*Over The Years* Sudip Bhattacharyya ,2015-12-26 It is a compilation of 107 articles on contemporary issues in society, politics and economy by Sudip Bhattacharyya over the years 1987 to 2015. The eight articles (written during a six years' span-1987 to 1992) were mainly on economics and finance focusing on financial liberalization, export market analyses and the new instruments of finance. The author resumed writing in 2010 with the publication of four essays on ethics, decision making and challenges in industry, trade and banking. From end-2010, he diversified into politics, sociology and management, while, retaining his first love in economics and finance. In the two sections on politics and sociology, 4 principal themes, apart from other contemporary happenings, were pursued namely the rise of Mamata, Kejriwal and Modi; federalism in approach to states and regional languages, Bangla in particular; declining ethos and ethics in India especially West Bengal and his pet theme and hope in politics, carried in 4 articles, was Mamata-Modi and other CMs-Modi working jointly for development despite and inspite of ideological differences. In the section on economics and finance, themes were widened to include emerging problems and prospects and ideal directions in the development path of India and West Bengal and the need for an enabling entrepreneurship ecosystem.

**Ideas and Transnational Climate Change Governance** Benjamin Abraham, 2018

**Problems and Prospects of Cashless India** Pankaj Kumar Mandal, The primary objective of this book is to highlight the problems and prospects of cashless India. It explores the factors that may impede India's transformation to a cashless economy and analyzes the country's potential for that transformation. In addition to that, the book captures the actual scenario of cashless payment in contemporary India. It will also provide the readers with a clear conception of cashless society and its payment methods. The book is meant for the common readers and hence technical jargons are avoided.

**Regulation in India: Design, Capacity, Performance** Devesh Kapur, Madhav Khosla, 2019-04-04 The rise of the regulatory state has been a major feature of modern constitutional democracies. India, the world's largest democracy, is no exception to this trend. This book is the first major study of regulation in India. It considers how the development of regulation in India has altered the nature and functions of the state; how it is reshaping the relationship between business and the state; how it has called for the refashioning of established legal principles; and how it has raised new questions about the relationship between technical expertise and the rule of law. The chapters cover topics ranging from the foundations of the Indian regulatory state to the form of regulation across different sectors to regulation in practice. Together, the chapters reveal the challenges, promise, and limitations offered by contemporary regulatory practices, and they capture the close if sometimes fraught relationship that regulation must inevitably share with the political economy and constitutional schema within which it operates.

**Gujarat Under Modi** CHRISTOPHE. JAFFRELOT, 2024-07 The definitive account of Modi's rule over his home state of Gujarat, for better and worse-- a template he now applies to India as a whole.

**Traditional Knowledge in Modern India** Nirmal Sengupta, 2018-09-29 This book demonstrates how traditional knowledge can be connected to the modern world. Human knowledge of housing, health and agriculture dates back thousands of years, with old wisdom developing and becoming modern. But in the past few decades, global communities have increasingly become aware that some of this valuable knowledge has fallen by the wayside. This has sparked systematic efforts at the local, national and global levels to connect this neglected knowledge to the modern world. It discusses the origin of the topic, its importance, recent developments in India and abroad, and what is being done and still needs to be done in order to preserve India's traditional knowledge. The discussions address a broad range of fields and organizations: from Basmati rice to Ayurvedic cosmetics; from traditional irrigation and folk music to modern drug discovery and climate change adaptation; and from the Biodiversity Convention to the WHO, WTO and WIPO.

*Ambient Urbanities as the Intersection Between the IoT and the IoP in Smart Cities* McKenna, H. Patricia, 2019-03-01 Modern day and technology-rich environments require a reconceptualization of how the nature of technology influences urban areas. Rethinking the way we apply these technologies will not only alter the way people communicate and interact, but it will also alter how individuals learn and explore the world around them. *Ambient Urbanities as the Intersection Between the IoT and the IoP in Smart Cities* offers insights about the ambient in 21st century smart cities, learning cities, responsive cities, and future cities, and highlights the importance of people as critical to the urban fabric of smart cities that are increasingly embedded with pervasive and often invisible technologies. The book, based on an urban research study, explores urbanity from multiple perspectives ranging from the cultural to the geographic. While highlighting topics including digital literacies, smarter governance, and information architectures, this book is ideally designed for students, educators, researchers, the business community, city government staff and officials, urban practitioners, and those concerned with contemporary and emerging complex urban challenges and opportunities.

