Pete Pfitzinger, Philip Latter

Hal Higdon's Half Marathon Training Higdon, Hal, 2016-03-01 Hal Higdon's Half Marathon Training offers prescriptive programming for all levels of runners. Not only will it help you learn how to get started with your training, but it will show you where to focus your attention, when to progress, and how to keep it simple.

**Run to the Finish** Amanda Brooks, 2020-03-03 Inspiration and practical tips for runners who prioritize enjoyment over pace and embrace their place as an average runner In her first book, popular runner blogger Amanda Brooks lays out the path to finding greater fulfillment in running for those who consider themselves middle of the pack runners -- they're not trying to win Boston (or even qualify for Boston); they just want to get strong and stay injury-free so they can continue to enjoy running. Run to the Finish is not your typical running book. While it is filled with useful strategic training advice throughout, at its core, it is about embracing your place in the middle of the pack with humor and learning to love the run you've got without comparing yourself to other runners. Mixing practical advice like understanding the discomfort vs. pain, the mental side of running, and movements to treat the most common injuries with more playful elements such as Favorite hilarious marathon signs and Weird Thoughts We all Have at the Start Line, Brooks is the down-to-earth, inspiring guide for everyone who wants to be happier with their run.

*Hansons Marathon Method* Humphrey Luke, 2012-11-27 In Hansons Marathon Method, the coaches of the Hansons-Brooks Distance Project reveal the methods they've used to turn their runners into race winners, national champions, and Olympians. Hansons Marathon Method offers a radical overhaul of marathon training that promises to turn any runner into a true marathoner and help experienced marathoners set new personal bests. Hansons Marathon Method does away with mega-long runs and high-mileage weekends—two outdated traditions that make most runners miserable. Instead, runners using the Hansons method will gradually build up to the moderate-high mileage required for marathon success, spreading those miles more sensibly throughout the week. Running easy days mixed with precisely paced speed, strength, and tempo workouts, runners will steel their bodies and minds to run the hardest miles of the marathon. Both Beginner and Advanced training programs feature the unique Hansons 16-mile long run which, as part of the Hansons program, is ideal for preparing the body for the marathon. Humphrey explains how runners should set their goal race pace and shows how to customize the Hansons method to their own needs, like adding extra racing, running more miles, and handling training interruptions. Detailed nutrition and hydration chapters help runners pinpoint their personal energy and hydration needs so they know precisely how much to eat and drink during workouts, race week, race day, and for recovery. The Hansons approach to pacing and nutrition means marathoners will never hit the wall. Hansons Marathon Method lays out the smartest marathon training program available from one of the most accomplished running groups in the nation. Using this innovative approach, runners will mold real marathon muscles, train their body to never hit the wall, and prepare to run their fastest marathon.

*Runner's World Run Less Run Faster* Bill Pierce, Scott Murr, 2021-01-19 The groundbreaking plan that helps runners of all levels to improve their race times while actually training less—now fully revised and updated for today's runners In today's busy, fast-paced world, all runners have the same objective: to run the best they can with the limited amount of time at their disposal. Bill Pierce and Scott Murr made that goal possible with their revolutionary FIRST (Furman Institute of Running and Scientific Training) training program. FIRST's unique training philosophy makes running easier and more accessible, limits overtraining and burnout, and substantially cuts the risk of injury while producing faster race times. The key feature of the detailed training plans for 5k, 10k, half-marathon, and marathon is the 3PLUS2 program, which consists of: • 3 quality runs, including track repeats, the tempo run, and the long run, which are designed to improve endurance, lactate-threshold running pace, and leg speed • 2 aerobic cross-training workouts, such as swimming, rowing, or pedaling a stationary bike, which are designed to improve endurance while helping to avoid burnout With tips for goal-setting, recovery, injury rehab and prevention, strength training, and nutrition, Run Less, Run Faster has changed the way runners think about and train for competitive races. This revised third edition includes a new preface, training plans tailored to the new qualifying times for the Boston Marathon, new exercise photos, charts that will help runners adjust training practices to their elevation and climate, and updated nutritional recommendations.

