seeking to spur their own creativity as they embark on the creation of home. When Diane Keaton decided that she wanted to build her own home from the ground up, she took the advice of her dear friend, film director Nancy Meyers, and took to the boards of Pinterest to find inspiration. There she discovered the practical and the fantastical, elements and styles long adored and ones that she never knew she was drawn to. Keaton's dream house was officially under way and this

book that resulted is a compelling account of her that house, from idea to realization in brick, stone, and wood. The House that Pinterest Built defines what home and house mean to the celebrated movie star, who is known for her love affair with houses and design. Filled with ideas that reveal a personal yet engaging aesthetic, this volume includes compelling photos from Keaton's past homes and those she admires, as well as a multitude of details from every corner of those spaces and objects that excite and inspire the house designer and dreamer—dramatic staircases and magical light fixtures, film stills and book covers, pottery and art—drawn from the visual treasure trove known as Pinterest and Keaton's private collection, as she creates and designs her newest house. Rich imagery is accompanied by Keaton's ideas for selecting furniture, kitchen layout, and bedroom design; she talks about the importance of lighting in the bathroom and why the living room needs to be reimagined. Beyond the interior, she explores curb appeal and environmental sensitivity, always with an eye to making home the way it should be—a place of tranquility, a place where one is restored and where one returns to dream again and again. The book culminates in the dream realized, the house she has imagined, designed, and made, now shared with the world for the first time in all-new photography. "If you want to explore. If you love to see. If you're looking to look; this book is an example of a home made from the gifts of other people's addictive yearnings for the perfect home, with the perfect landscape and the perfect interior. It illustrates my choices of your choices. Who knows, you might find one of your pins here. You might smile. You might shake your head and say, 'This isn't what I had in mind.' You might think: 'Hey that's my kitchen. She copied my kitchen.' But the truth is, as much as I tried, I could never entirely recreate the light filled photograph of a kitchen that led the way to the journey that brought me here. No one can." — Diane Keaton

Dwelling in the World Elizabeth LaCouture,2021-08-10 By the early twentieth century, Chinese residents of the northern treaty-port city of Tianjin were dwelling in the world. Divided by nine foreign concessions, Tianjin was one of the world's most colonized and cosmopolitan cities. Residents could circle the globe in an afternoon, strolling from a Chinese courtyard house through a Japanese garden past a French Beaux-Arts bank to dine at a German café and fall asleep in a British garden city-style semi-attached brick house. *Dwelling in the World* considers family, house, and home in Tianjin to explore how tempos and structures of everyday life changed with the fall of the Qing Empire and the rise of a colonized city. Elizabeth LaCouture argues that the intimate ideas and practices of the modern home were more important in shaping the gender and status identities of Tianjin's urban elites than the new public ideology of the nation. Placing the Chinese home in a global context, she challenges Euro-American historical notions that the private sphere emerged from industrialization. She argues that concepts of individual property rights that emerged during the Republican era became foundational to state-society relations in early Communist housing reforms and in today's middle-class real estate boom. Drawing on diverse sources from municipal archives, women's magazines, and architectural field work to social surveys and colonial records, *Dwelling in the World* recasts Chinese social and cultural history, offering new perspectives on gender and class, colonialism and empire, visual and material culture, and technology and everyday life.

**Social Housing in the Middle East** Mohammad Gharipour,Kivanc Kilinc,2019-03-01 As oil-rich countries in the Middle East are increasingly associated with soaring skyscrapers and modern architecture, attention is

being diverted away from the pervasive struggles of social housing in those same urban settings. *Social Housing in the Middle East* traces the history of social housing—both gleaming postmodern projects and bare-bones urban housing structures—in an effort to provide a wider understanding of marginalized spaces and their impact on identities, communities, and class. While architects may have envisioned utopian or futuristic experiments, these buildings were often constructed with the knowledge and skill sets of local workers, and the housing was in turn adapted to suit the modern needs of residents. This tension between local needs and national aspirations are linked to issues of global importance, including security, migration, and refugee resettlement. The essays collected here consider how culture, faith, and politics influenced the solutions offered by social housing; they provide an insightful look at how social housing has evolved since the 19th century and how it will need to adapt to suit the 21st.

*Metropolitan Home Design 100* Michael Lassell, 2010-10-13 From its earliest days *Metropolitan Home* magazine grew into the standard bearer for contemporary home design in the US and became an active participant in reshaping the way Americans live. Many of the designers and architects featured in its pages went on to become household names and leaders of the design profession. A favorite annual issue known as the *Design 100* honored superlative invention and creativity in international design. *Metropolitan Home Design 100* focuses on the best homes and the best rooms ever to have appeared in *Met Home* - as well as scores of new locations and never-before-published photographs. Each of the 100 houses, apartments, lofts, rooms, or design details included in the book is the greatest of something, and each has been created by one of the top designers or architects of our time. The 100 taken as a whole have been curated in the spirit of *Met Home*: lively, beautiful, accessible, aspirational, real. *Metropolitan Home* ceased publication with its December 2009 issue, but the spirit, the vision, and the legacy of the magazine lives on, in this book, in the hearts of thousands of loyal followers and in the way we live now. *Metropolitan Home Design 100* is a celebration, a valediction, and a gift to anyone who loves modern design.

*Sunbelt Blues* Andrew Ross, 2021-10-26 An eye-opening investigation of America's rural and suburban housing crisis, told through a searing portrait of precarious living in Disney World's backyard. Today, a minimum-wage earner can afford a one-bedroom apartment in only 145 out of 3,143 counties in America. One of the very worst places in the United States to look for affordable housing is Osceola County, Florida. Once the main approach to Disney World, where vacationers found lodging on their way to the Magic Kingdom, the fifteen-mile Route 192 corridor in Osceola has become a site of shocking contrasts. At one end, global investors snatch up foreclosed properties and park their capital in extravagant vacation homes for affluent visitors, eliminating the county's affordable housing in the process. At the other, underpaid tourist industry workers, displaced families, and disabled and elderly people subsisting on government checks cram themselves into dilapidated, roach-infested motels, or move into tent camps in the woods. Through visceral, frontline reporting from the motels and encampments dotting central Florida, renowned social analyst Andrew Ross exposes the overlooked housing crisis sweeping America's suburbs and rural areas, where residents suffer ongoing trauma, poverty, and nihilism. As millions of renters face down evictions and foreclosures in the midst of the COVID-19 recession, Andrew Ross reveals how ineffective government planning, property market

speculation, and poverty wages have combined to create this catastrophe. Urgent and incisive, Sunbelt Blues offers original insight into what is quickly becoming a full-blown national emergency.
