Deepwater Horizon Earl Boebert,James M. Blossom,2016-09-06 In 2010 BP's Deepwater Horizon catastrophe spiraled into the worst human-made economic and ecological disaster in Gulf Coast history. In the most comprehensive account to date, senior systems engineers Earl Boebert and James Blossom show how corporate and engineering decisions, each one individually innocuous, interacted to create the disaster.

Color of Violence INCITE! Women of Color Against Violence,2016-07-22 The editors and contributors to Color of Violence ask: What would it take to end violence against women of color? Presenting the fierce and vital writing of organizers, lawyers, scholars, poets, and policy makers, Color of Violence radically repositions the antiviolence movement by putting women of color at its center. The contributors shift the focus from domestic violence and sexual assault and map innovative strategies of movement building and resistance used by women of color around the world. The volume's thirty pieces—which include poems, short essays, position papers, letters, and personal reflections—cover violence against women of color in its myriad forms, manifestations, and settings, while identifying the links between gender, militarism, reproductive and economic violence, prisons and policing, colonialism, and war. At a time of heightened state surveillance and repression of people of color, Color of Violence is an essential intervention. Contributors. Dena Al-Adeeb, Patricia Allard, Lina Baroudi, Communities Against Rape and Abuse (CARA), Critical Resistance, Sarah Deer, Eman Desouky, Ana Clarissa Rojas Durazo, Dana Erekat, Nirmala Erevelles, Sylvanna Falcón, Rosa Linda Fregoso, Emi Koyama, Elizabeth Betita Martínez, maina minahal, Nadine Naber, Stormy Ogden, Julia Chinyere Oparah, Beth Richie, Andrea J. A Tool for Determining e-Learning Readiness Cathy James-Springer,Katherine Cennamo,2021-08-13 This book presents a tool to determine e-learning readiness in workplace organizations. It offers a case study of the design and development process and outlines factors to be taken into account to determine e-learning readiness. It details the four objectives of this tool: to highlight specific parameters for determining e-learning readiness, to provide a systematic process to determine the readiness of an organization, to enable flexibility for the environmental context, and to capture the interrelatedness of the many areas in the organization. Next, it discusses the main element of the tool: surveys that are used to facilitate collection of data on organizational, learner and technology readiness. The book concludes with a look at practical ways of using the information gathered from the data produced.

Military Inc Ayesha Siddiq-Agha,2017 Pakistan is a strategic ally of the US in the 'war on terror'. It is the third largest recipient of US aid in the world. Yet Pakistan is a state run by its army and intelligence service. Operating in the shadows, Pakistan's military industrial complex owns and controls swathes of the economic and political landscape of the country. Military Inc. dares to illuminate the military as an oppressive holding company possessing not just security-related businesses, but also hotels, shopping malls, insurance companies, banks, farms and even an airline. The result is a deeply undemocratic society, where money is funnelled towards the military's economic enterprises, leaving those in need of it impoverished and effectively disenfranchised. With an empirical richness, and a view to Pakistan's recent history, Ayesha Siddiq offers a detailed and powerful case study of a global phenomenon: corruption, hollow economic growth and elitism. This new edition includes a chapter on the recent developments of the military's foray into the media, and a new preface.

Managed Pressure Drilling Bill Rehm,Jerome Schubert,Arash Haghshenas,Amir Saman Paknejad,Jim Hughes,2013-12-18 With extraction out of

depleted wells more important than ever, this new and developing technology is literally changing drilling engineering for future generations. Never before published in book form, these cutting-edge technologies and the processes that surround them are explained in easy-to-understand language, complete with worked examples, problems and solutions. This volume is invaluable as a textbook for both the engineering student and the veteran engineer who needs to keep up with changing technology.

The Political Economy of U.S. Militarism I. Hossein-zadeh,2006-08-05 This wide-ranging, interdisciplinary analysis blends history, economics, and politics to challenge the prevailing accounts of the rise of U.S. militarism. While acknowledging the contributory role of some of the most widely-cited culprits, this study explores the bigger, but largely submerged, picture: the political economy of war and militarism.

Well Test Analysis Dominique Bourdet,2002-08-21 This book on well test analysis, and the use of advanced interpretation models is volume 3 in the series Handbook of Petroleum Exploration and Production. The chapters in the book are: Principles of Transient Testing, Analysis Methods, Wellbore Conditions, Effect of Reservoir Heterogeneities on Well Responses, Effect of Reservoir Boundaries on Well Responses, Multiple Well Testing, Application to Gas Reservoirs, Application to Multiphase Reservoirs, Special Tests, Practical Aspects of Well Test Interpretation.

Applied Dynamic Programming for Optimization of Dynamical Systems Rush D. Robinett III,David G. Wilson,G. Richard Eisler,John E. Hurtado,2005-01-01 Based on the results of over 10 years of research and development by the authors, this book presents a broad cross section of dynamic programming (DP) techniques applied to the optimization of dynamical systems. The main goal of the research effort was to develop a robust path planning/trajectory optimization tool that did not require an initial guess. The goal was partially met with a combination of DP and homotopy algorithms. DP algorithms are presented here with a theoretical development, and their successful application to variety of practical engineering problems is emphasized.

Global Marketing (First Edition) Johny Johansson,Michael Furick,2016-01-27 The New Global Marketing: Local Adaptation for Sustainability and Profit discusses the ways that marketing managers can assess the potential for global expansion and help their firms capitalize on opportunities. The book explores which companies and products should expand internationally, what countries offer the best opportunities, and which marketing plan will lead each product or company to success. The material adapts well-established frameworks to demonstrate how the global marketer can assess company strengths and weaknesses and analyze opportunities and risks in foreign markets. It discusses the proper balance between standardization and localization, and addresses the importance of the triple bottom line - environmental sustainability, social fairness, and financial performance. Students also learn about bottom-of-the-pyramid markets, the role of digital global marketing, and the importance of adapting to international political, social, and environmental pressures. Featuring more than twenty original case studies, The New Global Marketing is an excellent introduction to what it really takes to succeed as a global marketer. Written for students with some marketing education and exposure to international business, the book is ideally suited to upper-level business courses and M.B.A. programs.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
