The European Union's Broader Neighbourhood Sieglinde Gstöhl, Erwan Lannon, 2015-07-16 Over the past decade the European Union (EU) has gradually developed the European Neighbourhood Policy (ENP) with its neighbours. At the same time, the 'neighbours of the EU's neighbours' have presented new challenges. This book addresses the EU's broader neighbourhood, comprising of the ENP countries and the neighbours of its neighbours. With specific focus on Saharan Africa, the Middle East and Central Asia, it discusses trans-regional policy issues that arise from the EU's relations with regions beyond the ENP. Based on an interdisciplinary, policy-oriented approach, this volume explores major political, legal, security and socio-economic challenges and identifies opportunities for cooperation across the EU's broader neighbourhood. This book will be of interest to students, experts and scholars interested in EU affairs and politics, international relations, EU and international law, diplomacy and area studies.

EU and CARICOM Alicia Elias Roberts, Stephen Hardy, Winfried Huck, 2020-10-12 Investigating the unique EU-CARICOM legal relationship, this book explores the major theme of globalisation, which shapes inter-regional organisations individually and determines their relationship to one another. It evaluates how EU-CARICOM relations have fostered trade, security and other development measures, reflecting on the past, future and present of the Caribbean states that are active in the EU-CARICOM framework. Providing case studies on key issues such as immigration, tax and energy, it examines the impact that the EU-CARICOM has on the slave trade and the deportation of millions of people. Such bitter experiences still indirectly shape culture, hopes and the economic framework of possibilities today; therefore, the focus of the volume is on the issues which the constant stream of globalisation creates. The book assesses many potential impacts that the agenda of the EU and Brexit pending will have upon the EU-CARICOM relationship, given the potential for these to create instability. Overall, it highlights how the EU and CARICOM are representations for multilateralism and serve as models that provide the basis for many successful initiatives and agreements. In all new agreements and negotiations, the will to accept the Sustainable Development Goals and thus to make inequality, climate change and other goals of the SDGs the basis of an order that puts people at the centre, are evaluated, and the global agenda 2030 and its impact on EU-CARICOM. Rules of Origin in International Trade Stefano Inama, 2022-05-12 This book provides comprehensive, in-depth analysis of the different sets of rules of origin adopted by major trading partners and worldwide, as well as efforts to establish multilateral rules at WTO and WCO. It discusses the status of non-preferential as well as preferential rules of origin in international trade, their evolution during the last decades and their tendencies and future. With its multidisciplinary approach, this book's contents provide comparative analysis of the relevant legal and economic features of different rules origin compilation sets, reviewing their drafting differences and their implications and impact on the economic and industrial environments. This edition has been updated and expanded to include the latest developments on rules of origin at multilateral level in WTO and WCO and on rules of origin in recent FTAs. Drawing from his thirty years of experience, Stefano Inama provides insights from trade negotiations along with practical tools for policy makers and practitioners, orientation for the private sector and analytical tools for researchers.

Evaluation of the Integrated Food Security Phase Classification (IPC) Global Strategic Programme (GSP) 2019-2022 Food and Agriculture Organization of the United Nations, 2022-10-08 This report presents the results of the evaluation of the second phase of the Integrated Food Security Phase Classification (IPC) Global Strategic Programme (GSP). The evaluation reviewed the strategic direction and performance of the programme from 2019 to 2022 and makes a series of recommendations for the future strategic direction of the GSP in its next phase, which will begin in 2023. The report explores the use and utility of the IPC, its governance, the adaptive capacity within the programme, and how equity and gender are addressed in IPC analyses.

The European Union and Human Rights Jan Wouters, Manfred Nowak, Anne-Luise Chane, Nicolas Hachez, 2021-02-17 EU commitment to human rights policies has grown following the Lisbon Treaty. Taking stock of those developments, this book describes the framework, actors, policies, and strategies of human rights across the EU and how their impact is felt. Contributed to by scholars from across the EU, this provides an in-depth and holistic view of the issues.

India, Europe and Pakistan Professor Rajendra K Jain, 2017-09-15 Containing thirteen chapters by Indian and European scholars and practitioners, this volume critically examines the multifarious domestic and external challenges that Pakistan confronts today. It discusses the vicissitudes of the European Union's relations with Pakistan and the cultural, economic, political and military relations of Central Europe and key European countries—France, Germany and the United Kingdom—with Pakistan. The study highlights the different approaches of India and the European Union towards the Kashmir dispute and the considerations, concerns and policy of the EU towards democracy promotion in Pakistan. It also seeks to answer the question whether the relationship between the North Atlantic Treaty Organization and Pakistan is a transactional relationship or an enduring partnership. The book analyses the problems faced by Pakistan's oil and gas sector and the challenges and opportunities for European companies to expand Pakistan's energy basket. The volume examines the nature, dynamics and challenges of social integration and political participation by the Pakistani diaspora in the United Kingdom. It also explores the political context that shapes both policy and discourse on immigrant integration with special reference to the Pakistani diaspora's lived experience in three Scandinavian countries. The study will be of interest to all those engaged in the fields of political science, international relations, European politics and foreign policy and Indian and South Asian politics and foreign policy.