**Banking on Equality** Supriti Bezbaruah, 2015-03-24 It may well be surprising to say that the world should look to India as a model of gender equality. India's banking sector proves the exception, with several women reaching the highest positions in India's top banks, including the country's largest bank. Based on interviews and surveys of bank employees in India's National Capital Region, this book looks at what lies behind the media rhetoric and provides a systematic analysis of patterns of, and responses to, gender inequality in the banking sector in India. The book uncovers how gender discrimination still persists in the banking sector, albeit in covert forms. Through a comparison of nationalized, Indian private and foreign banks, the book demonstrates how the impact of laws, local cultural norms and gendered workplace practices are mediated through different organizational forms in these different types of banks to create varied experiences of gender inequality. The book is one of the first books to provide a thorough, in-depth analysis of women's employment in the Indian banking sector, currently an under-researched area.

**Accountability in Global Governance** Gisela Hirschmann, 2020-06-24 How can international organizations (IOs) like the United Nations (UN) and their implementing partners be held accountable if their actions and policies violate fundamental human rights? This book provides a new conceptual framework to study pluralist accountability, whereby third parties hold IOs and their implementing partners accountable for human rights violations. Based on a rich study of UN-mandated operations in Afghanistan, Bosnia and Kosovo, the EU Troika's austerity policy, and Global Public-Private Health Partnerships in India, this book analyzes how competition and human rights vulnerability shape the evolution of pluralist accountability in response to diverse human rights violations, such as human trafficking, the violation of the rights of detainees, economic rights, and the right to consent in clinical trials. While highlighting the importance of alternative accountability mechanisms for legitimacy of IOs, this book also argues that pluralist accountability should not be regarded as a panacea for IOs' legitimacy problems, as it is often less legalized and might cause multiple accountability disorder.

*Platform Capitalism in India* Adrian Athique, Vibodh Parthasarathi, 2020-09-24 This volume provides a critical examination of the evolution of platform economies in India. Contributions from leading media and communications scholars present case studies that illustrate the social and economic ambitions at the heart of Digital India. Across interdisciplinary domains of business, labour, politics, and culture, this book examines how digital platforms are embedding automated systems into the social fabrics of everyday life. Encouraging readers to explore the phenomenon of platformisation in context, the book uncovers the distinctive features of platform capitalism in India.

**Modi's India** Christophe Jaffrelot, 2023-04-11 A riveting account of how a popularly elected leader has steered the world's largest democracy toward authoritarianism and intolerance Over the past two decades, thanks to Narendra Modi, Hindu nationalism has been coupled with a form of national-populism that has ensured its success at the polls, first in Gujarat and then in India at large. Modi managed to seduce a substantial number of citizens by promising them development and polarizing the electorate along ethno-religious lines. Both facets of this national-populism found expression in a highly personalized political style as Modi related directly to the voters through all kinds of channels of communication in order to saturate the public space. Drawing on original interviews conducted across India, Christophe Jaffrelot shows how Modi's government has moved India toward a new form of democracy, an ethnic democracy that equates the majoritarian community with the nation and relegates Muslims and Christians to second-class citizens who are harassed by vigilante groups. He discusses how the promotion of Hindu nationalism has resulted in attacks against secularists, intellectuals, universities, and NGOs. Jaffrelot explains how the political system of India has acquired authoritarian features for other

reasons, too. Eager to govern not only in New Delhi, but also in the states, the government has centralized power at the expense of federalism and undermined institutions that were part of the checks and balances, including India's Supreme Court. Modi's India is a sobering account of how a once-vibrant democracy can go wrong when a government backed by popular consent suppresses dissent while growing increasingly intolerant of ethnic and religious minorities.

**Transnational Climate Change Governance** Harriet Bulkeley, Liliana B. Andonova, Michele M. Betsill, Daniel Compagnon, Thomas Hale, Matthew J. Hoffmann, Peter Newell, Matthew Paterson, Charles Roger, Stacy D. VanDeveer, 2014-07-21 Leading experts provide the first comprehensive account of transnational efforts to respond to climate change, for researchers, graduate students and policy makers.

**Faces of Inequality** Pradeep Baisakh, 2022-01-06 Amid the talks of a five trillion dollar Indian economy, there is still an India where people struggle to arrange two square meals a day. Many strive hard for basic needs of food, health and education. Often unheard and ignored, these voiceless people mostly don't matter to the mainstream media. This book, through various ground reports over a decade and a half, captures the stories of the most marginalised people of society. All the reports should serve as a warning bell till the time another man dies of starvation, an HIV positive woman is thrown out of her house, a girl is raped in brick kilns of Andhra Pradesh or a poor child is forced to work in the cotton fields of Gujarat. These are not mere real-life stories but a chronicle of policy and governance failures. The reports analyse the systemic causes of such failures. But all is not lost. Still, there are rays of hope amid the bleak picture. Many positive stories show us how, with the right policy interventions and community effort, the lives and livelihoods of the marginalised can flourish. Note: This book is a republication of author's selected articles published earlier in different newspapers, portals and journals. Author's announcement: 25% of the earnings incurred to the author from the sale of this book will be donated for social causes.

