**Introductory Grammar of Amharic** Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

*Color of Violence* INCITE! Women of Color Against Violence, 2016-07-22 The editors and contributors to *Color of Violence* ask: What would it take to end violence against women of color? Presenting the fierce and vital writing of organizers, lawyers, scholars, poets, and policy makers, *Color of Violence* radically repositions the antiviolence movement by putting women of color at its center. The contributors shift the focus from domestic violence and sexual assault and map innovative strategies of movement building and resistance used by women of color around the world. The volume's thirty pieces—which include poems, short essays, position papers, letters, and personal reflections—cover violence against women of color in its myriad forms, manifestations, and settings, while identifying the links between gender, militarism, reproductive and economic violence, prisons and policing, colonialism, and war. At a time of heightened state surveillance and repression of people of color, *Color of Violence* is an essential intervention. Contributors. *The Extractive Zone* Macarena Gómez-Barris, 2017-11-03 In *The Extractive Zone* Macarena Gómez-Barris traces the political, aesthetic, and performative practices that emerge in opposition to the ruinous effects of extractive capital. The work of Indigenous activists, intellectuals, and artists in spaces Gómez-Barris labels extractive zones—majority indigenous regions in South America noted for their biodiversity and long history of exploitative natural resource extraction—resist and refuse the terms of racial capital and the continued legacies of colonialism. Extending decolonial theory with race, sexuality, and critical Indigenous studies, Gómez-Barris develops

new vocabularies for alternative forms of social and political life. She shows how from Colombia to southern Chile artists like filmmaker Huichaqueo Perez and visual artist Carolina Caycedo formulate decolonial aesthetics. She also examines the decolonizing politics of a Bolivian anarcho-feminist collective and a coalition in eastern Ecuador that protects the region from oil drilling. In so doing, Gómez-Barris reveals the continued presence of colonial logics and locates emergent modes of living beyond the boundaries of destructive extractive capital.

**8 Steps to a Pain-Free Back** Esther Gokhale, 2013-03-01 With a fresh approach to a common problem, this self-help guide to overcoming back pain advocates adopting the natural, healthy posture of athletes, young children, and people from traditional societies the world over. Arguing that most of what our culture has taught us about posture is misguided—even unhealthy—and exploring the current epidemic of back pain, many of the commonly cited reasons for the degeneration of spinal discs and the stress on muscles that leads to back pain are examined and debunked. The historical and anthropological roots of poor posture in Western cultures are studied as is the absence of back pain complaints in the cultures of Africa, Asia, South America, and rural Europe. Eight detailed chapters provide illustrated step-by-step instructions for making simple, powerful changes to seated, standing, and sleeping positions. No special

equipment or exercise is required, and effects are often immediate.
