Dragonworld Byron Preiss,2009-02-02 “Dragonworld goes far beyond the flashy pyrotechnics of contemporary fantasy and fantasy illustration. Joe Zucker is a superlative and original illustrator, and he reveals a rare and astonishing gift for infusing a richness of character into his pictures, which do justice to Byron Preiss's and Michael Reaves's compelling story.” —Maurice Sendak “Until now, there have been only two real grandmasters of modern epic fantasy—J.R.R. Tolkien and Ann McCaffrey. With the team of Preiss and Reaves, there are three, and may they write and write and write.” —United Press International Somewhere beyond the northern mists lies a land where dreams live and dragons are real. This is the tale of the twilight of the dragons, of two nations plunged into war by a tragic misunderstanding, of a shy dreamer's incredible voyage of peace to a long-forgotten land where nightmares are born. On Truth and Lies in a Nonmoral Sense Friedrich Nietzsche,2015-05-09 On Truth and Lie in an Extra-Moral Sense) is an (initially) unpublished work of Friedrich Nietzsche written in 1873, one year after The Birth of Tragedy. It deals largely with epistemological questions of truth and language, including the formation of concepts. Every word immediately becomes a concept, inasmuch as it is not intended to serve as a reminder of the unique and wholly individualized original experience to which it owes its birth, but must at the same time fit innumerable, more or less similar cases-which means, strictly speaking, never equal-in other words, a lot of unequal cases. Every concept originates through our equating what is unequal. According to Paul F. Glenn, Nietzsche is arguing that concepts are metaphors which do not correspond to reality. Although all concepts are human inventions (created by common agreement to facilitate ease of communication), human beings forget this fact after inventing them, and come to believe that they are true and do correspond to reality. Thus Nietzsche argues that truth is actually: A mobile army of metaphors, metonyms, and anthropomorphisms-in short, a sum of human relations which have been enhanced, transposed, and embellished poetically and rhetorically, and which after long use seem firm, canonical, and obligatory to a people: truths are illusions about which one has forgotten that this is what they are; metaphors which are worn out and without sensuous power; coins which have lost their pictures and now matter only as metal, no longer as coins. These ideas about truth and its relation to human language have been particularly influential among postmodern theorists, and On Truth and Lies in a Nonmoral Sense is one of the works most responsible for Nietzsche's reputation (albeit a contentious one) as the godfather of postmodernism.
