The Praetorian STARShip : the untold story of the Combat Talon ,2001 Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare missions.

US Army AH-1 Cobra Units in Vietnam Jonathan Bernstein,2012-11-20 Bell's AH-1 Cobra was the first dedicated helicopter gunship to reach frontline service anywhere in the world. Developed as a private venture by the manufacturer, and based on the mechanics of the ubiquitous UH-1 Huey, the Cobra proved a huge success once introduced into combat with the US Army in 1966. Built as a key weapon in the Advanced Aerial Fire Support System concept of 1965, the AH-1 was one of the few aircraft to reach the combat zone after actual combat experience went into its design. The AH-1 helped reduce the losses being suffered by vulnerable troop transport helicopters by providing effective fire suppression during airmobile operations. This book explores its history, technology and crew.

The Dakota Hunter Hans Wiesman,2015-03-19 A tale of a lifelong passion for a WWII aircraft that changed the author's life: "It is almost like an adventure novel except it is true" (Air Classics). This book tells the story of a Dutch boy who grew up during the 1950s in postwar Borneo, where he had frequent encounters with an airplane, the Douglas DC-3, a.k.a. the C-47 Skytrain or Dakota, of World War II fame. For a young boy living in a remote jungle community, the aircraft reached the proportions of a romantic icon as the essential lifeline to a bigger world for him, the beginning of a special bond. In 1957, his family left the island and all its residual wreckage of World War II, and he attended college in The Hague. After graduation, he started a career as a corporate executive—and met the aircraft again during business trips to the Americas. His childhood passion for the Dakota flared up anew, and the fascination pulled like a magnet. As if predestined, or maybe just looking for an excuse to come closer, he began a business to salvage and convert Dakota parts, which meant first of all finding them. As the demand for these war relic parts and cockpits soared, he began to travel the world to track down surplus, crashed, or derelict Dakotas. He ventured deeper and deeper into remote mountains, jungles, savannas, and the seas

where the planes are found, usually as ghostly wrecks but sometimes still in full commercial operation. In hunting the mythical Dakota, he often encountered intimidating or dicey situations in countries plagued by wars or revolts, others by arms and narcotics trafficking, warlords, and conmen. The stories of these expeditions take the reader to some of the remotest spots in the world, but once there, one is often greeted by the comfort of what was once the West's apex in transportation—however now haunted by the courageous airmen of the past.
