**Democratic Equality** Edward Broadbent,2019-10-21 Are the world's oldest democracies failing? For most of the past fifty years democratic governments made determined and successful efforts at overcoming the significant inequalities that are the by-product of a capitalist economy. During this period a new concept of democratic citizenship that added social and economic rights to the liberal legacy of political and civil liberties established roots in most North Atlantic democracies. Since the 1980s this notion of democratic citizenship has been challenged ideologically to such a degree that through either major modification or complete elimination of programs, equality as a fundamental democratic goal is disappearing in many nations - particularly in the Anglo-American democracies. In this extraordinary collection, top scholars in political science, sociology, philosophy and economics, discuss this radical shift towards inequality in an age of mass capital globalization. Wide ranging in topic yet coherent in approach, *Inequality and the Modern Democratic State* comprises thirteen essays, including Ed Broadbent's *Ten Propositions about Equality and Democracy*, Robert Hackett's *Watch Dogs, Mad Dogs, or Lap Dogs?: News Media and Civic Equality* and Barbara Ehrenreich's *Inequality in the Clinton Era*. Many European democracies, argue the contributors, have adapted to new circumstance in the global economy without resorting to policies that actively promote inequality. While differing in some important details on solutions, they all contend that the political decision-making process is of critical importance in entrenching, or battling, an escalating inequality that is neither necessary nor desirable.

**Decipher** Stel Pavlou,2010-03-11 Ancient monuments all over the world - from the Pyramids of Giza, to Mexico, to the ancient sites of China - are also awakening, reacting to a brewing crisis not of this earth, connecting to each other in some kind of ancient global network. A small group of scientists is assembled to attempt to unravel the mystery. What they discover will change the world. Imagine that 12,000 years ago it really did rain for 40 days and 40 nights. That storms reigned supreme. Imagine that survivors of human civilization really were forced to take to boats or hide out in caves on mountaintops. Then consider that these same myths from around the world predict this kind of devastation will occur time and again. What could cause such a catastrophe? What occurs in nature with such frightening and predictable regularity? A pulsar. But this is not just any pulsar - the ordinary type that pulses once a second, a minute, or even a week. This pulses once every 12,000 years and sends out a gravity wave of such ferocity it beggars belief. Not only that, it's closer than anybody has ever imagined. For it lives in our own backyard. It is the Sun.

**Kentucky Showdown** J.R. Roberts, DON'T BET ON IT... Seems like everyone in Louisville has gambling advice for Clint Adams when he rides in for the Kentucky Derby, but the one tip he needs is the name of the man who's watching him and why. Clint's pal Ben Canby thinks his stallion is going to win the race. He's betting everything he's got on the outcome. But one thing Clint's finding out fast is there are some in town who don't plan to wager on a long shot—whether the stake is a horse or a gunsmith... Now it's Clint's job to keep the odds even, though he just might be gambling with his life...

**A Republic Under Assault** Tom Fitton, 2020-10-20 NEW YORK TIMES BESTSELLER In this explosive new book, New York Times bestselling author and president of Judicial Watch Tom Fitton explains how the Radical Left and the Deep State are trying to destroy the Trump presidency. Tom Fitton's first two New York Times bestselling books, *The Corruption Chronicles* and *Clean House*, exposed the hypocrisy and corruption of Obama's two terms. Now, in Fitton's latest investigative probe, he identifies the four major forces posing a continued threat to American democracy. **Deep State Efforts to Destroy the Trump Presidency: How the Democratic National Committee and the Clinton campaign paid for the fraudulent anti-Trump "Steele Dossier," and how it was used by the Obama FBI and DOJ to dupe the FISA Court to allow it to spy on the Trump presidential campaign AND President Trump.** These and more dirty secrets of Obamagate and the impeachment coup attempt are exposed. **Hillary Clinton Email Scandal: How the Clinton team and senior officials at the Obama State Department conspired to cover up Hillary Clinton's secret email system—and shocking revelations that tie the Obama White House to the cover-up!** **Voter Fraud: How Soros-funded groups attack states that seek to protect clean elections by challenging voter ID laws, and how the Left is cynically peddling COVID-19 crisis electoral "reforms," such as mail-in voting, which could increase voter fraud and election chaos. And shocking numbers about dirty voting rolls across the nation!** **Illegal Immigration: How deadly illegal "sanctuary" policies are exploding across America, and how our nation's sovereignty has been under assault by radical open-border advocates.** **Subversive Deep State collaborators with ties to the Clinton and Obama machines not only launched countless—often illegal—operations to stop and then remove Trump, but even more alarmingly, are working to transform the United States into something truly unrecognizable to all who believe in liberty and the rule of law. Today one of their main targets is President Donald J. Trump. Tomorrow it could be you and anyone who believes in the US Constitution, believes the United States must have clearly defined and protected borders, believes in the need for a strong military, believes in the value of hard work and faith, and believes in the rule of law and American exceptionalism.**

