**Unbroken (Movie Tie-in Edition)** Laura Hillenbrand, 2018-08-21 #1 NEW YORK TIMES BESTSELLER • The incredible true story of survival and salvation that is the basis for two major motion pictures: 2014's *Unbroken* and the upcoming *Unbroken: Path to Redemption*. On a May afternoon in 1943, an Army Air Forces bomber crashed into the Pacific Ocean and disappeared, leaving only a spray of debris and a slick of oil, gasoline, and blood. Then, on the ocean surface, a face appeared. It was that of a young lieutenant, the plane's bombardier, who was struggling to a life raft and pulling himself aboard. So began one of the most extraordinary odysseys of the Second World War. The lieutenant's name was Louis Zamperini. In boyhood, he'd been a cunning and incorrigible delinquent, breaking into houses, brawling, and fleeing his home to ride the rails. As a teenager, he had channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics and within sight of the four-minute mile. But when war had come, the athlete had become an airman, embarking on a journey that led to his doomed flight, a tiny raft, and a drift into the unknown. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, a foundering raft, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. In her long-awaited new book, Laura Hillenbrand writes with the same rich and vivid narrative voice she displayed in *Seabiscuit*. Telling an unforgettable story of a man's journey into extremity, *Unbroken* is a testament to the resilience of the human mind, body, and spirit. Praise for *Unbroken* "Extraordinarily moving . . . a powerfully drawn survival epic."—The Wall Street Journal "[A] one-in-a-billion story . . . designed to wrench from self-

respecting critics all the blurby adjectives we normally try to avoid: It is amazing, unforgettable, gripping, harrowing, chilling, and inspiring.”—New York “Staggering . . . mesmerizing . . . Hillenbrand’s writing is so ferociously cinematic, the events she describes so incredible, you don’t dare take your eyes off the page.”—People “A meticulous, soaring and beautifully written account of an extraordinary life.”—The Washington Post “Ambitious and powerful . . . a startling narrative and an inspirational book.”—The New York Times Book Review “Marvelous . . . Unbroken is wonderful twice over, for the tale it tells and for the way it’s told. . . . It manages maximum velocity with no loss of subtlety.”—Newsweek “Moving and, yes, inspirational . . . [Laura] Hillenbrand’s unforgettable book . . . deserve[s] pride of place alongside the best works of literature that chart the complications and the hard-won triumphs of so-called ordinary Americans and their extraordinary time.”—Maureen Corrigan, Fresh Air “Hillenbrand . . . tells [this] story with cool elegance but at a thrilling sprinter’s pace.”—Time “Unbroken is too much book to hope for: a hellride of a story in the grip of the one writer who can handle it.”—Christopher McDougall, author of *Born to Run*

A Dictionary of Cebuano Visayan John Wolff, 2016-01-27 This is a dictionary of Cebuano Visayan, the language of the central part of the Philippines and much of Mindanao. Although the explanations are given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. The work was edited by John Wolff but the sources are entirely native, and all illustrations are composed by native speakers. To date, this work probably represents the most authoritative dictionary of the Cebuano Visayan language.

*Slow Violence and the Environmentalism of the Poor* Rob Nixon, 2011-06-01 The violence wrought by climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Using the innovative concept of slow violence to describe these threats, Rob Nixon focuses on the inattention we have paid to the attritional lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today. Slow violence, because it is so readily ignored by a hard-charging capitalism, exacerbates the vulnerability of ecosystems and of people who are poor, disempowered, and often involuntarily displaced, while fueling social conflicts that arise from desperation as life-sustaining conditions erode. In a book of extraordinary scope, Nixon examines a cluster of writer-activists affiliated with the environmentalism of the poor in the global South. By approaching environmental justice literature from this transnational perspective, he exposes the limitations of the national and local frames that dominate environmental writing. And by skillfully illuminating the strategies these writer-activists deploy to give dramatic visibility to environmental emergencies, Nixon invites his readers to engage with some of the most pressing challenges of our time.

