

Great British Equestrian

**Antony Wakeham, British, Southgate
Publishers**

Kingdom of the Horse Caroline Davis, 1998-01-01 Since the dawn of recorded history, humankind has lived with horses. Whether coexisting as wild creatures on the steppes of Europe, or sharing the legendary equine-human partnership following the horse's domestication, what emerged from this relationship is an illustrious family of breeds that continues to fascinate to this day. Written by a team of highly respected equestrian authors, *The Kingdom of the Horse* gloriously celebrates the horse, tracing its fascinating evolution from very early origins as the feral dawn horse *Eohippus* over 55 million years ago. It relates how this early horse adapted to become the first modern horse, and examines in detail the biology and conformation of the modern horse, which is profiled in a section of 50 major breeds from around the world in all sizes, shapes and colors. *The Kingdom of the Horse* relates how horsemanship and equestrian sports have developed into sophisticated artforms. Sumptuously detailed sections on the horse's role in war, art, and in myth and legend show how humankind has used the horse since domestication, and how the horse has equally captured and fired the human imagination.

The Girl on the Dancing Horse Charlotte Dujardin, 2018-03-08 *THE TOP 10 BESTSELLER FROM THE MOST DECORATED BRITISH FEMALE OLYMPIAN IN HISTORY* 'Refreshingly honest [...] a highly enjoyable, fascinating read.' *Horse and Hound*

To ride into that arena, next to a sea of British flags and hear the roar of clapping and cheering, was so exciting. It's a sound I will never, ever forget. Charlotte Dujardin and her charismatic horse Valegro burst onto the international sports scene with their record-breaking performance at the London,

2012 Olympics. The world was captivated by the young woman with the dazzling smile and her dancing horse. But no one quite knew what it took to get there, nor how hard the path to success would be - until now. Dujardin began riding horses at the age of two, but dressage was firmly the domain of the wealthy, not the life of a girl from a middle-class family. Her parents sacrificed all and with a undeterred focus, Charlotte left school at 16 to follow her dream. When she was invited to be a groom for the British Olympian Carl Hester, she began to ride Valegro, a dark bay gelding and an unbreakable bond was formed. This is their incredible story.

Making it Happen Carl Hester, Bernadette Hewitt, 2014-05-08 Carl Hester is one of the greatest ever equestrians, leading Great Britain to Gold Medal victory at the London 2012 Olympics. In these vibrant memoirs, he tells the incredible story of the passion for horse-riding which revolutionised his life and made him the champion he is today. Carl grew up on the remote Channel Island of Sark, moving to the UK mainland at the age of 16 to work with horses, mainly as a way to leave home. He could never have predicted what a great affinity he would have for dressage. Carl's career enjoyed a stratospheric rise as he progressed from working as a groom/rider to riding international dressage horses full time for renowned owners Dr and Mrs Bechtolsheimer, to training his own horses, and other top riders, to international success. Carl's early career revealed someone capable of monumental achievements. He provides a rare insight into both the people and the horses that drove him to victory, initially the skewbald mare Jolly Dolly on which he won the 1985 Young Riders Dressage Championship. During the early 1990s he rode in the World Championships, the European Championships and the 1992 Barcelona

Olympics, becoming Great Britain's youngest ever rider to compete in the Games. His riding skills have increased with age, culminating in the hugely successful years as part of the Gold Medal teams that won the 2011 European Dressage Championships and, of course, that made history at London 2012. He achieved both feats on the same extraordinary horse, Uthopia, while as a trainer he produced the even more remarkable combination of Charlotte Dujardin and Valegro. A first-class sportsman and a witty and engaging writer, Carl now offers his admirers the opportunity to read an intelligent, humorous and, above all, inspiring account of his life - from the ups and downs of his career to the motivations and techniques which have helped him to win 66 national titles, represent Team GB at four Olympic Games, two World Championships and seven European Championships, and become one of the best riders - and horsemen - in the world.