**K.A.R.M.A.** Grant McKenzie, 2014-02-11 "K.A.R.M.A. is one fine piece of work" - Andrew Vachss, New York Times bestselling author In Seattle, an aging mutual-funds salesman falls prey to the lure of a young boy's flesh; In New York, a 10-year-old plunges an ice pick into the heart of a street hustler to prove his love for a girl he met on the Internet; In Chicago, a young girl waits in the rain outside a seedy downtown bar for a man she's never met to stagger home; In Vancouver, a teenager waits patiently on a deserted rooftop for a signal that one of North America's most notorious murderers is about to walk free. Tom Hackett, a Seattle-based freelance photojournalist, is always looking for the perfect front-page splash, but when he stumbles into the bloody path of the mysterious group known as K.A.R.M.A., he quickly discovers that its thirst for revenge is unquenchable -- and it won't let anyone get in its way. Soldiers of Conquest F.M. Parker , Robert E. Lee and Ulysses S. Grant, comrades in arms in the Mexican-American War 1846–1848. President Polk, desiring to expand the United States to the Pacific Ocean, orders General Winfield Scott to invade Mexico at Veracruz and march inland and capture Mexico City. Mexico controlled much of what is now the southwestern part of the United States and California. Scott arrives at Veracruz with 100 ships crowded with 9,000 soldiers and the tools of war, cannon, muskets and cavalry mounts. Among the soldiers are Lieutenant Ulysses S. Grant and Captain Robert E. Lee. Grant, 24 years old, is a hardened combat veteran from fighting with General Taylor in northern Mexico. Lee, 40 years old, is untested in battle. Both men desire grade and glory and it is during war that these can be won if a man acted bravely. General Scott lands his army upon the hostile Mexican shore. After a heavy bombardment of Veracruz, the Americans capture the city. Scott waits for the reinforcements that President Polk had promised. When they do not arrive and his men begin to die from yellow fever, Scott severs his link with the States and his supply base at Veracruz and marches his small army into the mountains. He must capture Mexico City lying in the center of the nation of seven million inhabitants. He will lead his men to victory or death. General Santa Anna is waiting with an army of 30,000 soldiers to annihilate the small force of invading Americans.

**The Guardsmen of Rammsihaar** J. Cameron Millar,2011-12 May 2008: The potential military application of a new intelligence-enhancing drug is explored in this tale of an experiment run out of control, rising political tension between the Eastern and Western worlds, and a seeming solution to the global energy crisis. An adventure set truly out of this world leads to a frantic search amongst ancient ruins in order to save the peoples of Earth from the forces of tyranny and ultimate annihilation... Captain Dawn DeFaller, RN, DSO, is to head a NATO convoy protection exercise in the North Atlantic Ocean involving British warships, and also a number of merchant ships from several countries. During the exercise, code named Ankara, the efficacy of an experimental intelligence-enhancing drug is to be tested on a volunteer, Commander Garry Hunt of the British destroyer HMS Diamond. Additionally, she is to assess the capabilities of a non-live version of a new type of joint British-American smart torpedo with independent operational ability. Ankara proves initially to be a great success but just prior to its climax one of the merchant ships, a large oil tanker, is crippled, seemingly accidentally. In the meantime Diamond goes missing. Dawn and her officers and colleagues must attempt to locate Diamond before Garry Hunt, her now-rogue commanding officer succeeds in destabilizing East-West relations to the point of threatening to trigger a third world war. But the intellectually enhanced Hunt proves elusive and soon sets his sights on higher goals which involve initially revealing a solution to the global energy crisis but ultimately lie beyond the constraints of planet Earth. Dawn finds herself duty-bound to proceed on a mission unlike any

that she has ever undertaken before. A mission even more daring than her previous foray into the revolutionary period of 18th century north America. The place and time where she met her husband, Captain Matthew Revere of the American Continental Navy, as part of the experiment that evolved from the highly classified van der Meer Dossier.
