

Hai Vo Doi

Vesna Mišković-Stanković, Teodor Atanackovic

Quantitative Methods in Economics and Finance Tomas Klietnik, Katarina Valaskova, Maria Kovacova, 2021-04-08 The purpose of the Special Issue “Quantitative Methods in Economics and Finance” of the journal *Risks* was to provide a collection of papers that reflect the latest research and problems of pricing complex derivatives, simulation pricing, analysis of financial markets, and volatility of exchange rates in the international context. This book can be used as a reference for academicians and researchers who would like to discuss and introduce new developments in the field of quantitative methods in economics and finance and explore applications of quantitative methods in other business areas.

The Dragon's Underbelly Nhu Truong, Tuong Vu, 2023-01-13 This book shows why Vietnam has not become the dragon it is often touted to be. The team of authors include both long-time observers and junior scholars who present cutting-edge research on the latest trends as well as major challenges facing the country's economy and political system. As Vietnam seeks to escape from poverty and the legacies of mistaken socialist policies, its economy has become fully integrated into the global economy. Yet, without an effective and far-sighted leadership, it is still occupying a low position in the global value chains and becoming increasingly dependent on China. Politically, after three decades of reform, the Vietnamese Communist Party's grip on power has well adapted to the market economy, but is confronting deep vulnerabilities as observed in its eroding ability to control workers, the media, public universities, and state-owned enterprises. The book also includes a section that applies formal and statistical methods to compare Vietnam with China in two critical areas of political accountability and anti-corruption policy.

A Directory of Asian Wetlands World Wide Fund for Nature, 1989

Preparing for the New Era of Transport Policies: Learning from Experience, 2018-09-08 *Advances in Transport Policy and Planning* assesses both successful and unsuccessful practices and policies from around the world on the topic. This new release includes chapters that focus on An Empirical Investigation of the Reward Incentive and Trip Purposes on Departure Time Behavior Change, Planning Sustainable Transport Systems by Promoting Urban Cycling in Moscow, Russia: Learning from International Experience, the Past, Present and Future of Transit-Oriented Development in three European Capital City Regions, Institutional Influences on the Development of Urban Freight Transport Policies by Local Authorities, Rethinking of Parking Policies for the new Transport Planning Era, and more. The objective of this book is to provide policy makers, planners, and researchers, documentation and lessons learned from various experience around the world to help them design a more sustainable transportation system for the future taking into account societal and technological changes

ICSCEA 2021 J. N. Reddy, Chien Ming Wang, Van Hai Luong, Anh Tuan Le, 2022-09-20 This book presents articles from the Second International Conference on Sustainable Civil Engineering and Architecture, held on 30 October 2021 in Ho Chi Minh City, Vietnam. The conference brings together international experts from both academia and industry to share their knowledge, expertise, to facilitate collaboration and improve cooperation in the field. The book highlights the latest advances in sustainable architecture and civil engineering, covering topics such as offshore structures, structural engineering, construction materials, and architecture.

In Search of Moral Authority Van Nguyen-Marshall, 2008 *In Search of Moral Authority: The Discourse on Poverty, Poor Relief, and Charity in French Colonial Vietnam* is a pioneering exploration of the discourses on poverty and poor-relief activities in early twentieth-century Northern Vietnam. Treating poverty as a socially constructed idea, Van Nguyen-Marshall argues that poor relief was a domain where both French colonialists and Vietnamese intellectuals vied for moral authority. For the French colonial officials, poor relief fell within the purview of the French «civilizing» mission, the official justification for imperialism. However, the colonial agenda, racial prejudices, and the French administrators' own ambivalent attitudes toward the poor made any attempt at poor relief doomed for failure. For Vietnamese intellectuals, the discourse and activities on poor relief became a rallying call for patriotism, nationalism, and, for some, anti-colonialism. *In Search of Moral Authority* deals with social issues such as charity and poor relief, as well as the construction of national and gender identity by Vietnamese intellectuals. This book is essential reading for students and specialists of Vietnamese history as well as those interested in issues of poverty, public welfare, and charity.

Romance Languages and Linguistic Theory 10 Ernestina Carrilho, Alexandra Fiéis, Maria Lobo, Sandra Pereira, 2016-12-15 This volume contains a selection of papers of the 28th Going Romance conference, which was organized by the Linguistics centers of Universidade de Lisboa and Universidade Nova de Lisboa in December 2014. It assembles the invited contributions by Alain Rouveret, Guido Mensching, Luigi Rizzi, and Roberta D'Alessandro, and eleven peer-reviewed papers that were presented at the conference or at the workshops on Constituent Order Variation, Crosslinguistic Microvariation in Language Acquisition, and Subordination in Old Romance. The volume covers a wide range of topics in syntax and its interfaces, and brings to current linguistic theorizing new empirical grounding from Romance languages (including standard, diachronic or regional varieties of Asturian, Brazilian and European Portuguese, Catalan, French, Galician, Italian, Romanian, Sardinian, and Spanish). This will be of interest to scholars in Romance and in general linguistics.

