Google Wallet - a Glimpse Into the Future of Mobile Payments Rohan Handa,Kritika Maheshwari,Malvika Saraf,2011-12 Project Report from the year 2011 in the subject Information Management, University of Southern California, language: English, abstract: Over the past few thousand years of

evolution, the way we pay has changed shapes and materials. It has gone from gold to coins, paper money to plastic cards and now with Google's venture into the mobile payment industry, we are at the threshold of the next big shift. Google Wallet is a mobile payment Android app that transforms a phone into a wallet. This app utilizes the Near Field Communication (NFC) technology that allows its users to pay for purchased items and redeem offers. At this initial stage of business, there are many features and factors that Google needs to change in order to bring about the mass adoption of this service. As the Business Technology Analysts at Google, we - Kritika Maheshwari, Malvika Saraf and Rohan Handa aim at addressing the hurdles for this technology and the methods to bring it to fruition. In the process we evaluate Google's profit motivation and the bigger strategy behind this service. First, we explain the business approach which describes the importance of the adopted business model. We use Porter's Five Force analysis to determine the competitive intensity in the market followed by SWOT analysis to give recommendations that will help in the mass adoption. Finally, we focus our paper on formulating a strategy canvas in order to study the existing payment methods in comparison to our service. The paper concludes with recommendations to Google for promoting wide customer acceptance.

Make Each Click Count Using Google Shopping Andy Splichal,2020-05-20 Winner of The Official 2020 Best of Los Angeles AwardWhen done well, Google Shopping provides e-commerce retailers with the most profitable marketing channel available today. However, advertising with Google Shopping has many moving parts including creating and uploading products to Google Merchant Center, managing products inside the Google Ads interface, and optimizing your account results based on historical data. The complexity of Google Shopping creates many poorly managed and underperforming accounts leaving vast opportunities for those that can create well-run and optimized Google Shopping campaigns.Packed with strategies and step-by-step instructions, Make Each Click Count Using Google Shopping delivers the knowledge needed for those wanting to properly setup, optimize and profit using Google Shopping to advertise for years to come.What's included?This book has been divided into 5 main sections.- Laying The Groundwork - Here Google Shopping is explained including the history, what it has now become and what it looks like.- Optimizing Google Merchant Center - Properly optimizing Merchant Center with complete data is essential for success using Google Shopping campaigns. This section focuses on the importance of Merchant Center as well as best-practices and common techniques for creating a fully optimized Merchant Center account.- Optimizations Inside Google Ads - This section covers in detail the strategies and best-practices for optimizing Shopping campaigns inside the Google Ads interface. Discover how to best optimize your campaigns using historical data to predict future success in relations to keywords, adjusting product bids, adjusting mobile bids, adjusting location bids and more.- Automating Google - The fourth section goes into detail on automated features of Google Shopping including the new Google Smart Shopping campaigns, different automated bid strategies and merchant participating in Google Shopping Actions.- Advanced Techniques - Written for those wishing to dive even deeper into Google Shopping, this section looks at advanced techniques such as using the Google Ads editor, using supplemental feeds and using positive keywords to control search terms.How Should You Read This Book?How to read this book is going to depend on you and what you want to take from the book. Reading the book in order, cover-to-cover, will lead to some great insights in a perspective you have never thought about - even for the most experienced advertiser - and provide a full look at advanced techniques and strategies.For the advertiser just starting with Google Shopping, this book will lead them through a journey from inception to completion with a step-by-step guide to create and maintain successful Google Shopping campaigns.If you are pressed for time, start reading the chapter that details where you currently need help in your account. However, make sure you return to read the full book!Won't This Book Become Outdated?The short answer is YES. It is hard to believe that it has been almost five years since I published my first book - Make Each Click Count - T.O.P. Guide To Success Using Google Ads.In the five years since that book was published, the Google interface has changed multiple times. Some of the terminology has changed. Heck, even the name has changed (Google AdWords is now Google Ads). However, the strategies and underlying fundamentals for my original book have not changed.Likewise, with this book, I can promise with absolute certainty that in a year or less (maybe even by the time this book is published) some of the Google Ads interface will have changed.That is just the nature of Google AdWords (excuse me, I meant to say Google Ads).However, what won't change are the advanced strategies on how to segment your account and how to use the historical data to optimize your account to predict future success.