Riding for Recreation British Horse Society, Great Britain. Department of the Environment, Sports Council (Great Britain), 1971

Training for equestrian performance Jane Williams, David Evans, 2023-11-27 'Training for equestrian performance' is an essential guide for the modern equestrian competitor who wants to optimise their own and their horse's potential in training and competition, or for the equine sports science student wanting to understand the science of equestrian training. Leading equestrian researchers and performance analysis experts bring together the fundamental scientific principles which underpin competition preparation for the horse and rider. These include exercise physiology, psychology, conformation, biomechanics and feeding for performance. The book explores the principles of training and alternative

training methods, and how these principles translate to management of the equine athlete to extend careers and prevent injury occurring. Suggestions for how to successfully develop training strategies and plans matched to short and long term training and competition goals are provided. Developments in performance analysis techniques and equipment for the horse and rider, independently and as a partnership, are reviewed. This enables the reader to select techniques and devise training regimes which can help them achieve their own competitive goals. The book concludes by applying science to the practical requirements of a range of equestrian disciplines, giving practical advice and explanations of how to use science and technology to improve fitness, prevent injury and to achieve competition success. Horse owners, students, veterinarians, coaches and many other participants in equestrian sports will find new knowledge and perspectives to consider. 'Training for equestrian performance' will become a must-have training companion for the modern equestrian who wants to leave nothing to chance in their competition preparation.

British Equestrian Directory, 1996-97 Directory Publishers Association, British Equestrian Trade Association, Equestrian Management Consultants, 1996

Gold Nick Skelton, 2019-01-15 With a show-jumping career spanning over forty years, Nick Skelton is a legend in the equestrian world. No other rider has won so many major competitions on so many different horses and he is as popular at Olympia and Hickstead as he is at Aachen, Geneva, Paris and Spruce Meadows. Skelton has competed in eight Olympic Games. He was part of the gold medal-winning Great Britain team at London 2012 and made history by winning the individual Olympic gold medal at Rio 2016, riding at the age of fifty-eight his beloved horse

Big Star. Nick Skelton began riding at the age of eighteen months on a Welsh pony called Oxo. At the age of seventeenth in 1975, Skelton took team silver and individual gold at the Junior European Championships. He has competed many times at the European Show Jumping Championships, winning numerous medals, both individually and with the British team. In 1980 he competed in the Alternative Olympics, where he helped the British team to a silver medal. He still holds the British Show Jumping High Jump record that he set in 1978. In 2000, Skelton was forced into an early retirement after he broke his neck from a serious fall. But following an amazing recovery he came out of retirement in 2002 to compete again. Now he tells the full story of his eventful life and matchless achievements.

40 Fundamentals of English Riding Hollie H.

McNeil, 2011-01-01 90-minute DVD, all 40 fundamentals fully demonstrated with narration by the author--Sticker on dust jacket.

Equestrian Cultures in Global and Local Contexts

Miriam Adelman, Kirrilly Thompson, 2017-06-13 This edited volume demonstrates the broader socio-cultural context for individual human-horse relations and equestrian practices by documenting the international value of equines; socially, culturally, as subjects of academic study and as drivers of public policy. It broadens our understanding of the importance of horses to humans by providing case studies from an unprecedented diversity of cultures. The volume is grounded in the contention that the changing status of equines reveals - and moves us to reflect on - important material and symbolic societal transformations ushered in by (post)modernity which affect local and global contexts alike. Through a detailed consideration of the social relations and cultural dimensions of equestrian practices

across several continents, this volume provides readers with an understanding of the ways in which interactions with horses provide global connectivity with localized identities, and vice versa. It further discusses new frontiers in the research on and practice of equestrianism, framed against global megatrends and local micro-trends.