Technics and Civilization Lewis Mumford, 2010-10-30 Technics and Civilization first presented its compelling history of the machine and critical study of its effects on civilization in 1934—before television, the personal computer, and the Internet even appeared on our periphery. Drawing upon art, science, philosophy, and the history of culture, Lewis Mumford explained the origin of the machine age and traced its social results, asserting that the development of modern technology had its roots in the Middle Ages rather than the Industrial Revolution. Mumford sagely argued that it was the moral, economic, and political choices we made, not the machines that we used, that determined our then industrially driven economy. Equal parts powerful history and polemic

criticism, *Technics and Civilization* was the first comprehensive attempt in English to portray the development of the machine age over the last thousand years—and to predict the pull the technological still holds over us today. “The questions posed in the first paragraph of *Technics and Civilization* still deserve our attention, nearly three quarters of a century after they were written.”—*Journal of Technology and Culture*

**Tunerville** A. Elizabeth West, 2020-01-06 If you've ever wondered what would happen if you could meet a ghost, talk to it, or even touch it, this book is for you! Paranormal investigator Chris Taylor really wants to see a ghost. So he invents a remote control that tunes them back into the physical world. Hoping to help stranded spirits, he sells the rights to a TV network, only to see his gadget disrupt both earthly and unearthly society. The tuner's effect on humanity threatens the dimension that houses the afterlife, known as the Realm. Its Directorate sends an emissary, Callahan, to oversee a solution: Chris must persuade people to stop using his invention. The living don't want to give up the tuners - and neither do the dead. Chris enlists help from his friends, Callahan, and a groovy Seventies ghost and begins a clumsy romance with activist Hannah Lively. But when a scientist bent on glory tweaks the tuner and opens a dangerous portal, they're forced to devise a perilous plan to stop her. What follows takes Chris on a journey he never imagined, one that could ultimately cost him everything.

Photoshop Scott Kelby, 2004 Describes how to achieve the same effects that are seen in magazines, television, newspapers, and the Web using Adobe Photoshop.

**Songs in the Key of Z** Irwin Chusid, 2000 Irwin Chusid profiles a number of outsider musicians - those who started as outside and eventually came in when the listening public caught up with their radical ideas. Included are The Shaggs, Tiny Tim, Syd Barrett, Joe Meek, Captain Beefheart, The

Cherry Sisters, Daniel Johnston, Harry Partch, Wesley Willis, and others.

*Radio Production* Robert McLeish, Jeff Link, 2015-09-16 *Radio Production* is for professionals and students interested in understanding the radio industry in today's ever-changing world. This book features up-to-date coverage of the purpose and use of radio with detailed coverage of current production techniques in the studio and on location. In addition there is exploration of technological advances, including handheld digital recording devices, the use of digital, analogue and virtual mixing desks and current methods of music storage and playback. Within a global context, the sixth edition also explores American radio by providing an overview of the rules, regulations, and purpose of the Federal Communications Commission. The sixth edition includes: Updated material on new digital recording methods, and the development of outside broadcast techniques, including Smartphone use. The use of social media as news sources, and an expansion of the station's presence. Global government regulation and journalistic codes of practice. Comprehensive advice on interviewing, phone-ins, news, radio drama, music, and scheduling. This edition is further enhanced by a companion website, featuring examples, exercises, and resources: [www.focalpress.com/cw/mcleish](http://www.focalpress.com/cw/mcleish).

**The Environmentalism of the Poor** Joan Martínez-Alier, 2003-01-01 This is a wonderful book rich in empirical detail, full of theoretical insights, offering hope in a bleak world, altogether inspiring. . . a tremendous achievement of having helped to create the disciplines of ecological economics and political ecology, bringing them alive in this book, and making their insights available to the developing worldwide movement for environmental justice. Pat Devine, *Environmental Values* Any book by the ecological economist Joan Martinez-Alier is a Big Publishing Event. . . this is a book by a writer who loves his subject, knows it well, respects its history, and is driven by the desire to do

justice. These are qualities enough to send you to the bookshop or the library in search of *The Environmentalism of the Poor*. Andrew Dobson, *Environment Politics* The book is a worthy and in-depth contribution to debates about political ecology and ecological economics. It should be read by all environmental and ecological economists who wish to make their analysis more relevant. Tim Forsyth, *Progress in Development Studies* A marvellous combination of insight, research and activism. . . A must-read for policymakers, practitioners and academics alike, and for anyone concerned with sustainable development, environmentalism or poverty alleviation. *Human Ecology Journal* . . . one of the most important environmental books to have been published recently. Martinez-Alier integrates two of the most significant areas of environmental theory political ecology and ecological economics. Eurig Scandrett, *Friends of the Earth Scotland* The book has three main strengths: its bibliography, which is extensive; the global perspective on the environmental movement and the relationship with poverty; and the general theme of this interdisciplinary work, which is not so much to provide new information, but to consider the existing information in a new light. Martinez-Alier is to be commended for taking such a step in the literature . . . the writing style is extremely approachable . . . Recommended. B.J. Peterson, *Choice* [Joan] Martinez-Alier combines the honest discipline of a scholar with the passionate energy of an activist. The result, *The Environmentalism of the Poor*, is highly recommended! Herman E. Daly, University of Maryland, College Park, US *The Environmentalism of the Poor* has the explicit intention of helping to establish two emerging fields of study political ecology and ecological economics whilst also investigating the relations between them. The book analyses several manifestations of the growing environmental justice movement , and also of popular environmentalism and the environmentalism of the poor , which will be seen in the coming decades as driving forces in the process to achieve an ecologically

