Supporting Users in Password Authentication with Persuasive Design Tobias Seitz,2018-08-03 Activities like text-editing, watching movies, or managing personal finances are all accomplished with web-based solutions nowadays. The providers need to ensure security and privacy of user data. To that end, passwords are still the most common authentication method on the web. They are inexpensive and easy to implement. Users are largely accustomed to this kind of authentication but passwords represent a considerable nuisance, because they are tedious to create, remember, and maintain. In many cases, usability issues turn into security problems, because users try to work around the challenges and create easily predictable credentials. Often, they reuse their passwords for many purposes, which aggravates the risk of identity theft. There have been numerous attempts to remove the root of the problem and replace passwords, e.g., through biometrics. However, no other authentication strategy can fully replace them, so passwords will

probably stay a go-to authentication method for the foreseeable future. Researchers and practitioners have thus aimed to improve users' situation in various ways. There are two main lines of research on helping users create both usable and secure passwords. On the one hand, password policies have a notable impact on password practices, because they enforce certain characteristics. However, enforcement reduces users' autonomy and often causes frustration if the requirements are poorly communicated or overly complex. On the other hand, user-centered designs have been proposed: Assistance and persuasion are typically more user-friendly but their influence is often limited. In this thesis, we explore potential reasons for the inefficacy of certain persuasion strategies. From the gained knowledge, we derive novel persuasive design elements to support users in password authentication. The exploration of contextual factors in password practices is based on four projects that reveal both psychological aspects and real-world constraints. Here, we investigate how mental models of password strength and password managers can provide important pointers towards the design of persuasive interventions. Moreover, the associations between personality traits and password practices are evaluated in three user studies. A meticulous audit of real-world password policies shows the constraints for selection and reuse practices. Based on the review of context factors, we then extend the design space of persuasive password support with three projects. We first depict the explicit and implicit user needs in password support. Second, we craft and evaluate a choice architecture that illustrates how a phenomenon from marketing psychology can provide new insights into the design of nudging strategies. Third, we tried to empower users to create memorable passwords with emojis. The results show the challenges and potentials of emoji-passwords on different platforms. Finally, the thesis presents a framework for the persuasive design of password support. It aims to structure the required activities during the entire process. This

enables researchers and practitioners to craft novel systems that go beyond traditional paradigms, which is illustrated by a design exercise.

Brandweek , 2002-10

Brand is a Four Letter Word Austin McGhie, 2012 In this breakthrough book, marketing expert Austin McGhie urges readers to set aside their obsession with branding and instead focus on the real work of marketing: positioning. In fact, McGhie believes there's no marketing problem or opportunity that can't be framed as a positioning exercise. He argues that brands are a marketplace response, not a marketer's stimulus; if that response from the audience is simple, clear and on strategy, marketers can build a brand. Drawing on his 30-year career working with some of world's best-known brands, including Disney, ESPN, Nike, Google, Visa, Expedia, Best Buy, Microsoft,

Anheuser-Busch, Abbott and YouTube, McGhie tackles the strategic essence of positioning and creating differentiated advantage. He deftly weaves the positioning discussion throughout the book with a series of real-life anecdotes to deliver a crisp, clear view of what it means to build a brand. McGhie has written a practical book that will guide and inspire marketers and in turn help them guide and inspire their audiences.

Word and Image in Japanese Cinema Dennis Washburn, Carole Cavanaugh, 2001 Word and Image in Japanese Cinema examines the complex relationship between the temporal order of linguistic narrative and the spatiality of visual spectacle, a dynamic that has played an important role in much of Japanese film. The tension between the controlling order of words and the liberating fragmentation of images has been an important force that has shaped modern culture in Japan and that has also determined the evolution of its cinema. In exploring the rift between word and image, the essays in this volume clarify the cultural imperatives that Japanese cinema reflects, as well as the ways in which the dialectic of word and image has informed the understanding and critical reception of Japanese cinema in the West.

Discourse and Technology Philip LeVine, Ron Scollon, 2004-02-16 The overarching theme of Discourse and Technology is cutting-edge in the field of linguistics: multimodal discourse. This volume opens up a discussion among discourse analysts and others in linguistics and related fields about the two-fold impact of new communication technologies: The impact on how discourse data is collected, transcribed, and analyzed—and the impact that these technologies are having on social interaction and discourse. As inexpensive tape recorders allowed the field to move beyond text, written or printed language, to capture talk—discourse as spoken language—the information

explosion (including cell phones, video recorders, Internet chat rooms, online journals, and the like) has moved those in the field to recognize that all discourse is, in various ways, multimodal, constructed through speech and gesture, as well as through typography, layout, and the materials employed in the making of texts. The contributors have responded to the expanding scope of discourse analysis by asking five key questions: Why should we study discourse and technology and multimodal discourse analysis? What is the role of the World Wide Web in discourse analysis? How does one analyze multimodal discourse in studies of social actions and interactions? How does one analyze multimodal discourse in educational social interactions? and, How does one use multimodal discourse analyses in the workplace? The vitality of these explorations opens windows onto even newer horizons of discourse and discourse analysis.