British Equestrian Directory 2001/02 Antony Wakeham, British, Southgate Publishers, 2000

Real Life Dressage Carl Hester, Polly Ellison, 2004 'The aim of this book is not to describe ideal training scenarios but to look at what we can do, to the best of our ability, with the horses we have. Difficult horses can become good horses?' Carl Hester

The Complete Textbook of Animal Health & Welfare E-Book Jane Williams, 2009-06-25 The Complete Textbook of Animal Health and Welfare is a core text for students in animal care, animal technology or animal science programmes, and a supplementary text for related equine, wildlife and veterinary courses. It provides an in depth text for students at Further Education (FE) levels 2 and 3, and a foundation text for students studying in Higher Education. Each chapter covers the subject in depth (level 3 FE) via diagrams, images and text, then summarises it at a foundation level (level 2 FE) to engage students of different abilities. core text for students studying animal care, animal technology or animal science supplementary text for related equine, wildlife and veterinary courses reflects all aspects covered in the animal care curriculum highly illustrated written by author with expertise in this area with many contributions from experienced educationalists and experts to ensure quality & validity covers all species

The History of the British Riding Pony Tom Best, 2011-03-30 The History of the British Riding Pony is

the fruit of many years of dedicated research and writing by an acknowledged expert on the subject. Drawing on archive material, the book explains how bloodlines emerged over the years and how the types we now see in our show rings have been developed. It describes in detail how the expertise of a few influential breeders initially brought together the best bloodlines from the Thoroughbred, Arab and native pony breeds to create a modern equine which has no equal. In writing this definitive account, Tom Best has not only preserved for posterity the origins and history of this important breed, but provided a fascinating backdrop of more than a century of social history. Fully illustrated with historical and contemporary photographs, the book is essential reading for British Riding Pony aficionados. It will also interest Thoroughbred, Arab and native pony enthusiasts, keen to learn of the formative role their own breed has played in the development of another. The History of the British Riding Pony is a tour de force which provides a unique overview of the development of the breed from the late 19th century, when ponies were required for polo, to the present day when ponies are used extensively in the show ring for children to ride, and is worthy of a place on every equestrian bookshelf.

The Manual of Horsemanship of the British Horse Society and the Pony Club ,1966

Gender and Equestrian Sport Miriam Adelman,Jorge Knijnik,2013-06-20 This volume brings together studies from various disciplines of the social sciences and humanities (anthropology, sociology, cultural studies, history and literary theory) that shed light on the equestrian world as a historically gendered and highly dynamic field of contemporary sport and culture. From high level international dressage and jumping, polo and the

turf, to the rodeo world of the Americas and popular forms of equestrian sport and culture, we are introduced to a range of issues that are played out at local and global, national and international levels. Students and scholars of gender, culture and sport will find much of interest in this original look at contemporary issues such as “engendered” (women’s and men’s) identities/subjectivities as equestrians, representations of girls, horses and the world of adventure in juvenile fiction; the current “feminization” of particular equestrian activities (and where boys and men stand in relation to this); how broad forms of social inequality and stratification play themselves out within gendered equestrian contexts; men and women and their relation to horses within the framework of current discussions on the relation of animals to humans (which may include not only love and care, but also exploitation and violence), among others. Singular contributions show how equestrian activities contribute to historical and current constructions of embodied “femininities” and “masculinities”, reflecting a world that has been moving “beyond the binaries” while continuing to be enmeshed in their persistent and contradictory legacy.

Courses for Horses Nicholas Clee, 2023-05-25 In parks, on downlands and heaths, by motorways, overlooking firths: the racecourses of Britain and Ireland are as various as the people you meet there. Some - Newmarket, Epsom, the Curragh - are rich in history, and among the most celebrated sporting venues in the world; others - Fakenham, Bangor-on-Dee, Perth - offer more modest but no less enjoyable spectacles. Journeying round these courses, Nicholas Clee meets the people who bring them to life: from those in the spotlight, including a Grand National-winning jockey, Derby-winning owner and top TV commentator; to many others with key roles in the sport -

bookmakers, form experts, racecourse managers and more. From them, he learns about the bravery, dedication, skill and expertise that make racing one of our most popular spectator sports. Whether basking in sunshine or sheltering from a hurricane, sampling a variety of pies or recoiling from the world's worst curry, losing his money with the bookies or at the Tote windows, Clee soaks up the atmosphere, delves into racing business, and marvels at the uniqueness of each course and its people. Written with a keen eye, gentle humour and a deep love for the sport, *Courses for Horses* take us behind the scenes at that grand outing: a day at the races.

