The Informal Media Economy Ramon Lobato, Julian Thomas, 2018-06-05 How are “grey market” imports changing media industries? What is the role of piracy in developing new markets for movies and TV shows? How do jailbroken iPhones drive innovation? The *Informal Media Economy* provides a vivid, original, and genuinely transnational account of contemporary media, by showing how the interactions between formal and informal media systems are a feature of all nations – rich and poor, large and small. Shifting the focus away from the formal businesses and public enterprises that have long occupied media researchers, this book charts a parallel world of cultural intermediaries driving global media production and circulation. It shows how unlicensed, untaxed, or unregulated networks, which operate across the boundaries of established media markets, have been a driving force of media industry transformation. The book opens up new insights on a range of topical issues in media studies, from the creative disruptions of digitisation to amateur production, piracy and cybercrime.

Alerta! Alerta! Patrick Strickland, 2018-12-04 Journalist Patrick Strickland provides on-the-ground profiles of the unique characters involved in anti-fascist struggles in various countries across Europe. The left and its anti-authoritarian variants were fighting far-right populism and neo-Nazis long before the mainstream media became aware of such groups. Strickland bases his profiles in their historical context, explaining the roots and gains of the far-right, as well as the history of anti-fascist efforts and how they inform today's struggles. Each profile, ranging from a 71-year-old grandmother armed with cans of spray paint to street-fighting youth, provides a window into the broader anti-fascist movement in each country, highlighting the creative tactics diverse individuals employ to fight hatred and white supremacy in their communities.

Selling Our Death Masks Yesenia Barragan, 2014-12-12 A radical historical ethnography on the meaning of a fundamentally new physical landscape of our age of austerity: cash-for-gold shops that numerically exploded in the wake of the worst economic crisis of our times.

The Depoliticisation of Greece's Public Revenue Administration Dionyssis Dimitrakopoulos, Argyris Passas, 2019-09-25 This book analyses the reform of Greece's public revenue administration promoted by its international lenders under the successive bailout agreements put in place since 2010. In particular, it shows how an integral part of the finance ministry was converted into an independent agency operating largely outside the direct control of the finance minister. The authors focus on the implementation of this major reform and demonstrate the impact of domestic decisions on the increasing specificity of the international lenders' demands and the concomitant lack of confidence in the Greek political elite's commitment to the reform package. This book helps readers understand the response to the eurozone crisis (especially, the conditionality of funding), Greece's reform capacity with a focus on its tax administration, and the expansion of the scope of non-majoritarian institutions in Western democracies.

When Greeks and Turks Meet Vally Lytra, 2016-02-11 The relationship between the history, culture and peoples of Greece, Turkey and Cyprus is often reduced to an equation which defines one side in opposition to the other. The reality is much more complex and while there have been and remain significant divisions there are many, and arguably more, areas of overlap, commonality and common interest. This book addresses a gap in the scholarly literature by bringing together specialists from different disciplinary traditions - history, sociology, anthropology, linguistics, literature, ethnomusicology and international relations, so as to examine the relationship between Greeks and Turks, as well as between Greek Cypriots and Turkish Cypriots, since the founding of the Republic of Turkey in 1923. *When Greeks and Turks Meet* aims to contribute to current critical and comparative approaches to the study of this complex relationship in order to question essentialist representations, stereotypes and dominant myths and understand the context and ideology of events, processes and experience. Starting from this interdisciplinary perspective and taking both diachronic and synchronic approaches, the book offers a fresh coverage of key themes including memory, history and loss; the politics of identity, language and culture; discourses of inclusion and exclusion. Contributors focus on the geographical areas of Greece, Turkey and Cyprus and on the modern historical period (since 1923) up to the present day, offering in some cases an informed perspective that looks towards the future. *When Greeks and Turks Meet* will be essential reading for students and researchers working on the cross-roads of Greece, Turkey and Cyprus, on South-East Europe and the Middle East more generally. It will also be a valuable resource for students and researchers in inter-cultural communication, cultural and media studies, language and education, international relations and politics, refugee and migration studies, conflict and post-conflict studies.

