JOHN. D'OH

Graffiti a New York Andrea Nelli, 2012 In 1973, graffiti ran rampant in NYC, reaching its peak that summer. The work of black writers from the Bronx like SUPER COOL 223, RIFF 70 (WORM/CASH), and PHASE 2 defined the art which the kids called Top-to-Bottom or T-to-B, as it vertically covered a full subway car. Some T-to-B pieces were so elaborate and complex that the NYT hypothesized that they were a collaboration between professional artists and the graffiti writers. Here are photos from that heady era.

Forms of Collective Engagement in Youth Transitions, 2021-10-05 This collection sheds light on diverse forms of collective engagement among young people. Recent developments in youth studies, and the changing global shape of socio-economic conditions for young people, demand new approaches and ideas. Contributors focus on novel processes, practices and routines within youth collectivity in various contexts across the globe, including Indonesia, Spain, Italy, Norway and Poland. The chapters pay particular attention to transitional phases in the lives of young people. Conceptually, the book also explores the strengths and limitations of a focus on collectivity in youth studies. Ultimately, the book makes the case for a focus on forms of collectivity and engagement to help scholars think through contemporary experiences of shared social life among young people. Contributors are: Duncan Adam, Massimiliano Andretta, Roberta Bracciale, David Cairns, Diego Carbajo Padilla, Enzo Colombo, Valentina Cuzzocrea, Carles Feixa, Ben Gook,

STREET ART AND GRAFFITI JOHN. D'OH, 2018

Conflict Graffiti John Lennon, 2022-03-09 This study examines the waves of graffiti that occur before, during, and after a conflict—important tools of political resistance that make protest visible and material. Graffiti makes for messy politics. In film and television, it is often used to create a sense of danger or lawlessness. In bathroom stalls, it is the disembodied expression of gossip, lewdness, or confession. But it is also a resistive tool of protest, making visible the disparate voices and interests that come together to make a movement. In *Conflict Graffiti*, John Lennon dives into the many permutations of graffiti in conflict zones—ranging from the protest graffiti of the Black Lives Matter movement in Ferguson and the Tahrir Square demonstrations in Egypt, to the tourist-attraction murals on the Israeli Separation Wall and the street art that has rebranded Detroit and post-Katrina New Orleans. Graffiti has played a crucial role in the revolutionary movements of these locales, but as the conflict subsides a new graffiti and street art scene emerges—often one that ushers in postconflict consumerism, gentrification, militarization, and anesthetized forgetting. Graffiti has an unstable afterlife, fated to be added to, transformed, overlaid, photographed, reinterpreted, or painted over. But as Lennon concludes, when protest movements change and adapt, graffiti is also uniquely suited to shapeshift with them.

About Criminals Mark Pogrebin, 2004 About Criminals: A View of the Offender's World is a collection of readings that presents recent and important research on criminal behavior. The book takes a naturalistic approach, allowing criminals to discuss their offenses and lifestyles from their own perspective. This method gives criminals the opportunity to disclose details of their offending behavior and reasons for their participation in crime. About Criminals offers a first-hand examination of offenders' motivations, descriptions of how they operate, their thoughts about victims, and descriptive analysis about their sometimes deviant lifestyles.

Rockin' It Suckers: New York City's Most Wanted Graffiti Vandals Alain Ket Mariduen, Cousin Frank, 2020-04-15 New York in the 1980s was a city tormented by violent crime. But despite the violence some found room for creativity. Hip hop culture was in full bloom and a group of young graffiti artists became famous for their determination to keep the subway trains colourful despite the city's zero-tolerance policy towards graffiti. They became known as the infamous RIS crew, waging a war with the city's authorities. As a result, they took over New York with style, becoming one of the world's most influential graffiti crews. This is their story.

Voices in Aerosol Caitlin Frances Bruce, 2024-01-09 Looking specifically at the

Mexican city of León, in Guanajuato, the book shows graffiti as a contested tool for voicing public demands. It considers the changing perceptions and recognition of graffiti artists, their right to the city, and the use of public space from 2000 to 2018. Bruce studies the history of independent graffiti and state-sanctioned graffiti art to claim that its institutionalization creates tensions in the social relationships inside artist collectives, and fluctuating ideas about urban art, creative labor, and neoliberal entrepreneurship--

Changing Senses of Place Christopher M. Raymond, Lynne C. Manzo, Daniel R. Williams, Andrés Di Masso, Timo von Wirth, 2021-08-05 Global challenges ranging from climate change and ecological regime shifts to refugee crises and post-national territorial claims are rapidly moving ecosystem thresholds and altering the social fabric of societies worldwide. This book addresses the vital question of how to navigate the contested forces of stability and change in a world shaped by multiple interconnected global challenges. It proposes that senses of place is a vital concept for supporting individual and social processes for navigating these contested forces and encourages scholars to rethink how to theorise and conceptualise changes in senses of place in the face of global challenges. It also makes the case that our concepts of sense of place need to be revisited, given that our experiences of place are changing. This book is essential reading for those seeking a new understanding of the multiple and shifting experiences of place.

