Classic Golf Links of England, Scotland, Wales, and Ireland Donald Steel, 1993-01-01 Seaside links courses offer golfers unmatched challenges and enchanting scenery. And while they can be found in many parts of the world, the links of the British Isles are the most famous in their class. Donald Steel takes readers on a tour of seventy-five spectacular greens along windswept beaches and sheer cliffs of Britain and Ireland. These links prove true the old belief that courses are for expanding a player's abilities, rather than defining and confining them as in so many other sports. Steel offers up destinations like St. Andrews, Royal St. George's, and Formby, Ballybunion, and Muirfield among the seaside playing fields that have been the home to championship tournaments and amateur aspirations. With scorecards, maps, color photos, and helpful hints for most holes, this guide is an essential reference tool for the traveling golfer. It tells the history of the courses it covers and provides information on the designers who built them and the pros who have set their records. Brian Morgan's stunning photography handsomely captures the majestic layout of the courses. From the deceptive lengths to the treacherous traps, his visual log of the courses prepares golfers for the beauty and challenges that await them. His award-winning and world-renowned pictures have appeared in golf journals on both sides of the Atlantic and in several exhibitions.

Classic Golf Stephen Whymark, 2003

Classic Golf, 2002

Classic Golf Hole Design Robert Muir Graves, Geoffrey S. Cornish, 2002-10-29 Golf course construction continues to burgeon in the United States, Asia, and around the world. This book meets the needs of practicing landscape architects and other practicing professionals involved in the design or re-design of golf courses. Each classic hole is described in terms relevant to the designer

including its basic design, its maintenance, and its impact on the golfer's game. Three samples accompany each classic hole illustrating varying replications and how those replications were appropriated for the new course. Graves and Cornish are two of the most famous and respected golf course architects in the United States, who have designed or remodeled a combined 1,000+ courses, taught more than 60 seminars on golf course design, and are both past presidents of the American Society of Golf Course Architects.

Golf in North Carolina (Classic Reprint) Oscar Bane Keeler, 2017-11-16 Excerpt from Golf in North Carolina T was Ralph Kennedy of New York City, the Peripatetic Golfer, who said to me not long ago: Ive played sixty - four different golf courses in North Carolina, and for variety, class, condition and climatic suitability at all seasons, I'm sure no other State in the Union has anything on the assortment. Mr. Kennedy really ought to know something about that. He is called the Peripatetic Golfer because he has played more different golf courses than any other golfer in this world. His record to this writing is 0 different courses, mind you; each round of play duly certified on its own score card, and the score cards reposing in a safety deposit box in Mr. Kennedy's bank, for Mr. Kennedy, a veteran businessman, is a business like hobbyist also, and he knows he's got a world record by the tail. Modern Golf (Classic Reprint) Harold H. Hilton,2017-11-08 Excerpt from Modern Golf His success was in every way due to a determination to conquer the game, allied with the faculty of

being able to spend hour after hour in solitary practice. One would see him out early in the morning and late at night, with two or three clubs and numberless balls, playing the same class of shot for hours on end. It had the appearance of being a dull, monotonous species of amusement, but he apparently enjoyed it, as he never seemed to tire of the task, and in the end his assiduity met with its due reward. all is sent to join its predecessors in the discard. In golf, as in medicine, quacks and nostrums flourish monstrously well, and there is never any end to the procession of willing victims; the canny professional may fool the duffer all the time if he chooses to do so.
