A Cultural History of Hair in the Modern Age Geraldine Biddle-Perry,2020-12-10 Over the last century, there has been a revolution in self-presentation and social attitudes towards hair. Developments in mass manufacturing, advances in chemical science and new understandings of bodies and minds have been embraced by new kinds of hairdressers and their clientele and embodied in styles that reflect shifting ideals of what it is to be and to look modern. The emergence of the ladies hairdressing salon, the rise of the celebrity stylist, the impact of Hollywood, an expanding mass media, and a new synergy between fashions in clothing and hairstyles have rippled out globally. Fashions in hair styles and their representation have taken on new meanings as a way of resisting dominant social structures, experimenting with social taboos, and expressing a modern sense of self. From the 1920s bob to the punk cut, hair has continued to be deeply involved in society's larger issues. Drawing on a wealth of visual, textual and object sources, and illustrated with 75 images, A Cultural History of Hair in the Modern Age presents essays that explore how politics, science, religion, fashion, beauty, the visual arts, and popular culture have reshaped modern hair and its significance as an agent of social change.

Hair Laurent Philippon,2013-11-12 Photographs of extraordinary hairstyles that will inspire anyone concerned with fashion, beauty, and visual culture Throughout history, hairstyles have conferred status. Cleopatra wore elaborate braids; Marie-Antoinette's contemporaries competed to pile their hair outrageously high; punk fashion made a fetish of spiked and dyed hair. Hair expresses our individuality, and fashion designers, photographers, and style gurus love its infinite possibilities. This book celebrates the art of hair. From African tribal fashions to today's new creations, each chapter explores a style such as braids, curls, chignons, short crops, Mohawks, and some wilder extremes. Rare archival images combine with fabulous work by stellar photographers including Duane Michals, Martin Parr, Patrick Demarchelier, Jean-Paul Goude, Herb Ritts, Helmut Newton, Robert Mapplethorpe, David LaChapelle, Nan Goldin, and others. These are accompanied by witty and informed contributions from fashion stars and world-renowned stylists from Vidal Sassoon, Orlando Pita, Julien d'Ys, and Sam McKnight to queen of burlesque Dita Von Teese, Nicole Tucker (Alicia Keys's hairstylist), and Kathy Phillips, former beauty editor at Vogue.

Hair & Fashion Caroline Cox, Lee Widdows, 2005-04 Hair and fashion are inextricably linked, signs of the times, reflective of the zeitgeist. Whether long or cropped, curly or straight, hairstyles are a potent force and, in combination with the latest fashions, create unforgettable images: from Vidal Sassoon's 'Five Point Cut' for Mary Quant, to the punk look of 1970s London to Sam McKnight's iconic styles for Princess Diana. Hair is fashion and fashion is hair, a fascinating symbiotic relationship which is investigated in detail in this timely book. Hair & Fashion considers both the historical development of this relationship and its contemporary significance, focusing on key moments such as the 1920s bob, the long-haired hippie look of the 1960s and the recent Hoxton Fin. The role of colour for hair and its associated cultural meanings have become increasingly important in the twenty-first century, an era in which most women have dyed their hair at least once, and Hair & Fashion also looks closely at the role of the blonde, brunette and redhead in popular culture. This text is supported by evocative images, including work by top photographers from groundbreaking fashion shoots, as well as specially commissioned shoots. Haircuts and hairstyles, as this book reveals, are no mere simple incursions into hair taming and conformity but a living, growing embodiment of cultural codes and meanings with the potential to turn you into a walking work of art.--BOOK JACKET.