Widescreen Dreams Patrick E. Horrigan, 1999-04-20 In 1973, a sweet-tempered, ferociously imaginative ten-year-old boy named Patrick Horrigan saw the TV premiere of the film version of *Hello, Dolly!* starring Barbra Streisand. His life would never be the same. *Widescreen Dreams: Growing Up Gay at the Movies* traces Horrigan's development from childhood to gay male adulthood through a series of visceral encounters with an unexpected handful of Hollywood movies from the 1960s and 1970s: *Hello Dolly!*, *The Sound of Music*, *The Poseidon Adventure*, *Dog Day Afternoon*, and *The Wiz*.

Teaching Ethnic Diversity with Film Carole Gerster, Laura W. Zlogar, 2006-01-02 From the beginning of the 20th century, Hollywood filmmakers have shaped public beliefs about and attitudes toward African Americans, Asian Americans, Native Americans, and Latinos. Challenging and updating the historical record, ethnic minority filmmakers have been re-presenting their histories, cultures, and literature from the perspectives of their own experience. The resulting films offer teachers an effective means for teaching ethnic diversity in today's media-saturated culture. This work details rationales and methods for incorporating readily available films into the high school and college undergraduate curriculum, particularly in history, social studies, literature, and film studies courses. It includes definitions of race and ethnicity and essays on the film history of African American, Asian American, American Indian, and Latino representation. Subsequent chapters, organized by disciplines, describe specific ways to teach visual and multicultural literacy with films, including suggestions for topics, methods, and films, and ending with four discipline-specific curriculum units for high school students. Film terminology and a list of resources to help teachers create their own curriculum units complete the work.

Mime the Gap Richard Knight, 2018-08-23 *Mime the Gap: Techniques in Mime and Movement* explores the physicality of movement in storytelling, offering new ideas about acting and performance, whilst encouraging a contemporary resurgence of this traditional performance art. With detailed, step-by-step instructions of basic to advanced mime illusions, the book addresses the key areas of physicality, including when to move and when not to move, making the invisible 'visible' and the fundamental principles of physical articulation. Additional topics include how to use the elements of Fire, Earth, Water and Air for physical characterization; techniques for performing

classic mime routines, such as the Glass Box and the Moonwalk; how to mime with props and objects, both visible and invisible; using breath, posture and gesture to enhance performance and perceptions, and finally, creating and producing an authentic performance. Offering numerous exercises suitable for solo or group work, this new book will help you to explore and develop your physicality and build an awareness of how to apply it to a performance. A practical guide to mime - a traditional performance art which is having a resurgence. Addresses the key areas of physicality including when to move and when not to move; making the invisible 'visible'; principles of physical articulation and much, much more. A valuable guide for acting students, mime artists and anyone looking to increase personal confidence and presentation skills. Gives detailed step-by-step instructions of basic to advanced mime illusions. Superbly illustrated with 181 colour photographs. Richard Knight has over thirty years experience of performing, directing and teaching in the theatre, film and television industry.

Yes Logo Jiazhao George Wang, Shuo Qin, Allison Wang, 2023-10-16 This book focuses on how to succeed in China, the globe's largest consumer market, through the branding market strategy. What are the undisclosed recipes that brands can follow to capture the attention and emotion of consumers in China? What's the magical key to open the locked doors? The answer to these questions would be intriguing for many readers outside China, including but not limited to executives of global brands, owners of medium-and-small-sized businesses aiming for the global market, branding/marketing professionals, financial investors and analysts, business professors and researchers in universities and colleges, graduate and undergraduate students, and readers with an interest on these topics in the general public. In comparison with many case studies that focus on only a single or few cases, or else lean toward being a macro-discussions of China's consumer

market without in-depth analysis of representative cases, this book provides both. Many branding strategies, programs, and activities presented in this book are of the innovative type, which could be very fresh and interesting to readers. Many of the in-depth analyses and specific insights presented in this book are provided by well-recognized business analysts/writers, which may not be available in other publications. Overall, this book provides readers with the opportunity to receive some valuable new knowledge about how to succeed in the globe's largest consumer market, providing foodstuff for both thought and enjoyment.
