***Bullseyes and Blunders*** Subba Rao Changanti, *Bullseyes and Blunders: Lessons from 100 Cases in Pharmaceutical Marketing* is a first-of-its-kind of a book. The book is an invaluable resource for the practitioners as well as the students of pharmaceutical marketing. The case studies presented in the book offer many experiential insights into how some of the world's renowned pharmaceutical marketers built, launched, defended and managed their brands and steered them clear of competition. The Bullseyes in the book present a snapshot of these winning brands. Studying the Blunders or failures or flops too is significant for the practitioners and students of marketing alike. Because these provide the much-needed insights into the essential, Don'ts while building and managing their brands. Bullseyes and Blunders provides a more practical understanding of various topics that are highly relevant for the Pharma brand managers and marketing managers. These are market opportunity analysis, product positioning, product launches, life cycle management, building and defending a disease-franchise among others. Contents: 1. The Pharmaceutical Market 2. The Pharmaceutical Product 3. Therapeutic Leadership 4. Product Launch Strategy 5. Life Cycle Management 6. Pharmaceutical Marketing Practices: Good and Bad 7. Disease Branding 8. Blue Ocean Strategy 9. The Pricing Strategies 10. Pharma and Social Media

**Digital Pharma Marketing Playbook** Subba Rao Chaganti, 2022-10-22 Digital Pharma Marketing Playbook is a first-of-its-kind-of book. It is the first and only book that presents 101 cases in digital pharma marketing. These cases show how some of the leading pharmaceutical companies across the world have used digital and social media channels. They are also excellent learning opportunities to all pharma marketing and brand managers, and students of pharmaceutical marketing. Digital transformation is sweeping the world around us. Everything these days has become digital. The ever-increasing rate of adoption of wearable devices and the advent of the internet of things are digitizing more and more of our experience. At the same time, healthcare in general, and the pharmaceutical industry, in particular, have been lagging in adapting to a digital strategy. It is not that the pharma is new to multichannel marketing. The pharmaceutical industry traditionally has been following a multichannel marketing strategy, where most of the channels have been static rather than dynamic. The number of channels has increased significantly due to the internet explosion. Pharma is moving to a multi-stakeholder world, a world in which stakeholders beyond the prescriber are gaining importance. These new influencer groups such as patients, nurses, payers, and regulators are increasingly turning to digital channels for their information needs regarding healthcare. Digital, therefore, plays a vital role in reaching these new audiences. If you want to maximize the impact of your marketing communications, can you afford to ignore the channels that your stakeholders are frequently using? Of course, not. Therefore, the question is not, to digitize or not to digitize, but how soon and how effectively? Why a Digital Pharma Marketing Playbook? Because, a playbook is a one-stop-read or single-source resource for all the essential information that you need on a given sport — in our case, Digital Pharma Marketing. If you can make work more fun and enjoyable it is play! Moreover, when work becomes play, there are no goals that you cannot score! Contents: 1. Challenging Times! Changing Rules! 2. Digital Revolution 3. Digital Pharma Marketing 4. Social Media Marketing and Pharma 5. Digital Transformation

**Reimagine Pharma Marketing** Subba Rao Chaganti, 2023-06-01 The empowered patients, new-age technologies such as artificial intelligence (AI), machine learning (ML), big data analytics, real-world data and evidence, blockchain, electronic health records (EHRs), digital therapeutics, cloud computing, and innovative marketing frameworks like design thinking, customer journey mapping, omnichannel, closed-loop marketing, personalization and agile ways of working are transforming the way healthcare is delivered, affecting the pharmaceutical industry. Additionally, big tech companies such as Amazon, Alphabet, Apple, and Microsoft are disrupting by offering non-pharmacological solutions with innovative digital technologies to provide a seamless customer experience in the patient journey. The recent COVID-19 pandemic added rocket fuel to the digital transformation of the pharmaceutical industry, changing the entire model of care and ingraining telemedicine in the healthcare ecosystem. Digital Transformation has become inevitable and imminent. Therefore, pharma must reimagine its entire strategy and embrace digital transformation to succeed in this rapidly changing marketing environment that is becoming increasingly complex. Reimagine Pharma Marketing: Make It Future-Proof introduces all these technology frameworks. Additionally, the book presents one hundred and two case studies showing how some of the leading pharmaceutical companies are applying the new age technologies and marketing frameworks effectively. It can be your single-source guidebook unraveling the future so you can manage it! Contents: 1. Reimagine Everything — Reimagine Every Element of Pharmaceutical Marketing Mix 2. Reimagine the Technology— How Pharma Can Harness the Power of New and Emerging Technologies 3. Reimagine Stakeholder Engagement—Winning with New Rules of Engagement 4. The Future of Pharma—A Look into the Crystal Ball Epilogue You're Gonna Need a Bigger Boat!

