Ace the GMAT Verbal Brandon Royal, 2016-01-01 Ace the GMAT Verbal will help readers develop the skills and mindset needed to score high on the verbal section of the GMAT exam. This book contains the excerpted verbal chapters on Sentence Correction, Critical Reasoning, and Reading Comprehension including Analytical Writing and Integrated Reasoning, as taken from the parent ebook/paperback titled Ace the GMAT: Master the GMAT in 40 Days. "Chance favors the prepared mind." Whether you're a candidate already enrolled in a test-prep course or are undertaking self-study, this book will serve as a rigorous skill-building study guide to help you conquer the verbal section of the GMAT exam. It also includes special workshops on analytical writing and integrated reasoning. Studying for the verbal sections of the GMAT exam requires some 50 hours of study time. This book's content is conveniently divided into topics, which require two to three hours of study time per day. Total study time will vary between 40 to 60 hours for the entire 20 days. "I used this book as my main source of study, supplementing it with practice from The Official Guide for GMAT Review. The Official Guide has lots of problems to practice on, but Ace the GMAT is superb for helping understand conceptually how the problems work. I highly recommend this manual as your first line of defense. It helped me achieve a 700-plus GMAT score with only a month's practice, despite English not being my first language." –Sam Mottaghi, former consultant, Accenture; Cambridge Judge Business School

graduate

Ace the GMAT Math Brandon Royal, 2016-01-01 Ace the GMAT Math will help readers develop the skills and mindset needed to score high on the quantitative section of the GMAT exam. "Chance favors the prepared mind." Whether you're a candidate already enrolled in a test-prep course or are undertaking self-study, this guidebook will serve as a rigorous skill-building study guide to help you conquer the quantitative section of the GMAT exam. Total study time will vary between 40 to 60 hours for the entire 20 days. "This book enabled me to increase my score from 650 to 730. I believe its unique way of categorizing each type of question, giving insightful tips to master these problems, as well as the detailed analysis for each set of problems were key factors in my cracking the test. Moreover, I found problems that I did not find anywhere else and which were critical on the D-day when answering a few extra questions right made the difference between a good score and an excellent one." –Cédric Gouliardon, Telecom Specialist; INSEAD graduate

Ace the GMAT Brandon Royal, 2016-01-01 ACE THE GMAT is based on a simple but

powerful observation: Test-takers who score high on the GMAT exam do so primarily by understanding how to solve a finite number of the most important, recurring problems that appear on the GMAT. What are these important, recurring problems? The answer to this question is the basis of this book. This manual provides in-depth analysis of over 200 all-star problems that are key to mastering the seven major GMAT problem types including Problem Solving, Data Sufficiency, Sentence Correction, Critical Reasoning, Reading Comprehension, Analytical Writing, and Integrated Reasoning. Apart from providing readers with answers and full explanations, a special feature of this book is that each problem is categorized by type ("classification"), rated by difficulty level ("chili rating"), and supplemented with a problem-solving strategy ("snapshot"). "Chance favors the prepared mind." Whether you're a candidate already enrolled in a test-prep course or are undertaking self-study, this guidebook will serve as a rigorous skill-building study guide to help you conquer the math, verbal, analytical writing, and integrated reasoning sections of the exam. Studying for the math and verbal sections of the GMAT exam requires some 100 hours of study time. This book's content is conveniently divided into topics, which require two to three hours of study time per day. Total study time will vary between 80 to 120 hours for the entire 40 days.
