Prepper Guns Bryce M. Towsley,2016-05-17 Food, water, and shelter are very important to survival. But you must also be ready to protect what is yours, because if somebody stronger, better prepared, and better equipped takes it all away, you will die. Your family will die. The only way to protect them is with firearms. Written with the law-abiding civilian in mind, Prepper Guns covers the firearms and tools needed to survive, not only for defense, but also for foraging. It is a comprehensive look at the realities of the firearms a prepper should have. Written by Bryce M. Towsley, a firearms expert and a full-time gun writer with thirty years of experience, it steps away from the "conventional wisdom" that is often spouted by prepper publishing and takes a hard, honest, look at the reality of the firearms, ammo, tools and training needed to survive at home and on the road. Prepper Guns takes a careful look at each category of firearms, ammo, sights, and accessories. Other topics include gun care and maintenance, as well as some simple gunsmithing and reloading to keep firearms repaired and ammo on hand. Finally, Prepper Guns has training suggestions and drills, plus a look at the psychology of survival, using the expertise of some of the top people in the world in these fields. If you are worried that bad things are coming and are trying to prepare, this book is the most important piece of gear you can buy. Because if you can't protect your family, your food and your home, nothing else really matters.

Gun Notes Elmer Keith,2002-11-27 From 1961 till the early 1980s Elmer Keith was a regular contributor to Guns & Ammo magazine, with a monthly column entitled Gun Notes. Here are the most interesting writings from his long writing career at Guns & Ammo magazine. This book is entirely devoted to pistols, revolvers, bolt-action and double rifles, shotguns, ammunition, loads, bullets, and accessories. Keith was one of the country's most knowledgeable experts on big-bore calibers, and this book has a wealth of information based on his lifelong experience with just about every imaginable sporting arm. In addition, the book contains letters from Elmer Keith to Truman Fowler, who was the publisher of Keith's Safari book; it also contains the correspondence from Fowler (a well-known big-bore advocate) to Jack O'Connor, who took exception to much of what Keith and Fowler recommended. This is more than highly entertaining reading -- the pages of the correspondence literally sizzle under your fingertips! Gun Notes is illustrated with photos from the Guns & Ammo files. Keith wrote ten books, in all, on hunting and firearms and was an absolute believer in big-bore rifles with heavy bullets. Over this issue, he and Jack O'Connor, another well-known sports writer and contemporary of Keith's, had a bitter running feud for years. Keith was also instrumental in the development of the .44 Magnum, .41

Magnum, and .338 Magnum cartridges as well as numerous other firearm and ballistic innovations. He was one of America's best shots with rifle, handgun, and shotgun. Keith was, perhaps, best known for his articles that appeared in numerous magazines from before World War II until the early 1980s. Book jacket.

Letters From Elmo Keith Timothy J. Mullin,2008-04-01 The acknowledged dean of American gun writers, Elmer Keith began his writing career in 1926, when his first piece appeared in American Rifleman, and continued until 1981, when he suffered a disabling stroke. During this 50-plus year period, Keith wrote hundreds of articles for a wide variety of publications, including American Rifleman, Guns & Ammo and Outdoor Life. From these articles and his books (Sixguns, Big Game Rifles and Cartridges), Keith developed a loyal following with whom he corresponded regularly. At one point it is estimated that he averaged 300-500 letters each month to readers, answering questions about hunting, matching appropriate cartridges and firearms to specific targets, handloading ammo and related topics. Timothy J Mullin, a noted gun writer, corresponded with Keith and kept all the letters he received. Discovering that other recipients had also saved their letters, Mullin decided to collect as many as he could and compile them into a book. He ran advertisements in Shotgun News and placed a large sign at the Elmer Keith Museum in Salmon, Idaho, seeking letters from Keith. Soon, he started receiving copies from all over the country. Some letters dealt with hunting issues, others strictly guns and ammo (including the Magnum revolver cartridges Keith developed and for which he is best known: the .357, .41 and .44), but most were a mixed bag of practical advice, unfiltered commentary and insightful tales of life on the American frontier. Rounding out the compilation are never-before published photos of Elmer Keith, with his trademark cigar, 10-gallon hat and sixguns