*Night of Many Dreams* Gail Tsukiyama, 2007-04-01 As World War II threatens their comfortable life in Hong Kong, young Joan and Emma Lew escape with their family to spend the war years in Macao. When they return home, Emma develops a deep interest in travel and sets her sights on an artistic life in San Francisco, while Joan turns to movies and thoughts of romance to escape the pressures of her real life. As the girls become women, each follows a path different from what her family expects. But through periods of great happiness and sorrow, the sisters learn that their complicated ties to each other—and to the other members of their close-knit family—are a source of strength as they pursue their separate dreams.

**Indonesia's Digital-Based Economic Transformation: The Emergence of New Technological, Business, Economic, and Policy Trends in Indonesia** Prof. Dr. Sri Adiningsih, M.Sc., et al., 2019-09-17 Today, digital-based economies are developing rapidly, both in the world and in Indonesia. This development raises important issues, such as online versus motorcycle taxi disputes, online retail versus offline retail issues, on-demand services, and personal data security. This book describes in detail the development of digital-based economies in Indonesia, ranging from e-commerce, financial technology, to on-demand services. To provide a more complete picture of what is happening at the global level, this book also discusses the development of digital transformation in other countries, such as Australia, the United States, the United Arab Emirates, the People's Republic of China, and India. In addition, this book also discusses the direction of digital-based technological and economic development, including projections of the types of jobs in the future. This book contributes constructive thinking in an effort to build a progressive Indonesia in the digital age, as well as being a reference material for all parties who wish to study digital-based economic transformation in Indonesia.

*The Housekeeper* Ren e M. Gilley, 2019-10-09 The Housekeeper is a romance novel about a happily married woman, Rachel, that is taken by surprise when her husband of twenty years asks for a divorce. She is so hurt that she gets in her car and drives, having no idea where she is or where she's going. Night approaches, and she pulls off the interstate to find a restaurant for a bite to eat and a hotel for the night. Donna, the owner of the restaurant, takes a liking to Rachel and offers her a job and a place to stay when she finds out Rachel is a pastry chef. Rachel accepts the offer and the plot begins as the new pastry chef impresses the entire town of Taylorsville with her wonderful pastries and outgoing personality. The local Pastor spots her running one morning and becomes intrigued by the new lady in his little town. It is not long till he sees Rachel working in the restaurant and finds a way to meet her. Rachel is not interested in Robert since she thinks he's a priest. Love begins to blossom between the two and he offers her a job as his housekeeper after he explains he is a pastor, not a priest. There is humor with the little puppy he finds in the snow outside her back door and it's the puppy the binds these two, together. There are interesting twists and turns, complete with an identical twin showing up that no one in Taylorsville knew about. You will fall in love with the six main characters and enjoy the love story that develops between the three couples.

Re-platforming the Airline Business Nawal K. Taneja,2019-01-23 Airline business models continue to be shaped by powerful forces relating to customers, complexities and regulators. However, at the same time, there are emerging technologies that can help airlines cater to the needs of their changing customer bases and manage the complexities of the business. In his previous books, Nawal Taneja has deliberated on these forces and how the airline industry is poised for disruptive change that could come from within or outside of the industry. He also discussed the point that the airline planning systems and process in use are neither contemporary nor sufficiently integrated to meet the changing needs of customers who now are looking for outcomes, not products. In Re-platforming the Airline Business: To Meet Travelers' Total Mobility Needs, Taneja not only reiterates the need for transformation of the airline business but provides a map of the transformational process. This book proposes that different sectors of the aviation industry, particularly airlines and airports, should consider using not just a wide array of technologies (Artificial Intelligence, biometrics, blockchain, and the Internet of Things), but also specifically-designed customer-centric platforms to make informed decisions and to develop and implement transformative strategies to meet travelers’ total mobility needs. These technologies and platforms can enable airlines and airports to achieve scale and scope as well as agility and flexibility (through strategic partnerships) to offer intelligently aggregated travel-related services right now. Subsequently, they will enable various members in the travel chain to provide solutions to travelers’ global mobility requirements, effectively and with better experiences.
