Divided into easy-to-reference sections, this book will help you tackle the why, where, and how of self-guided bonefishing. Informed by twenty years of experience on the flats, Rod Hamilton and Kirk Deeter describe the allure of matching wits with one of fly fishing’s most elusive targets and discuss the reasons why more and more fly fishermen are seeking the challenge of catching bonefish without the aid of a guide. Do It Yourself Bonefishing is packed with useful tips to help all levels of fly fishermen locate and catch more of one of the world’s premier gamefish. Learn stalking strategies, how to spot bonefish, appropriate fly selection, and where to find the fish. As you plan your bonefishing trip, the authors’ destination chapters and “Seven-Day Sample Trip” itineraries suggest where to fish, how to get there, and places to stay. Included is a list of more than 300 individual bonefish hotspots located throughout the tropics, complete with maps and tips specific to the flat or creek system. Within the “Spousal Rating” section are Hamilton’s opinions on how suitable the destination is for nonfishers; the “Nonfishing Activities” section highlights things to do when not fishing. City Fishing Richard Chiappone, 2002 Sometimes the wildest fishing happens right in your own town-or in the city you happen to be visiting Some of fly-fishing's most gifted writers proclaim the joys and rewards of fishing urban waters Shelves of books have been written about the ultimate fly-fishing experience: the trip to remote, pristine waters where fish are plentiful and wild. But sometimes there's good fishing to be found right down the street, in the most unlikely of settings. These writers share stories about the fish they've found in the midst of Manhattan, London, Tokyo, and Paris. Fishing a manmade lake in the suburbs of Minnesota, a park pond in New Jersey, in suspect rivers within sight of factories in Buffalo and Oakland, they steal an hour or two and go off to fish where they can, when they can, because they can't not fish. This unorthodox collection reveals what true fishermen understand: good fishing is to be had anywhere you can find it.

On the East End Clarence Hickey, 2015-07-11 In 1970, as a young marine biologist, Clarence Hickey won a position on the staff of the New York State Ocean Sciences Laboratory, Montauk, NY. For the next five years he was involved in landmark studies of Long Island's then-thriving fisheries. He developed deep bonds with the Baymen and ocean fishers who called the East End of Long Island home, and worked closely with them as he and the Ocean Sciences Lab studied the habits and prospects of more than one hundred species of fish and shellfish that call Long Island home -- or visit our waters on a regular basis. This is his loving, anguished memoir of those years, replete with vivid portraits of the traditional fishers and scientists he worked with, their habits and discoveries, and their history-suffused community. Like their brethren to the north and south on the East Coast, Long Island's Bonacker fishing community represents a long and colorful tradition celebrated most famously in Peter Mattheissen's classic *Men's Lives*. Hickey's memoir is an elegiac complement to that book. Perhaps more important, Hickey calls for our deep attention to the destruction -- in less than a generation -- of a crucial natural resource. The contrast between Clarence's years on the East End and today is stark and disturbing. Over the last forty years he has revisited his beloved East End regularly, and watched with alarm as our ecosystem -- and it's community -- has declined. On the East End is Clarence Hickey's clarion call for us to preserve and revive the natural community he fell in love with when he was young. A publication of the Long Island Nature Organization.