sustainable society. The author studies, in detail, many ecological distribution conflicts in history and at present, in urban and rural settings, showing how poor people often favour resource conservation. The environment is thus not so much a luxury of the rich as a necessity of the poor. It concludes with the fundamental questions: who has the right to impose a language of valuation and who has the power to simplify complexity? Joan Martinez-Alier combines the study of ecological conflicts and the study of environmental valuation in a totally original approach that will appeal to a wide cross-section of academics, ecologists and environmentalists.

**The Informed Parent** Tara Haelle, Emily Willingham, 2016-04-05 In the era of questionable Internet facts and parental oversharing, it's more important than ever to find credible information on everything from prenatal vitamins to screen time. The good news is that parents and parents-to-be no longer need to rely on an opinionated mother-in-law about whether it's okay to eat sushi in your third trimester, an old college roommate for sleep-training rules, or an online parenting group about how long you should breastfeed (there's a vehement group for every opinion). Credible scientific studies are out there--and they're bottom-lined in this book. The ultimate resource for today's science-minded generation, *The Informed Parent* was written for readers who prefer facts to friendly advice, and who prefer to make up their own minds, based on the latest findings as well as their own personal preferences. Science writers and parents themselves, authors Tara Haelle and Emily Willingham have sifted through thousands of research studies on dozens of essential topics and distill them in this essential and engaging book. --

**The Red Circle** Brandon Webb, John David Mann, 2012-04-10 Explosive, revealing, and intelligent, *The Red Circle* provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world. Now including an excerpt from *The Killing*

School: Inside the World's Deadliest Sniper Program BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS... HE HAD TO BECOME ONE HIMSELF. Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, *The Red Circle* provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy sniper cell and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors-including Marcus Luttrell and Chris Kyle-that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military.

Mathematicians in Love Rudy Rucker, 2008-07-08 A riveting new science fiction novel from the writer who twice won the Philip K. Dick Award for best SF novel. Bela and Paul, two wild young mathematicians, are friends and roommates, and in love with the same woman, who happens to be Alma, Bela's girlfriend. They fight it out by changing reality using cutting edge math, to change who gets the girl. The contemporary world they live in is not quite this one, but much like Berkeley, California, and the two graduate students are trying to finish their degrees and get jobs. It doesn't help that their unpredictable advisor Roland is a mad mathematical genius who has figured out a

way to predict isolated and specific bits of the future that can cause a lot of trouble. . .and he's starting to see monsters in mirrors. Bela and Paul start to mess around with reality, and when that happens, all heaven and hell break loose. Those monsters of Roland's were really there, but who are they? This novel is a romantic comedy with a whole corkscrew of SF twists. At the publisher's request, this title is being sold without Digital Rights Management software (DRM) applied.

Lakota Woman Mary Crow Dog,Richard Erdoes,2014-11-18 The bestselling memoir of a Native American woman's struggles and the life she found in activism: "courageous, impassioned, poetic and inspirational" (Publishers Weekly). Mary Brave Bird grew up on the Rosebud Indian Reservation

in South Dakota in a one-room cabin without running water or electricity. With her white father gone, she was left to endure “half-breed” status amid the violence, machismo, and aimless drinking of life on the reservation. Rebelling against all this—as well as a punishing Catholic missionary school—she became a teenage runaway. Mary was eighteen and pregnant when the rebellion at Wounded Knee happened in 1973. Inspired to take action, she joined the American Indian Movement to fight for the rights of her people. Later, she married Leonard Crow Dog, the AIM’s chief medicine man, who revived the sacred but outlawed Ghost Dance. Originally published in 1990, *Lakota Woman* was a national bestseller and winner of the American Book Award. It is a story of determination against all odds, of the cruelties perpetuated against American Indians, and of the Native American struggle for rights. Working with Richard Erdoes, one of the twentieth century’s leading writers on Native American affairs, Brave Bird recounts her difficult upbringing and the path of her fascinating life.