Research Handbook on the EU's Common Foreign and Security Policy Steven Blockmans, Panos Koutrakos, 2018 In times of rapid change and unpredictability the European Union's role in the world is sorely tested. How successfully the EU meets challenges such as war, terrorism and climate change, and how effectively the Union taps into opportunities like mobility and technological progress depends to a great extent on the ability of the EU's institutions and member states to adopt and implement a comprehensive and integrated approach to external action. This Research Handbook examines the law, policy and practice of the EU's Common Foreign and Security Policy, including the Common Security and Defence, and gauges its interactions with the other external policies of the Union (including trade, development, energy), as well as the evolving political and economic challenges that face the European Union.

Reverse logistics of waste electrical and electronic equipment and environmental sustainability Uanderson Rebula de Oliveira, 2020-06-03 The sale of Electrical and Electronic Equipment (EEE) is growing worldwide due to technological innovations and the speed with which they become obsolete, which increases the production of a solid residue called Waste Electrical and Electronic Equipment (WEEE), or e-Waste. WEEE is a relevant problem, as it contains several toxic substances capable of harming the environment and human health. This is why a proper environmental management is required. After the creation of the National Policy on Solid Waste (PNRS) in Brazil - Law No. 12.305, of August 2, 2010, manufacturers, importers, distributors, and traders have become responsible for implementing Reverse Logistics (RL) systems, which aim at the return of products after use by the consumer. Although the electronics industry is concerned about the RL of its products, RL of WEEE is not a subject widely addressed within Brazil or internationally. In fact, e-waste is a new subject in the world literature. This book aims to identify how WEEE management can contribute to the improvement of the EEE supply chain performance in Brazil, at an environmental sustainability point of view. Therefore, we identify: The global and Brazilian background, overview, and perspectives to improving solid waste and WEEE management at an environmental sustainability point of view; Brazilian legislation and practices; international legislation and good practices in WEEE management, which suggest improvements to the WEEE management in Brazil; and good practices in using product identification technologies, such as Radio Frequency Identification (RFID) in e-waste reverse logistics systems, such as the renowned Hewlett-Packard (HP) Smartwaste Project.

International Yearbook of Soil Law and Policy 2019 Harald Ginzky, Elizabeth Dooley, Irene L. Heuser, Emmanuel Kasimbazi, Robert Kibugi, Till Markus, Tianbao Qin, Oliver Ruppel, 2021-03-24 This book presents an important discussion on the implementation of sustainable soil management in Africa from a range of governance perspectives. It addresses aspects such as the general challenges in Africa with regard to soil management; the structural deficiencies in legal, organizational and institutional terms; and specific policies at the national level, including land cover policies and persistent organic pollutants. This fourth volume of the International Yearbook of Soil Law and Policy is divided into four parts, the first of which deals with several aspects of the theme “sustainable soil management in Africa.” In turn, the second part covers recent international developments, the third part presents regional and national reports (i.a. Mexico, USA and Germany), and the fourth discusses cross-cutting issues (i.a. on rural-urban interfaces). Given the range of key topics covered, the book offers an indispensable tool for all academics, legislators and policymakers working in this field. The “International Yearbook of Soil Law and Policy” is a book series that discusses central questions in law and politics with regard to the protection and sustainable management of soil and land – at the international, national and regional level.

Governing Corporate Social Responsibility in the Apparel Industry after Rana Plaza Anil Hira, Maureen Benson-Rea, 2017-05-22 This edited collection critically explores the efforts of the apparel industry to improve safety conditions and suggests governance reforms that will resolve lingering issues. The volume examines two consortia: the Alliance and the Accord, which set up cooperative auditing systems of supplying factories and penalties for non-compliance, and include funding to help factories comply and for workers if factories are idled during repairs, though the editors raise doubts about the long-lasting value of such efforts. In the wake of the 2013 Rana Plaza disaster, leading researchers across labor relations and industry studies tackle and debate such issues, giving their perspective of how multinationals operating in developing countries should regulate labor standards in order to resolve and improve the substandard working conditions under which much of our clothing is made.

Trade in the Service of Sustainable Development Olivier De Schutter, 2015-09-10 In the Bretton Woods era, trade liberalization, the improvement of labour rights and working conditions, and the strengthening of environmental policies, were seen as mutually supportive. But is this always true? Can we continue to pretend to protect the rights of workers and to improve

environmental protection, particularly through climate change mitigation strategies, within an agenda focused on trade liberalization? Is it credible to pursue trade policies that aim to expand the volumes of trade, without linking such policies to labour and environmental standards, seen as 'non-trade' concerns? This book asks these questions, offering a detailed analysis of whether linkage is desirable and legally acceptable under the disciplines of the World Trade Organization (WTO). It concludes that trade can work for sustainable development, but only if we see it as a means for social and environmental progress, including climate change mitigation, and if we avoid fetichizing it as an end to be pursued for its own sake.