The Runner's World Big Book of Marathon and Half-Marathon Training Jennifer Van Allen, Bart Yasso, Amby Burfoot, Pamela Nisevich Bede, Editors of Runner's World Maga, 2012-06-05 The first dedicated book on marathon and half marathon training from the renowned experts at Runner's World Runner's World Big Book of Marathon and Half-Marathon Training gives readers the core essentials of marathon training, nutrition, injury prevention, and more. The editors of Runner's World know marathon

training better than anyone on the planet. They have spent the last few years inviting readers to share the long, sweaty journey to the starting line, putting themselves on call to personally answer readers' questions 24/7. This book includes testimonials from real runners, more than 25 training plans for every level and ability, workouts, a runner's dictionary, and sample meal plans. Runner's World Big Book of Marathon and Half-Marathon Training is a powerful and winning resource—the ultimate tool kit for anyone who wants to get from the starting line to the finish line.

**Faster Road Racing** Pete Pfitzinger, Philip Latter, 2014-11-24 Renowned running authority, coach, and best-selling author Pete Pfitzinger teams with Philip Latter, senior writer for Running Times, in this must-have training guide for the most popular race distances, including the 5K, 10K, and half marathon. Faster Road Racing: 5K to Half Marathon presents easy-to-follow programs proven to give you an edge in your next race. You'll discover detailed plans for race-specific distances as well as expert advice on balancing training and recovery, cross-training, nutrition, tapering, and training over age 40. And for serious runners who compete in numerous races throughout the year, Pfitzinger's multi-race, multi-distance training plans are invaluable. Faster Road Racing is your all-inclusive resource on running your fastest at distances of 5K, 8K to 10K, 15K to 10 miles, and the half marathon.

*Train Like a Mother* Dimity McDowell, Sarah Bowen Shea, 2012-03-20 The authors of Run Like a Mother share a comprehensive guide to race training for busy runners of all experience levels. In Train Like a Mother, elite runners Dimitry McDowell and Sarah Bowen Shea offer inspiration and practical advice on how to run a race—from training plan to finish line. Covering four race distances (5K, 10K, half-marathon, and marathon), they discuss pre- and post-race nutrition; strength training; injury prevention (and rehab); the importance of recovery; and everything busy women need to know to add racing to their multitasking schedules. It is all presented with the same wit, empathy, and tone the avid fans connect and identify with.

**Smart Marathon Training** Jeff Horowitz, 2011-10-01 Old-school marathon training plans ask runners to crank out 70 to 100 miles a week. It's no wonder those who make it to the start line are running ragged. Smart Marathon Training maps out a healthier, more economical approach to training that emphasizes quality over quantity. With more than 75 detailed exercises plus six easy-to-follow training plans for half and full marathons, Smart Marathon Training will get you to the starting line feeling refreshed and ready to run your best race yet. This innovative program eliminates junk miles, paring down training to three essential runs per week and adding a dynamic strength and cross-training program to build overall fitness. Runners will train for their best performance in less time and avoid the injuries, overtraining, and burnout that come from running too much. Smart Marathon Training builds up a runner's body to resist injury. Runners gain the strength they need to run long using functional exercises that target the hips, glutes, and quads. Running is a full-body sport, so this training program also builds a strong core and upper body to avoid injuries that begin above the waist. No one fakes a marathon or half-marathon—everyone has to do the work. But Smart Marathon Training replaces long, grinding miles with low-impact cross-training. Horowitz outlines a cycling plan to complement run workouts, boosting base fitness while saving runners' bodies for their best runs.

