Bolt Action: Campaign: Case Blue Warlord Games,2023-10-26 A supplement for the award-winning World War II wargame, Bolt Action, focusing on the Axis offensives through Eastern Ukraine and into the North Caucasus. After the failure of Barbarossa to utterly defeat the Soviet Union, a new plan was devised, Case Blue. This plan involved pushing through the southern Soviet Union to reach the Caucasus and secure the oil fields that Germany so desperately needed. While initially there was great success and sweeping advances as the autumn began, the Axis advances began to falter in the wake of Soviet resistance and counter attacks, culminating in the battles in and around Stalingrad. This Campaign Book for Bolt Action contains new linked scenarios, rules, troop types, and Theatre Selectors, providing plenty of options for novice and veteran players alike.

Black Ops Guy Bowers,2015-10-20 Black Ops is a skirmish wargame of tactical espionage combat that recreates the tension and excitement of modern action-thrillers such as the Bond and Bourne films. The fast-play rules keep all the players in the thick of the action, while the mission generator provides a wide range of options for scenarios – from stealthy extraction or surveillance missions to more overt raids and assaults. Stealth, combat, and technical expertise all have a role to play, and players may recruit a number of different operative types – spies, mercenaries, criminals, hackers, special forces, and many more – to recruit the best possible team for the job. Players may also choose to join a faction – powerful organizations, intelligence agencies, criminal syndicates, militaries, or rebel groups, each with a stake in international affairs. By doing so, their team may receive certain benefits, but may also find itself limited at a crucial time. With the variety offered by the characters, factions, and scenarios, no two games of Black Ops should ever be the same!

Gears of War: The Slab Karen Traviss,2012-05-08 An original novel based on the groundbreaking and award-winning military sci-fi-action video game series Gears of War—written by #1 New York Times bestselling author Karen Traviss! MARCUS FENIX. WAR HERO. LOYAL SON. TRAITOR. Ten years after Emergence Day, as the Locust Horde advances on humanity’s last defended area—Ephyra—in a bloody war that has seen billions die, Marcus Fenix does the unthinkable: he defies orders and abandons his post during a critical battle in a bid to rescue his father, weapons scientist Adam Fenix. But Adam is buried in the rubble during a ferocious assault on the Fenix mansion, and Ephyra falls to the enemy. Marcus, grieving for a father everyone believes is dead, is court-martialed for dereliction of duty and sentenced to forty years in the Coalition of Ordered Government’s brutal maximum security prison, known simply as the Slab. But Adam is very much alive, snatched from the destruction by the elite Onyx Guard on Chairman Richard Prescott’s orders. He’s now a long way from home and in a prison of his own—a COG doomsday bunker on the tropical island of Azura, a place hidden from the rest of Sera since the Pendulum Wars. His own guilty secret has been exposed: Adam knew the Locust existed deep below the surface of Sera long before Emergence Day, and were being driven from their tunnels by a lethal parasite known as the Lambent. Now he has to find a way to destroy the Lambent while the dwindling COG forces fight to hold back a growing Locust army that’s threatening to overrun the city. As Adam struggles to find redemption in his comfortable island jail, Marcus seeks his own atonement in the squalid, closed world within the Slab’s granite walls. While Dom Santiago and Anya Stroud fight to get him released, ready to make any sacrifice to free him, Marcus gradually finds unexpected kinship among Sera’s most dangerous criminals—and a way to carry on his personal war against the Locust.

Beyond Esoteric Brad Olsen,2021-01-14 Nothing in this world works the way you think it does; there is always more to the story. Be aware that there is a war for your mind and your soul. Corporations have taken over governments in a new form of Fascism that now incorporates high technology and artificial intelligence. The survival of the human race may depend on breaking the Embargo of truth, and collectively developing an ÜberMind. But truth always resonates! Beyond Esoteric takes off the kids gloves, and exposes the control grid extending its tentacles across the planet. The word occult means nothing more than to study the realm of the hidden. So much of real knowledge and wisdom is disguised because the people who run the planet feel that true information of how the world works and how to manifest reality is something you do not need to know. Everything we think we know about the world and the universe in which we live, whatever we have been led to believe concerning the course of human history, could very well be completely wrong, distorted and misinformed. The 19th century teachers of the occult could never have imagined The Ultimate Journey of the 21st century we now face, one that extends far Beyond Esoteric.

States of Siege Bert Useem,Peter Kimball,1991-07-18 This book examines case studies of recent prison riots in five states, including the 1971 radical uprising in Attica, New York, and the infamous 1981 bloodbath at the New Mexico Penitentiary. The most extensive and detailed work yet written on US prison riots, the authors explain the occurrence and variations of riots as a reflection of the administrative breakdown of the prison system within a changing ideological context. A theoretical appendix helps make this work an ideal introduction to sociological theories of collective action.