**From Lucknow to Lutyens** Abhigyan Prakash, 2022-02-15 With a population that would make it the fifth most populated in the world if it were a country, Uttar Pradesh has undoubtedly been India's most politically important state since Independence. It sends the highest number of Lok Sabha members to Parliament and has the biggest legislature in the country. It also has to its credit the highest number of prime ministers and powerful political dynasties. Yet it has been behind several states, despite being home to bastions of some of the biggest names in Indian politics. With its clear and decisive imprint on national politics, UP also reflects some of its worst ills: from casteism and using religion as a political plank to manoeuvring for power. From Lucknow to Lutyens tells the fascinating story of UP in post-Independence India and the intertwined fortunes of the two.

**Apps** Gerard Goggin, 2021-05-20 Since the rise of the smartphone, apps have become entrenched in billions of users' daily lives. Accessible across phones and tablets, watches and wearables, connected cars, sensors, and cities, they are an inescapable feature of our current culture. In this book, Gerard Goggin provides a comprehensive and authoritative guide to the development of apps as a digital media technology. Covering the technological, social, cultural, and policy dynamics of apps, Goggin ultimately considers what a post-app world might look like. He argues that apps represent a pivotal moment in the development of digital media, acting as a hinge between the visions and realities of the "mobile," "cyber," and "online" societies envisaged since the late 1980s and the imaginaries and materialities of the digital societies that emerged from 2010. Apps offer frames, construct tools, and constitute "small worlds" for users to reorient themselves in digital media settings. This fascinating book will reframe the conversation about the software that underwrites our digital worlds. It is essential reading for students and scholars of media and communication, as well as for anyone interested in this ubiquitous technology.

**The Global Political Economy of the Household in Asia** J. Elias, S. Gunawardana, 2013-10-08 The household has traditionally been neglected in studies of Asian political economy. While there is an emergent literature that looks at this relationship, to date, it is fragmented. The contributors consider how the household economy has increasingly been incorporated into development planning and policy making within both states and multilateral development agencies. They examine the social consequences of the tendency to view households as marketizable spaces, and explore how the household economy relates to broader structures of industrial production in the region. With case studies on Singapore, Malaysia, Sri Lanka, India, Japan, South Korea, Vietnam and China, they provide a comprehensive picture of the centrality of the household economy to ongoing processes and struggles associated with the continuous economic transformation of the region.

**Weighed down by the gains: India's twin double burdens of malnutrition and disease** Oommen C Kurian, Shoba Suri, 2019-05-21 Given its continent-like diversity, India's epidemiological, nutritional, and demographic transitions are occurring in a staggered fashion, with high state-level variances. In many parts of the country, high rates of undernutrition co-exist with equally high and increasing rates of overweight and obesity. Further, the incidence of non-communicable diseases (NCDs) as a leading cause of mortality is increasing, even as the communicable, maternal, neonatal and nutritional causes (or the "Millennium Development Goals (MDG) conditions") are coming down. Indeed, India has witnessed inconsistent progress towards the MDGs, and even in states where absolute levels of "MDG conditions" are still high, the NCD proportion is growing rapidly. The imperative is for a realignment of policy responding to fast-changing subnational realities, through greater integration between health and nutrition policy at every level of governance.

**Bio-Medical Ethics - E-Book** Olinda Timms, 2016-02-09 Bio-Medical Ethics - E-Book

**E-Governance for Smart Cities** T. M. Vinod Kumar, 2014-11-26 This book highlights the electronic governance in a smart city through case studies of cities located in many countries. "E-Government" refers to the use by government agencies of information technologies (such as Wide Area Networks, the Internet, and mobile computing) that have the ability to transform relations with citizens, businesses, and other arms of government. These technologies can serve a variety of different ends: better delivery of government services to citizens, improved interactions with business and industry, citizen empowerment through access to information, or more efficient government management. The resulting benefits are less corruption, increased transparency, greater convenience, revenue growth, and/or cost reductions. The book is divided into three parts. • E-Governance State of the Art Studies of many cities • E-Governance Domains Studies • E-Governance Tools and Issues

**Bullying, Cyberbullying and Student Well-Being in Schools** Peter K. Smith, Suresh Sundaram, Barbara A. Spears, Catherine Blaya, Mechthild Schäfer, Damanjit Sandhu, 2018-05-17 School bullying and cyberbullying are widely recognized as an international problem, but publications have focused on the western tradition of research. In India, recognition of these issues and research on the topics have been emerging in recent years. Beginning with cross-cultural differences across Indian, European and Australian contexts, this volume provides direct empirical comparisons between western and Indian situations. It then discusses innovative ways of hearing the views of students, pre-service teachers and teachers, featuring a range of qualitative and quantitative methodologies. The concluding commentaries from North American investigators provide a further international perspective from another region where much progress in researching these areas has been made. Together this ground-breaking collection comprises contributions from four continents on the prevalent issues of bullying, cyberbullying and student well-being.