The Dictionary of British Equestrian Artists Sally Mitchell, 1985

The Bridleway Tiffany Francis-Baker, 2023-06-08
Tiffany Francis-Baker explores how the relationship between humans and horses has shaped the British landscape, how horses have captured our wild imaginations, and how this connection has evolved and become part of our nation's ecosystems. Many of us enjoy walking on a bridleway. These ancient networks are familiar to walkers and riders and crisscross the British countryside, but we rarely stop to think about how these old routes came to be. In *The Bridleway*, Tiffany Francis-Baker examines our relationship with horses and ponders how they have become part of our nation's ecosystems. From atop her horse, Tiffany discovers how horses are woven into the fabric of British culture, from street and pub names to trading routes and coaching inns. As she investigates how horses have shaped British landscapes, she offers a glimpse into the intriguing history of the bridleway. Along the way, Tiffany visits a horse fair and learns about Traveller communities. She explores the role of equestrian sport and inclusivity, sees rewilding in action

on the Knepp Estate in Sussex and undertakes detective work to uncover ancient bridleways lost to time and meet the closest living ancestors of the truly wild horse. Part-domesticated and part-fiercely independent, horses can teach us a lot about our landscape and help us understand nature and our place within it. Except for the dogs and cats we choose to share our homes with, we have allowed horses far deeper into our society than any other animal. And as Tiffany investigates why horses have captured Britons' attention, she reveals how deeply rooted they have been in our culture for thousands of years.

Horses, Power and Place Neil Ward, 2023-12-05

Horses, Power and Place explores the evolution of humanity's relationship with horses, from early domestication through to the use of the horse as a draught animal, an agricultural, industrial and military asset, and an animal of sport and leisure. Taking an historical approach, and using Britain as a case study, this is the first book-length exploration of the horse in the more-than-human geography of a nation. It traces the role and implications of horse-based mobility for the evolution of settlement structure, urban morphology and the rural landscape. It maps the growth and various uses of horses to the point of 'peak horse' in the early twentieth century before considering the contemporary place of the horse in twenty-first century economy and society. It assesses the role of the horse in the formation of places within Britain and in the formation of the nation. The book reflects on the implications of this historical and contemporary equine geography for animal geographies and animal studies. It argues for the study of animals in general in how places are made, not just by humans. Written in a clear and accessible style, this book will be essential reading for students and scholars of animal geography and animal

studies more widely.

The Horse Debbie Busby, Catrin Rutland, 2019-07-16 A comprehensive, richly illustrated introduction to the fascinating natural history of the horse, from prehistory to the present There are countless books about keeping and riding horses. *The Horse* is different: it looks not only at the natural history of the horse in the context of its use by humans, but also at its own, independent story, describing the way horses live, think, and behave both alongside people and on their own. Beautifully designed and illustrated, *The Horse* provides an engaging and accessible introduction to these beloved animals. Beginning with evolution and development, *The Horse* tells how horses came into being more than fifty million years ago and were first domesticated more than five thousand years ago, eventually spreading across the globe. Chapters on Anatomy & Biology and Society & Behavior explain equine anatomy and how it has affected the lives and social structure of horses, and outline current scientific thinking on their behavior as individual and herd animals, including information on communication between horses. A chapter on Horses & People provides a thorough overview of the horse's many important roles in human history and today, from pack animal to sporting champion. Finally, the book ends with an engrossing and visually stunning photographic gallery of some fifty popular breeds of horses and ponies with essential information about each. Filled with surprising facts and insights, this book will delight anyone who loves horses and wants to understand them better. Provides a comprehensive, richly illustrated introduction to the evolution, development, domestication, and behavior of the horse—from life cycle, breeding, coats and colors, and the senses to courtship, parenting, communication, emotions, and learning Tells the full story

of horses, from their earliest fossil ancestors to the modern-day Equus Offers a detailed survey of how horses and humans have interacted since horses were domesticated, including their use for work and war in the past and recreational and competitive riding today Features infographics, diagrams, and more than 250 stunning color photographs Includes a beautiful photographic directory to some 50 popular breeds
