SHADOW AND STINGER: Developing the AC119G/K Gunships in the Vietnam War

William P. Head, 2007

Vietnam Helicopter Crew Member Stories H.D Graham, 2014-02 This book is a collection of fascinating short stories, photos, and documents furnished by the heroic and courageous men that served as air or ground crew members in Vietnam. The chopper units were located throughout Vietnam. During the course of the war, we lost at least 5,139 helicopter air crew members and at least 588 ground support crew members. In fact, the true number of helicopter air and ground crew members killed or missing in action will probably never be known. Those crew members accounted for a large percentage of all the enemy killed during the war. Those courageous men were American heroes then and will always be American heroes.

Gunships Wayne Mutza, 2009 Gunships: The Story of Spooky, Shadow, Stinger, and Spectre tells the dramatic story of transforming military cargo transports into deadly ground-attack aircraft used by the U.S. and other countries in worldwide conflicts from the Vietnam War to the Middle East today. This comprehensive and detailed accounting of gunships begins with piston-powered, WWII-era C-47s and progresses to the four-engine turboprop C-130 Hercules, showing how gunships evolved from using 20mm miniguns to 105mm Howitzers with digital-age Battle Management Centers housed onboard. These highly effective airplanes made history by removing the safe haven of night operations from the enemy, and allowing strategic victory that might not have otherwise been possible. Author Wayne Mutza not only carefully researched all of these aircraft and their

paths to reality, but also tells the tale of the brave and persevering men who believed in this unique weapon system and who saw its development through to the end. This book features a wealth of outstanding color photographs, many of which have never before been published, and also contains detailed appendices documenting gunship production data, combat units, and aircraft losses.

Huey Cobra Gunships Chris Bishop, 2006-08-29 The Bell Huey Cobra was the very first purpose-designed helicopter gunship to become operational and to see combat. Designed in the mid-1960s as an interim solution for an armed escort and close-support weapon to support the US Army in the Vietnam War, it is still being manufactured and improved in the 21st century, making it a success far beyond the wildest dreams of its creators. In this title Chris Bishop discusses the origins of the Huey Cobra, the innovations to its design throughout the years and its major combat uses in numerous theatres, including Vietnam, the Iran-Iraq War in the 1980s, US Persian Gulf escort operations, Lebanon 1983, Panama 1989, the Gulf War 1991 and in the current conflict in Iraq.

The Gunship Chronicles Larry Barbee, 2019-08-07 This is the story of the AC-119K gunship and the Stinger 41 mission. Shadow and Stinger Pilot Roy Davis recently helped Larry publish his book titled The Gunship Chronicles: Stinger 41. Larry is donating all the profits from the sale of the book to the Association.

Night Hunters William Pace Head, 2014-03-18 In Night Hunters, air power historian William P. Head provides the first detailed study of the development and deployment of the AC-130 gunship. While other airframes and other types of close air support (CAS) and interdiction weapon systems preceded or flew with the AC-130s, this four-engine cargo

airframe proved to be not only the longest serving fixed-wing gunship but also the most effective by far. During the Vietnam War, the US military developed new tactics and weapons systems to counter a diversity of enemy tactics and geographic features, the difficult climate, and the shifting diplomatic context. One of the most important was the development of the AC-130. Its ability to transport heavier payloads at higher altitudes across longer distances made it the logical choice to be the final Vietnam-era fixed-wing gunship and the only one that continues to fly missions in the twenty-first century. In addition, it employed many of the most advanced weapons, sensors, targeting devices, and fire control systems of the 1970s or of any era. By recounting both the technical development and the combat operations of the plane, and by looking at the proposed alternatives for its use in the War on Terror, Night Hunters offers a clear view of the role of gunships and of close air support in US wars. In today's never-ending brushfire wars, the AC-130s continue to uphold their reputation for excellence.

Her only chance to save him lies with an abandoned gunship and an inmate with a life sentence who commanded the ship decades before. But this gunship has a secret: It's alive! After spending 30 years abandoned in a junk yard, their self-aware transforming gunship might have some trust issues.

The Spirit of Attack Bruce Gordon,2014-01-28 SCRAMBLE! In a couple of minutes my wingman and I would be airborne on another adventure. Sometimes we intercepted an airliner, sometimes a misplaced B-52 bomber, and sometimes Russian bombers probing our defenses; Russian warships; MIG fighters; or troops in contact in Vietnam, calling for napalm only yards from their positions. Twice it was UFOs - Unidentified Flying Objects! This book is a series of short stories, supported by more than 90 photographs. The first part has my own stories; later stories were contributed by my fellow pilots. The last story is from WW II of our P-38 fighters attacking the Romanian oil fields and getting badly mauled by defending Romanian fighters - and a Romanian pilot's view of the battle! Only the spirit of attack borne in a brave heart will bring success to any fighter aircraft, to matter how highly developed the aircraft may be. That quote from Adolf Galland, an Ace of the German Luftwaffe in WW II, was the motto of our 317th Fighter Interceptor Squadron in Alaska. The fighter pilot is a hunter, and his quarry is the most dangerous in the world - men who want to kill him! The best defense is a good offense - ATTACK! The US Air Force had a program called Every Man a Tiger. A tiger does not kill impulsively or in anger, but plans his attack carefully and strikes with cool ferocity. We were tigers! Fighter pilots tell stories around the bar, but they seldom write them down. These stories were written by the fighter pilots themselves! Come with me and hear of the beauty of flight, the mortal danger of electrical

power failure at night in a snowstorm, and the thrill of attack with 20mm cannons firing right under your feet!

Ghostriders 1968-1975 William Walter,2022-03-08 If necessity is the mother of invention, the AC-130 gunship was definitely her offspring. Ghostriders: Mors De Caelis is a comprehensive history of AC-130 gunship combat operations in Vietnam, Laos, and Cambodia. The story begins with the first AC-130 in 1968, and ends in 1975 at the end of the war in Vietnam. It tells the life and death stories of Spectre crews, who faced extreme danger while hunting trucks on the Ho Chi Minh Trail and providing fire support for US and allied ground forces. Though the AC-130 was credited with 10,000 trucks destroyed, this phenomenal achievement came with a hefty price. Fifty-two Spectre crewmen and six AC-130s were lost during combat operations in Laos and Vietnam. Written in third-person omniscient point of view by an experienced combat veteran and Spectre Historian, all aspects of the story are derived from official declassified records and personal interviews.

The level of detail and context figuratively puts the reader in the aircraft as an observer, flying alongside a Spectre crew in combat. Above all, this is the story of Spectre—accurate, detailed, compelling, and unique.
