John R. Lombard, Eliahu Stern, Graham Clarke

The Postcolonial Middle Ages J. Cohen, 2000-04-21 An increased awareness of the importance of minority and subjugated voices to the histories and narratives which have previously excluded them has led to a wide-spread interest in the effects of colonization and displacement. This collection of essays is the first to apply post-colonial theory to the Middle Ages, and to critique that theory through the excavation of a distant past. The essays examine the establishment of colony, empire, and nationalism in order to expose the mechanisms of oppression through which 'aboriginal' 'native' or simply pre-existent cultures are displaced, eradicated, or transformed.

Applied Spatial Modelling and Planning John R.

Lombard, Eliahu Stern, Graham Clarke, 2016-10-04 This book highlights the extraordinary range of areas to which geographical analysis and spatial modelling can bring lessons and insights. It shows how these techniques have been used to address 'real world' issues that are of concern to international organisations, public agencies and businesses, as illustrated by actual funded projects that geographers have developed collaboratively with end-users. Applied Spatial Modelling and Planning shows how much geographical research is policy relevant to a wide variety of agencies through the use of GIS and spatial modelling in applied geography. The book's chapters contain a cross-section of innovative applications and approaches to problem solving within five major domains of the dynamics of economic space, housing and settlements, population movements and population ageing, health care, and the environment. Using a number of case studies on the use of GIS and spatial modelling, this book demonstrates the fact that much of what is done by quantitative geographers is not only relevant within academia, but also has use in policy work. This book will appeal to an international audience interested in cutting-edge spatial modelling to better understand the processes involved in solving real problems.

The Shattered Crown J. W. Webb, 2015-02-24 Corin an Fol, Longswordsman and ex mercenary has but one objective: retire early and settle down. Unfortunately the gods have other ideas. When Corin arrives home after many years fighting foreign wars,

he finds bad news waiting for him. The High King has been murdered and his crystal crown, the Tekara, destroyed. The Tekara is no ordinary crown. Wrought of solid crystal it contains a charm of strength that has protected the Four Kingdoms for millennia. But the Tekara is vulnerable to one thing: treachery. So when Caswallon the schemer secretly places the crown on Prince Tarin's head he knows it will shatter, causing the realms to fall apart. He stands to gain as soon as it breaks. Though many suspect Caswallon, who is known as a sorcerer, only one dares stand against him: Queen Ariane of Kelwyn. She is visited by her goddess in a dream who warns that Prince Tarin has fled with the shards of the Shattered Crown, and only by finding both Prince and Crown can the Four Kingdoms be saved. After being promised gold, Corin an Fol reluctantly joins the queen's desperate quest to salvage the missing shards. But Caswallon is on to them and already watching their every move.

Middle English Saints' Legends John Scahill,Margaret Rogerson,2005 Annotated bibliography covering two centuries of scholarly criticism on the extensive corpus of medieval saints' legends. with the assistance of Margaret RogersonSaints' legends are being increasingly recognised as one of the most important genres of the middle ages, and attract much critical attention. This volume surveys the scholarly literatureof the nineteenth and twentieth centuries on the extensive Middle English corpus. It

also provides a conspectus of the genre's history in the Middle English period, and its place in the development of the modern discipline of Middle English, while both the introduction and the annotations give attention to the problematic boundaries between genres and to the issues involved in separating out texts from their manuscript contexts. General studies of the corpus as a whole are covered, as well as discussions and editions of individual legends, of the various extended cycles of legends, and of sermon collections that include hagiographic legends and exempla; the volume has been structured so as to provide an overview of the research on major works [for example the South English Legendary and St Erkenwald], and authors such as Osbern Bokenham, John Capgrave, William Caxton and John Mirk. It includes an Index of Scholars and Critics keyed to the Bibliography, an Index of Middle English Texts that covers all works, of whatever genre, mentioned in the annotations, and an Index of Manuscripts that gathers the references to the over 170 manuscripts cited.
