Showdown Iain Carter, 2014-10 A gripping account of the Ryder Cup battle at Gleneagles, September 2014 As the Ryder Cup arrives at Gleneagles in Autumn 2014, Europe is the indisputable dominant force. They have won five of the last six matches, including the Medinah Miracle two years earlier. On that occasion they had rallied from 10-4 down to snatch victory and retain the trophy. It was the second consecutive match that had been settled by a single point. For America it was a sickening defeat. Following the devastating loss, the Americans pulled out all the stops for 2014, sending a clear signal with the appointment of veteran Ryder Cup hero Tom Watson as captain. Opinionated and complicated, Watson is one of the legends of the game and hugely popular in both the United States and Europe. Put under pressure, the Europeans eschewed veterans such as Colin Montgomerie in favor of an outlier: Irishman Paul McGinley, a diminutive stalwart touring pro, a team man, and an astute tactician. It will be a fight between acumen and aura. This book tells the inside story of this enthralling contest from the build-up through to the dramas of the week at Gleneagles. Will the American team snatch victory from the jaws of defeat, re-entering the race and asserting themselves as the dominant force in world golf once more?

The New South Comes to Wiregrass Georgia, 1860-1910 Mark V. Wetherington, 2002-05 This examination of cultural change challenges the conventional view of the Georgia Pine Belt as an unchanging economic backwater. Its postbellum economy evolves from self-sufficiency to being largely dependent upon cotton. Before the Civil War, the Piney Woods easily supported a population of mostly yeomen farmers and livestock herders. After the war, a variety of external forces, spearheaded by Reconstruction-era New South boosters, invaded the region, permanently altering the social, political, and economic landscape in an attempt to create a South with a diversified economy. The first stage in the transformation -- railroad construction and a revival of steamboating -- led to the second stage: sawmilling and turpentine. The harvest of forest products during the 1870s and 1880s created new economic

opportunities but left the area dependent upon a single industry that brought deforestation and the decline of the open-range system within a generation.

Paradise to most, to Sarah the tiny island might as well be a prison, where she is trapped with her two ex-best friends, Floss and Jules. Floss should be happy. She married her childhood sweetheart and has five gorgeous kids, but now everything feels wrong. When a chance encounter makes her realise how close she is to losing everything, the only person she can talk to is the woman who pushed her away. Jules doesn't need to see Sarah to be reminded of the friendships she has lost - her four-year-old daughter reminds her every day. But now she has a reason to want to talk to her once best friend, and maybe try to set things right. This summer, on the most beautiful island on the planet, can these three women find their way along the rocky road of forgiveness, and back to the friendship they once shared?

Water Resources Sector Strategy ,2004-01-01 This paper focuses on how to improve the development and management of water resources while providing the principles that link resource management to the specific water-using sectors. In 1993 the Board of the World Bank endorsed a Water Resources Management Policy Paper. In that paper, and this Strategy, water resources management is seen to comprise the institutional framework; management instruments; and the development, maintenance and operation of infrastructure. The paper looks at the dynamics of water and development. It builds on the 1993 policy paper, evaluating current scenarios and looking at future options and their implications both for government policy and the World Bank.
