A Tradition of Soup Teresa M. Chen,2009-04-28 Through recipes that use time-honored medicinal ingredients, A Tradition of Soup provides a fascinating narrative of the Southern Chinese immigrants who came to the United States in large numbers during the last half century, the struggles they faced and overcame, and the soups they used to heal and nourish their bodies. Following the Chinese approach to health, Teresa Chen, who was born into a family of food connoisseurs and raised by a gourmet cook, groups the recipes by seasons and health concerns according to Cantonese taxonomy: tong (simple broths, soups, and stews), geng (thickened soups), juk (rice soups or porridges), and tong shui (sweet soups), as well as noodle soups, wonton and dumpling soups, and vegetable soups. Also focusing on dahn (steaming) and louhfo (slow-cooking) soups associated with good health, the book features fresh, natural, and seasonal food. A Tradition of Soup highlights recipes that serve a wide range of purposes, from gaining or shedding weight to healing acne and preventing wrinkles. While some ingredients may seem foreign to Western readers, most are available in Chinese grocery stores. To help readers identify and procure these items, Chen provides a beautifully photographed ingredients glossary complete with Chinese names, pronunciation, and detailed descriptions.

Decolonial Aesthetics I Michaela Ott,Babacar Mbaye Diop,2023-01-30 The publication aims to make suggestions for a 'decolonisation of aesthetics' within an Afro-European framework. The texts (whose authors come from different cultural contexts between Germany, France, Senegal, Benin, Nigeria and Tunesia) do not only refer to heterogenous aesthetic practices understood as subversive and decolonial strategies, but also discuss philosophical questions of a renewed (non-in)dividual humanism. The artistic practices analyzed include artistic installations and ensembles as well as actions in urban and rural space, deceptive manœuvres at the borders and their photographic documentation, and many more.