The Greek Crisis in the Media George Tzogopoulos, 2016-03-09 The portrayal of Greece by the international press during the financial crisis has been seen by many independent observers as very harsh. The Greeks have often been blamed for a myriad of international political problems and external economic factors beyond their control. In this original and insightful work George Tzogopoulos examines international newspaper coverage of the unfolding economic crisis in Greece. American, British, French, German and Italian broadsheet and tabloid coverage is carefully analysed. The *Greek Crisis in the Media* debates and dissects the extent to which the Greek response to the financial crisis has been given fair and balanced coverage by the press and questions how far politics and national stereotypes have played their part in the reporting of events. By placing the Greek experiences and treatment alongside those of other EU members such as Portugal, Ireland, Italy and Spain, Tzogopoulos examines and highlights similarities and differences in the ways in which different countries tackled the challenges they faced during this crucial period and explores how and why the world's media reported these events.

Karamichas, 2011-12-15 This volume explores sporting mega-events, their social, political, and cultural characters, the value systems that they inscribe and draw on, the claims they make on us and the claims the organisers make for them, the spatial and ethical relationships they create, and the responses of civil societies to them.

Macedonia and Greece John Shea, 2016-03-18 With the breakup of the former Yugoslavia and a pending NATO membership bid, an old conflict between Greece and Macedonia has taken on added significance for the international community. Greece has vehemently argued, particularly in the West, that the name Macedonia was in fact Greek and that its use by this new nation in the Balkans portended Macedonia's expansionist ambitions. The Macedonians bitterly disputed this, noting that Alexander the Great was a Macedonian, and adducing many other fascinating and rational arguments. Tensions were said to have been reduced by an interim agreement between the two countries, but the attempted assassination of Macedonian president Kiro Gligorov in October 1995 has again heightened hostility in the area. The genesis of the conflict is detailed here, as well as the modern day events that have led many observers to believe that the area is a flashpoint for a major war, greater than that in Bosnia.

Webcasting Worldwide Louisa S. Ha, Richard J. Ganahl, 2013-03-07 Webcasting Worldwide tackles one of the most timely topics in mass communication today—the delivery of audio and video content via the Web, or webcasting—employing a global perspective to explore the subject. It is unique in providing a theoretical framework by which to analyze business models of emerging media, and it also examines the business practices of leading webcasters in the world's most developed broadband markets. With webcasting in its early development, the approaches discussed in this volume set the standards for the webcasting industry. Representing the major broadband markets in the world, this text is an authoritative and valuable reference for both researchers and practitioners. The chapters relate the business practices of webcasting to the media market environment and established media industries, such as television and radio, as well as government and non-profit organizations. Downloadable resources offer PowerPoint charts for use in training, education, and research, along with tables, graphs, screenshots, and hyperlinks. Webcasting Worldwide is essential reading for academic researchers and media industry practitioners, and the volume will be a useful text in advanced courses addressing media technology, media management, and international communication. Prime Ministers in Greece Kevin Featherstone, Dimitris Papadimitriou, 2015 This book is concerned with a large question in one small, but highly problematic case: how can a prime minister establish control and coordination across his or her government? The Greek system of government sustains a 'paradox of power' at its very core. The Constitution provides the prime minister with extensive and often unchecked powers. Yet, the operational structures, processes and resources around the prime minister undermine their power to manage the government. Through a study of all main premierships between 1974 and 2009, *Prime Ministers in Greece* argues that the Greek prime minister has been 'an emperor without clothes'. The costs of this paradox included the inability to achieve key policy objectives under successive governments and a fragmented system of governance that provided the backdrop to Greece's economic meltdown in 2010. Building on an unprecedented range of interviews and archival material, Featherstone and Papadimitriou set out to explore how this paradox has been sustained. They conclude with the Greek system meeting its 'nemesis': the arrival of the close supervision of its government by the 'Troika' - the representatives of Greece's creditors. The debt crisis challenged taboos and forced a self-reflection. It remains unclear, however, whether either the external strategy or the domestic response is likely to be sufficient to make the Greek system of governance 'fit for purpose'.

