I Am the Grand Canyon Stephen Hirst,2006 *I Am the Grand Canyon* is the story of the Havasupai people. From their origins among the first group of Indians to arrive in North America some 20,000 years ago to their epic struggle to regain traditional lands taken from them in the nineteenth century, the Havasupai have a long and colorful history. The story of this tiny tribe once confined to a too small reservation depicts a people with deep cultural ties to the land, both on their former reservation below the rim of the Grand Canyon and on the surrounding plateaus. In the spring of 1971, the federal government proposed incorporating still more Havasupai land into Grand Canyon National Park. At hearings that spring, Havasupai Tribal Chairman Lee Marshall rose to speak. I heard all you people talking about the Grand Canyon, he said. Well, you're looking at it. I am the Grand Canyon! Marshall made it clear that Havasu Canyon and the surrounding plateau were critical to the survival of his people; his speech laid the foundation for the return of thousands of acres of Havasupai land in 1975. *I Am the Grand Canyon* is the story of a heroic people who refused to back down when facing overwhelming odds. They won, and today the Havasupai way of life quietly continues in the Grand Canyon and on the surrounding plateaus.

American Cars, 1973-1980 J. "Kelly" Flory, Jr.,2012-11-02 The 1973 oil crisis forced the American automotive industry into a period of dramatic change, marked by stiff foreign competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive "need-for-speed" engines of the late '60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden, yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980, including various "captive imports" (e.g. Dodge's Colt, built by Mitsubishi.) Within each model year, it reports on each manufacturer's significant news and details every model offered: its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs.
