  Multimedia Group Communication Andrew Rebeiro-Hargrave,David Viamonte Solé,2008-04-30 Group communication technologies enable users to form different types of mobile groups and to interact in real time with the participants of these groups. This book provides an in-depth overview of Multimedia Group Communications in the mobile domain. It specifies multimedia group communication concepts, introduces a range of applications, and proposes an evolution path. The concepts cover the walkie-talkie voice over IP service, XML list management, and Presence awareness technologies. The applications section embraces session control for closed professional groups and for open consumer groups. The evolution path includes exciting developments such as 'infotainment' and communication with non-human group members. Key Features: Easy to understand explanation of the Push to Talk over Cellular (PoC) service, as specified by the Open Mobile Alliance (OMA) Provides technical description of XML Document Management and SIMPLE Presence services Gives examples on how to deploy group communication services over 3GPP IP Multimedia Subsystem (IMS) and between IMS domains Describes

innovative use cases for multimedia group communication through integration with value-added services and through the next generation of OMA enablers Multimedia Group Communications is the first exploration to the field of one-to-many connectivity paradigm. It provides essential information on group communication for engineers, programmers and business managers working in the mobile arena, and will also be useful to business development planners and technically aware users.

  Web-Empower Your Church Mark Stephenson,2010-09-01 A great church website is more about ministry than technology. Web-Empower Your Church offers step-by-step guidance to web implementers and other church leaders who are on the exciting journey to building an effective web ministry. Mark's engaging, conversational style makes technology accessible. He offers first-hand advice on every aspect of building an internet ministry: from assembling a team to designing and maintaining the website to adding powerful ministry features. A first-hand account from one of the true pioneers of online ministry. Anyone interested in online ministry ought to read this book and learn from Mark's example. Andrew Careaga Author, eMinistry: Connecting with the Net Generation A clear picture on the do's and don'ts of web ministry for churches. A must read for churches who want to effectively engage in web ministry. Walt Wilson Founder and Chairman, Global Media Outreach, a ministry of Campus Crusade for Christ Stephenson has truly unleashed the power of internet ministry for your church. If you're looking for a readable and educating book on web-empowered

ministry, look no further. This book is it. I can't believe how much I learned from my first reading. I will be returning to the book over and over. Bill Easum President, Easum, Bandy & Associates Mark Stephenson is Director of CyberMinistry and Technology of Ginghamsburg Church, Tipp City, Ohio. He started the Ginghamsburg CyberMinistry back in 1996 as an unpaid servant. Over the years, as the ministry grew, Mark joined the Ginghamsburg staff, first part time and then full time. Currently, Ginghamsburg Church has one of the largest and most innovative church internet ministries in the world, and the ministry remains unpaid-servant based and "home grown" (no outside companies or consultants have been hired). The website has received national acclaim -- from write-ups in the Wall Street Journal to the Dallas Morning News to Christian Computing Magazine, and television stories by WBNS Channel 10 in Columbus, Ohio and on Fox News. Visionary leaders like Bill Easum and Len Sweet champion it as a must-see website. Mark, the "Church CyberGuy," is also a well-known speaker on CyberMinistry as he conducts presentations and workshops around North America for such organizations as Leadership Network, United Methodist Communications, North American Christian Convention, Brethren in Christ Church of North America, and Miami University of Ohio. Mark has provided consulting support to numerous churches from around the world to help them develop their web ministries. His passion for helping churches led him to start and lead the Web-Empowered Church, a ministry of The Foundation for Evangelism, to develop free web-ministry software for

churches and ministries worldwide.

Larstan's the Black Book on Corporate Security Tony Alagna,2005 The statistics are staggering: security losses in the billions, unauthorized

computer usage in 50 percent of businesses, $2 million spent per company on a single virus attack. The Black Book on Corporate Security offers a wide range of solutions to these challenging problems. Written by the brightest minds in the field, each of the essays in this book takes on a different aspect of corporate security. Individual chapters cover such topics as maintaining data safety, fighting online identity theft, managing and protecting intellectual property in a shared information environment, securing content, and much more. Written in clear, intelligible language, the book is designed around a spy motif that presents advanced information in a simple, entertaining format. Each spread features an Insider Notes sidebar, while the research conducted specifically for the book is displayed in easy-to-read charts accompanied by author analysis. Case studies, a glossary, and a resource index multiply the book's utility.

  Polyolefin Fibres S C O Ugbolue,2009-01-28 Polyolefins are one of the most widely used commercial polymers. This book reviews the most important polyolefins, including polyethylene and polypropylene. These versatile fibres are durable, chemically resistant, lightweight, economical and functional. Written by a distinguished team of international contributors, Polyolefin fibres: industrial and medical applications is a quintessential reference for textile technologists, fibre scientists, yarn and fabric manufacturers and also those in academia. Reviews the most important polyolefins including polyethylene and polyproplene, their structural and chemical properties as well as production methods Examines methods to improve the functionality of polyolefin fibres including production methods and quality control

   Introduction to Email Productivity IntroBooks Team,2019-12-04 Email productivity has gradually become one of the leading areas of research in human-computer interaction due to increasing email users. With the rapid advancement in the field of communication, email has started to play a central role in business communication. According to a research report, email volume is growing at a speed of nearly 15pc per year1. However, increased reliance on email has resulted in the proliferation of messages in the mail-boxes. Consequently, this has engendered a variety of issues for email users. For instance, health issues, lack of time management, opportunity cost, and other problems. But, these problems can be overcome by taking multi-pronged remedial measures for increasing efficiency in managing email. Several

writers have suggested their own methods for increasing email productivity; however, these methods can be categorized into three groups: email management techniques for the individual employee, plans for the organization or the employer, and inbox usability improvements by the software programmer.