Germanic syntax Stefan Müller, 2023-04-25 This book is an introduction to the syntactic structures that can be found in the Germanic languages. The analyses are couched in the framework of HPSG light, which is a simplified version of HPSG that uses trees to depict analyses rather than complicated attribute value matrices. The book is written for students with basic knowledge about case, constituent tests, and simple phrase structure grammars (advanced BA or MA level) and for researchers with an interest in the Germanic languages and/or an interest in Head-Driven Phrase Structure Grammar/Sign-Based Construction Grammar without

having the time to deal with all the details of these theories.

Head Movement in Syntax Rosmin Mathew,2015-10-15 Head Movement in Syntax argues that verb movement is a narrow syntactic phenomenon that can affect locality constraints. The altered locality domains are detectable from the way certain phrasal elements such as a phrase containing a Wh are forced to undergo movement. The basic idea explored in the book dates back to Chomsky (1986) where the movement of a verb is proposed to be able to affect and alter a barrier. This idea is translated into contemporary minimalist apparatus to capture locality conditions, with Wh movement in Malayalam, a Dravidian language spoken in Southern India, providing the necessary data. The book also points out that analysing Wh movement in Malayalam as a sub-case of Focus movement is untenable and offers a fresh perspective on Wh-in-situ versus Wh-movement. In addition, the book provides a comprehensive analysis of the pronominal system in Malayalam, a language that violates the canonical binding conditions.

Minimalism and Beyond Peter Kosta,Steven L. Franks,Teodora Radeva-Bork,Lilia Schürcks,2014-09-24 The Minimalist Program is just that, a “program”. It is a challenge for syntacticians to reexamine the constructs of their models and ask what is minimally needed in order to accomplish the essential task of syntax – interfacing between form and meaning. This volume pushes Minimalism to its empirical and theoretical limits, and brings together some of the most innovative and radical ideas to have emerged in the attempt to reduce Universal Grammar to the bare output conditions imposed by these conceptually necessary interfaces. The contributors include both leading theoreticians and well-known practitioners of minimalism; the papers thus both respond to broad questions about the nature of human language and the architecture of grammar, and provide careful analyses of specific linguistic problems. Overarching issues of syntactic computation are considered, such as the role of formal features, the mechanics of movement and the property of displacement, the construction of words and phrases, the nature of Spell-Out, and, more generally, the forces driving operations. The volume has the potential to reach a wide audience, favoring inter-theoretical debate with a concise state-of-the-art panorama on Minimalism and advances about its future developments.

World Atlas of Coral Reefs Mark Spalding,Corinna Ravilious,Edmund Peter Green,2001 An up-to-date, detailed, and fully-illustrated account of the biodiversity and status of coral reefs.

Advancement of Science and Technology Bereket Haile Woldegiorgis,Kibret Mequanint,Muluken Zegeye Getie,Eshetu Getahun Mulat,Addisu Alemayehu Assegie,2023-07-07 This book presents the latest developments, innovations, and sustainable technologies in materials and energy, covering various research methods, including numerical and experiment analysis. Materials-related topics focus on construction, energy, and other material replacements for various applications. Energy-related topics covered include applications of solar technology, wind energy analysis. The book provides state-of-the-art research on the efforts being made toward sustainability in developing countries and will be a valuable reference for researchers, engineers, industry professionals, graduate students, and related practitioners.

Whispering the Techniques of Language: An Emotional Quest through **Hai Vo Doi**

In a digitally-driven earth wherever displays reign supreme and quick transmission drowns out the subtleties of language, the profound secrets and psychological subtleties concealed within words usually get unheard. However, located within the pages of **Hai Vo Doi** a interesting fictional prize pulsing with organic feelings, lies an exceptional journey waiting to be undertaken. Penned by a talented wordsmith, this charming opus attracts readers on an introspective journey, softly unraveling the veiled truths and profound impact resonating within the very material of each and every word. Within the emotional depths with this emotional evaluation, we shall embark upon a heartfelt exploration of the book is key styles, dissect its charming writing fashion, and succumb to the strong resonance it evokes deep within the recesses of readers hearts.