Tourists, Signs and the City Michelle M. Metro-Roland, 2016-02-24 Drawing upon the literature of landscape geography, tourism studies, cultural studies, visual studies and philosophy, this book offers a multi-disciplinary approach to understanding the interaction between urban environments and tourists. This is a necessary prerequisite for cities as they make themselves into enticing destinations and compete for tourists' attention. It argues that tourists make sense of, and draw meaningful conclusions about, the places in which they tour based upon the interpretation of the signs or elements encountered within the built environment, elements such as graffiti and lamp posts. The writings of the American pragmatist Charles S. Peirce on interpretation provide the theoretical model for explaining the way in which mind and world, or thoughts and objects, result in tourists interacting with place. This theoretical framework elucidates three applied studies undertaken with foreign visitors to the Hungarian capital of Budapest. Based upon extensive ethnographic field work, these studies focus on tourists' interpretation of the urban landscape, with particular attention paid to the encounters with national culture, the role of architecture and the importance of the prosaic in urban tourism.

Painting without Permission Janice Rahn, 2002-03-30 More than ever education students are required to study the social context of youth culture in order to understand and design

meaningful, motivational curriculum. There is a need to bridge the gap between theory and practice and to address the critical issues which confront the education of youth today. In studying hip-hop graffiti, the author explores a crucial but neglected area in the contemporary training of youth workers and educators. The author interviewed ten hip-hop graffiti writers of various race, class, and gender by audiotape and reviewed them until patterns emerged as themes, mainly issues concerning public space and community. She continued her relationship with the participants over a five-year period to observe the diversity and transformation of individuals within graffiti culture. The study begins with a literature review from Web resources, books, and subculture magazines on graffiti in order to define The Structure of Traditional Hip-Hop Graffiti Culture. This chapter lays the basic foundation familiar to all writers and points to the main issues in order to analyze how individual writers conform to or deviate from the standard subculture. The author addresses the complex issues which are layered behind a residue of illegally painted signatures, characters, and text. There is a need for the voices of young people to be heard, especially those who have found artistic integrity, and awareness of civic and political issues on their own terms. Youth are in an ongoing struggle to construct personal identities and communities that they want to live in. Hip-hop graffiti is only one example where they have created a space, within a peer-run environment, to respect and encourage their

political powers, ideas, and skills. The book asks whether an understanding of how adolescents learn outside of school can generate alternative sites for curriculum theorizing.

Broken Windows Graffiti NYC James Murray, Karla Murray, 2002 Full of vibrant, energetic and explosive images, Broken Windows Graffiti NYC documents the flowering of the graffiti movement of the post-train era. In the 1980's graffiti was pushed out of the subways as the trains were cleaned once and for all. In the 1990's, much of the graffiti action in New York migrated to the city's walls, enabling the 'writers' to execute more refined and concept-driven large-scale pieces. By the end of decade, this new medium was being used to great effect. Photographers James & Karla Murray took great pains to faithfully capture an unprecedented re-birth of the movement documenting the most significant murals created between 1996 2001. Broken Windows contains insightful interviews, an extensive selection of womens' graffiti, and features the work of more than 180 artists from The United States, Germany, France, Sweden, Finland, Denmark, Holland, Italy, and Norway.

Ethnographies in Pan Pacific Research Robert E. Rinehart, elke emerald, Rangi Matamua, 2015-06-26 The book is about exciting ethnographic happenings in the vibrant and growing global interface which includes Australia, New Zealand, and some of the Asian geographical regions, as well as - more broadly - the global South. It explores ethnographic writing as culture(s) (re)produced, positionalities of authors, tensions between authors and others, multi-faceted groups, and as co-productions of these works. The contributors describe and discuss a variety of topical areas of interest, from Facebook to memory work, from children's sexuality to urban racism, from meanings of Indigenous knowledge to how communities can come together to retain what is valuable to themselves. The authors also manage to locate themselves and others (positionings) in the research hierarchies (tensions). This is a valuable guide to the effects of 21st-century ethnography on the qualitative research project.

The Byzantine Shops at Sardis J. Stephens

Crawford,1990 The Byzantine Shops at Sardis form a complex of commercial establishments lining the south wall of Sardis's renowned synagogue and bath complex. They offer scholars a unique opportunity to study urban life and commercial architecture in the Late Antique period. Remarkably well preserved, these shops provide economic data vital to an understanding of the trade and commerce of their time. J. Stephens Crawford was a primary excavator of the shops and has worked at contemporary sites in Asia Minor. His first-hand insights elucidate his publication of the functions of the shops, which include dye shops, glass shops, a hardware store, and a restaurant. Crawford explores the evidence of religious diversity in the shops, where Jews and Christians lived and worked side by side. The contributors to this volume include Martha Goodway, George M. A. Hanfmann, Jane Ayer Scott, Pamela Vandiver, and Michael Weishan. Descriptions of the finds, which are extensively illustrated, are contributed by J. A. Scott. A comprehensive chapter of architectural comparanda from Asia Minor, Greece, Egypt, and the Near East presents some interesting parallels. Pamela Vandiver and Martha Goodway of the Smithsonian Conservation Laboratory provide an appendix of analyses of metal and fruit residues from the crucibles found in the shops, and a numismatic appendix summarizes the currency by mint.