**Advanced Marathonning** Pete Pfitzinger, Scott Douglas, 2008-12-19 Shave minutes off your time using the latest in science-based training for serious runners. Advanced Marathonning has all the information you need to train smarter, remain injury free, and arrive on the start line ready to run the marathon of your life. Including marathon-pace runs and tempo runs, Advanced Marathonning provides only the most effective methods of training. You'll learn how to complement your running workouts with strength, core, flexibility, and form training; implement cutting-edge nutrition and hydration strategies and recovery techniques; and taper properly to reach peak performance. With easy-to-understand day-by-day training schedules for 18- and 12-week preparation for weekly distances of 55, 55 to 70, 70 to 85, and 85-plus miles, Advanced Marathonning is simply the most comprehensive and efficient approach to marathonning. If you're ready to achieve your personal best, this book is for you.

**The Run Walk Run® Method** Jeff Galloway, 2016-05-23 Jeff's quest for the injury-free marathon training program led him to develop group training programs in 1978, and to author Runner's World articles which have been used by hundreds of thousands of runners of all abilities. His training schedules have inspired the second wave of marathoners who follow the Galloway RUN-WALK-RUN™, low mileage, three-day suggestions to an over 98% success rate. Jeff has worked with over 200,000 average people in training for specific goals. Jeff is an inspirational speaker to over 200 running and fitness sessions each year. His innovative ideas have opened up the possibility of running and completing a marathon to almost everyone. Philosophically, Jeff believes that we were all designed to run and walk, and he keeps finding ways to bring more people into the positive world of exercise.

*Running the Dream* Matt Fitzgerald, 2020-05-05 The bestselling author of 80/20 Running and How Bad Do You Want It? reveals his inspiring and surprising journey to see just how fast he can go. Matt Fitzgerald has been running (and writing about running) for most of his adult life. But, like many passionate amateur runners, he never felt he was quite fulfilling his potential. If he follows the training, nutrition, and lifestyle of an elite runner, just how fast could he go? In his mid-forties, Matt at last has the freedom to do nothing but train, if only for the span of one summer. The time is now. He convinces the coach of Northern Arizona Elite, one of the country's premier professional running teams, to let him train with a roster of national champions and Olympic hopefuls in the running mecca of Flagstaff, Arizona, leading in to the Chicago Marathon. The results completely redefined Matt's notion of what is possible, not only for himself but for any runner. Filled with a vibrant cast of characters, rigorous and quad-torching training, and a large dose of self-deprecating humor, Matt's gripping account of his "fake pro runner" experience allows us to partake in the dream of having the chance to go all the way. Yet for the gifted young runners Matt trains with, it's not a dream but concrete reality, and their individual stories enrich this inspiring narrative. Running the Dream pulls us into the rarified world of professional running in a way we can all relate to, regardless of speed, and to take away pieces of one man's amazing journey to try to achieve our own potential.

80/20 Triathlon Matt Fitzgerald, David Warden, 2018-09-18 A breakthrough program for triathletes -- beginner, intermediate, and advanced -- showing how to balance training intensity to maximize performance -- from a fitness expert and elite coach. Cutting-edge research has proven that triathletes and other endurance athletes experience their greatest performance when they do 80 percent of their training at low intensity and the remaining 20 percent at moderate to high intensity. But the vast majority of recreational triathletes are caught in the so-called moderate-intensity rut, spending almost half of their time training too hard--harder than the pros. Training harder isn't smarter; it actually results in low-grade chronic fatigue that prevents recreational athletes from getting the best results. In 80/20 Triathlon, Matt Fitzgerald and David Warden lay out the real-world and scientific evidence, offering concrete tips and strategies, along with complete training plans for every distance--Sprint, Olympic, Half-Ironman, and Ironman--to help athletes implement the 80/20 rule of intensity balance. Benefits include reduced fatigue and injury risk, improved fitness, increased motivation, and better race results.

Running Your First Marathon Andrew Kastor,2018-01-09 Andrew Kastor has taken the tried-and-true principles that all us pros follow and made them available and applicable for everyone. Andrew has certainly helped me along my journey--with his sage advice, his miracle-working hands on the massage table, and giving me a laugh when I needed it the most.
