Bach Perspectives 11 Mary Oleskiewicz,2017-11-07 Among his numerous children, Johann Sebastian Bach sired five musically gifted sons. The eleventh volume of *Bach Perspectives* presents essays that explore these men's lives and careers via distinctive and, in several cases, alternative and interdisciplinary methodologies. Robert L. Marshall traces how each of the sons grappled with "and at times suffocated beneath "their illustrious father's legacy. Mary Oleskiewicz's essay investigates the Bach family's connections to historical keyboard instruments and musical venues at the Prussian court, while David Schulenberg looks at Carl Philipp Emanuel Bach's diverse and innovative keyboard works. Evan Cortens digs into everything from performance materials to pay stubs to offer a detailed view of the business of Carl Philipp Emanuel Bach's liturgical music. Finally, Christine Blanken discusses how the rediscovery of Bach family musical manuscripts in the Breitkopf archive opens up new perspectives on familiar topics.

Greek Rebetiko from a Psychocultural Perspective Daniel Koglin, 2017-07-05
Greek Rebetiko from a Psychocultural Perspective: Same Songs Changing Minds examines the ways in which audiences in present-day Greece and Turkey perceive and use the Greek popular song genre rebetiko to cultivate specific cultural habits and identities. In the past, rebetiko has been associated chiefly with the lower strata of Greek society. But Daniel Koglin approaches the subject from a different perspective, exploring the mythological and ritual aspects of rebetiko, which intellectual elites on both sides of the Aegean Sea have adapted to their own world views in our age of globalized consumption. Combining qualitative and quantitative methods from ethnomusicology, ritual studies, conceptual history and music psychology, Koglin casts light on the role played by national perceptions in the processes of music production and consumption. His analysis reveals that rebetiko persistently oscillates between conceptual categories: it is a music both ours and theirs, marginal and mainstream, joyful and grievous, sacred and profane. The study culminates in the thesis that this semantic multistability is not only a key concept to understanding the ongoing popularity of rebetiko in Greece, and its recent renaissance in Turkey, but also a fundamental aspect of the human experience on the south-eastern borders of Europe.