Attack of the Difficult Poems Charles Bernstein, 2011-04-15 Charles Bernstein is our postmodern jester of American poesy, equal part surveyor of democratic vistas and scholar of avant-garde sensibilities. In a career spanning thirty-five years and forty books, he has challenged and provoked us with writing that is decidedly unafraid of the tensions between ordinary and poetic language, and between everyday life and its adversaries. *Attack of the Difficult Poems*, his latest collection of essays, gathers some of his most memorably irreverent work while addressing seriously and comprehensively the state of contemporary humanities, the teaching of unconventional forms, fresh approaches to translation, the history of language media, and the connections between poetry and visual art. Applying an array of essayistic styles, *Attack of the Difficult Poems* ardently engages with the promise of its title. Bernstein introduces his key theme of the difficulty of poems and defends, often in comedic ways, not just difficult poetry but poetry itself. Bernstein never loses his ingenious ability to argue or his consummate attention to detail. Along the way, he offers a wide-ranging critique of literature's place in the academy, taking on the vexed role of innovation and approaching it from the perspective of both teacher and practitioner. From blues artists to Tin Pan Alley song lyricists to Second Wave modernist poets, *The Attack of the Difficult Poems* sounds both a battle cry and a lament for the task of the language maker and the fate of invention.

Greek Rebetiko from a Psychocultural Perspective Dr Daniel Koglin, 2016-01-28 *Greek Rebetiko from a Psychocultural Perspective: Same Songs Changing Minds* examines the ways in which audiences in present-day Greece and Turkey perceive and use the Greek popular song genre rebetiko to cultivate specific cultural habits and identities. In the past, rebetiko has been associated chiefly with the lower strata of Greek society. But Daniel Koglin approaches the subject from a different perspective, exploring the mythological and ritual aspects of rebetiko, which intellectual elites on both sides of the Aegean Sea have adapted to their own world views in our age of globalized consumption. Combining qualitative and quantitative methods from ethnomusicology, ritual studies, conceptual history and music psychology, Koglin casts light on the role played by national perceptions in the processes of music production and consumption. His analysis reveals that rebetiko persistently oscillates between conceptual categories: it is a music both 'ours' and 'theirs', marginal and mainstream, joyful and grievous, sacred and profane. The study culminates in the thesis that this semantic multistability is not only a key concept to understanding the ongoing popularity of rebetiko in Greece, and its recent renaissance in Turkey, but also a fundamental aspect of the human experience on the south-eastern borders of Europe.

Her Voice Varvara Athanasiou-Ioannou,2021-11-01 This book's introduction is clear about where culturally diverse women stand in the 2020s: 'while we have made some meaningful inroads towards equality, we are nowhere near enough to where we need to be.' Such women face the glass ceiling of their gender, and a cultural ceiling as well. It assembles the voices of over 40 women from many walks of life, many of them high achievers, who detail the difficulties and the triumphs they have met within their lives. Their stories, strength and resilience inspire. Her Voice arose from the Food for Thought network, founded 20 years ago in Melbourne, made up of Greek Australian women originally, but quickly drawing in other migrant women and daughters of migrants through friendship, love and the recognition of how much they had in common. ----- ...a beautiful book! it's such a triumph - the content, the design, the intent. - Maggie Hamilton, Sydney ...A monumental book, a gift not only to Greek women but to multicultural Australia, a historical reference point for future generations ... it should be read by all men and women ... Touching, and inspiring - Bill Papastergiadis OAM, Melbourne ...Narrated with an authentic voice, this book is a treasure trove of life journeys. - Zografina Kopanidis, Melbourne Varvara's story and her book is beautiful and inspiring, a true display of intelligence, determination and empowerment ... These small windows into other women's choices reminds me how important relatable role models and mentors are for our girls. - Dora Kordakis, Melbourne I couldn't put the book down because literally and metaphorically I heard their voices. I cried. I giggled. I rejoiced. I connected with all of them. A brilliant book of historic importance. - Maria Makris, Melbourne Many thanks to Varvara for introducing me to so many wonderful and inspirational women. In particular, I found the key events that shaped and assisted each woman in her journey, to be very interesting! There is certainly valuable advice for younger women who read Her Voice: Greek Women and their friends. - Sandra Keown ...Amazing book ... a valuable resource for anyone who seeks to understand the role of women within our community and beyond and Varvara Ioannou deserves our heartfelt gratitude ... she is a national treasure ... many of the achievements of women are glossed over, effaced or obscured. This volume allows Greek women of all ages and others connected to our community to speak for themselves. What they choose to say about themselves and their worldview is significant. - Dean Kalimniou, Melbourne It is a wonderful book with a lot to offer and Varvara should be very proud of having brought it all to us women from all backgrounds but especially for women of Greek origin. - Marina Marangos, Brisbane
