Loose Balls Terry Pluto,2011-07-19 What do Julius Erving, Larry Brown, Moses Malone, Bob Costas, the Indiana Pacers, the San Antonio Spurs and the Slam Dunk Contest have in common? They all got their professional starts in the American Basketball Association. What do Julius Erving, Larry Brown, Moses Malone, Bob Costas, the Indiana Pacers, the San Antonio Spurs and the Slam Dunk Contest have in common? They all got their professional starts in the American Basketball Association. The NBA may have won the financial battle, but the ABA won the artistic war. With its stress on wide-open individual play, the adoption of the 3-point shot and pressing defense, and the encouragement of flashy moves and flying dunks, today's NBA is still—decades later—just the ABA without the red, white and blue ball. *Loose Balls* is, after all these years, the definitive and most widely respected history of the ABA. It's a wild ride through some of the wackiest, funniest, strangest times ever to hit pro sports—told entirely through the (often incredible) words of those who played, wrote and connived their way through the league's nine seasons.

Thrilling, beautiful, and blisteringly smart, *We Were Liars* is utterly unforgettable. —John Green, #1 New York Times bestselling author of *The Fault in Our Stars*

The Ancient Secret of the Flower of Life, Volume 2 Drunvalo Melchizedek,2000 The sacred Flower of Life pattern, the primary geometric generator of all physical form, is explored in even more depth in this volume, the second half of the famed Flower of Life workshop. The proportions of the human body, the nuances of human consciousness, the sizes and distances of the stars, planets and moons, even the creations of humankind, are all shown to reflect their origins in this beautiful and divine image. Through an intricate and detailed geometrical mapping, Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third-dimensional existence. From the pyramids and mysteries of Egypt to the new race of Indigo children, Drunvalo presents the sacred geometries of the Reality and the subtle energies that shape our world. We are led through a divinely inspired labyrinth of science and stories, logic and coincidence, on a path of remembering where we come from and the wonder and magic of who we are. Finally, for the first time in print, Drunvalo shares the instructions for the Mer-Ka-Ba meditation, step-by-step techniques for the re-creation of the energy field of the evolved human, which is the key to ascension and the next dimensional world.if done from love, this ancient process of breathing prana opens up for us a world of tantalizing possibility in this dimension, from protective powers to the healing of oneself, of others and even of the planet. Embrace the expanded vision and understanding that Drunvalo offers to the world. Coincidences abound, miracles flourish and the amazing stories of mysteries unveiled arise as the author probes the Ancient Secrets of the Flower of Life.
