*Dash's Potty Problems* Wendy Hayden, 2020-09-19 Is your child struggling with pooping, constipation, potty accidents or is withholding their poop? Dash can help! This book contains the three books, *Dash's Belly Ache*, *Dash's Potty Accidents*, and *Dash Decides Going Potty is Awesome!* all in one volume. These three stories help children who are struggling with toileting issues. Dash's stories are relatable for toddlers and young children who are having a hard time with potty training, potty accidents, constipation, or withholding. *Dash's Belly Ache* Is your child struggling with pooping or is withholding their poop? Sometimes all it takes is one painful poop for a child to have a fear of having a bowel movement. Or chronic

constipation can cause painful pooping which triggers fear of having a bowel movement. Their fear often leads to withholding, anxiety about using the toilet, and potty training regression. Sometimes these issues persist, even after the child is no longer suffering from chronic constipation or painful bowel movements. It is difficult to overcome a young child's fear and anxiety with reasoning. This can be extremely frustrating for us as parents, and for our children who are struggling.
