Mental Health of Children and Adolescents with Intellectual and Developmental Disabilities David Dosetor, Donna White, Lesley Watson, 2011-06-01 Children and adolescents with intellectual and developmental disabilities are at high risk of co-morbid emotional, behavioural, and psychiatric problems that may further reduce their functional abilities. For the clinicians who support them and their families, meeting the needs of children and adolescents with intellectual and developmental disabilities and mental health problems is challenging. In this book, clinicians who work with young people with intellectual and developmental disabilities and mental health problems will find a comprehensive framework for how their complex needs might best be addressed. Relevant biological, developmental, family, educational, social, and cultural factors are integrated. The evolution of developmental sequence is seen as vital to understanding the mental health problems of young people with disabilities. This view informs multi-dimensional assessment of behaviour, and addresses conceptual confusion in defining behaviour problems, developmental disorders, mental disorders, and serious mental illnesses. Evidence-based interventions to promote skill development and mental health in young people with disabilities are described. A model for how interdisciplinary and multi-agency collaboration and co-ordination might be facilitated is outlined. Parents' perspectives are also presented. Fundamentally, though, this is a book by clinicians, for clinicians. All clinicians and other professionals who work to improve mental health outcomes and quality of life more generally for young people who have intellectual and developmental disabilities - paediatricians, child psychiatrists, psychologists, speech pathologists, occupational therapists, social workers, behaviour clinicians, counsellors, teachers, agency managers, among others - will find the book invaluable.

The Reeducation of Cherry Truong Aimee Phan, 2012-03-13 Cherry Truong's parents have exiled her wayward older brother from their Southern California home, sending him to Vietnam to live with distant relatives. Determined to bring him back, twenty-one-year-old Cherry travels to their homeland and finds herself on a journey to uncover her family's decades-old secrets—hidden loves, desperate choices, and lives ripped apart by the march of war and currents of history. *The Reeducation of Cherry Truong* tells the story of two fierce and unforgettable families, the Truongs and the Vos: their harrowing escape from Vietnam after the war, the betrayal that divided them, and the stubborn memories that continue to bind them years later, even as they come to terms with their hidden sacrifices and bitter mistakes. Kim-Ly, Cherry's grandmother, once wealthy and powerful in Vietnam, now struggles to survive

in Little Saigon, California without English or a driver's license. Cherry's other grandmother Hoa, whose domineering husband has developed dementia, discovers a cache of letters from a woman she thought had been left behind. As Cherry pieces their stories together, she uncovers the burden of her family's love and the consequences of their choices. Set in Vietnam, France, and the United States, Aimee Phan's sweeping debut novel reveals a family still yearning for reconciliation, redemption, and a place to call home.

I Can't Get Sick! Angelica Joy, 2009-02 Is getting sick a random event—a stroke of bad luck that happens for no reason? If so, do

you have to live in constant fear of catching every cold, infection, and virus that comes along? According to wellness expert Angelica Joy, the answer to both questions is resounding no. In this basic wellness guide, she reveals her own personal secrets for optimal health and immunity. Angelica shows you how to take control of your health with simple, easy strategies that don't involve counting calories, weighing yourself, or cooking elaborate recipes; you don't have to eat weird foods you dislike, or track your progress on fancy spreadsheets, either. Instead, this book offers a simple, no-nonsense approach for busy mainstream people on the go who need to live and function in the real world. Learn how to cultivate a strong immune system by creating an environment within your body that's hostile to bacteria, viruses, and disease. Use these strategies to optimize your personal health and immunity. In this ground-breaking book, Angelica debunks some conventional dietary and lifestyle myths that you grew up believing, and challenges some of your old and current definitions of balanced meals, health-supportive foods, digestively compatible food combinations, and appropriate lifestyle and entertainment choices. Sensible, no-nonsense alternatives are presented as well. Below are some of the steps you can take to amp up your health to whole new level: Detectivize your life. Manage food allergies. Create green environments where you work and live. Balance body pH with dietary and lifestyle fine-tuning. Learn the rules for good digestion that nobody ever taught you. Explore health-supportive nutraceuticals and holistic healing modalities. Angelica Joy is an in demand speaker and wellness consultant. For the past twenty-five years, she has been an avid student of holistic dietary and lifestyle principles and practices. In her book, Angelica imparts the fruits of her explorations and discoveries, sharing the health secrets she has personally adopted and fine-tuned to create a life of phenomenal wellness and immunity. Her health quest turned into serious avocation in the 1980's when she pioneered teaching popular whole foods cooking classes in several Connecticut communities in the days before the organic foods movement went mainstream. She also free-lanced as a whole foods chef. Her down-to-earth dietary and lifestyle strategies are easy to understand and follow. Angelica's comprehensive wellness agenda evolved from her efforts to solve series of personal health challenges. Her studies involved explorations into numerous holistic dietary and lifestyle approaches, including macrobiotics, green living, pH balance, food combining for optimal digestion, and allergy management. She also experimented with healing modalities of mind, body, and spirit, including homeopathy, acupuncture, hypnotherapy, meditation, and Reiki. *I Can't Get Sick* offers a distillation of these explorations. Angelica is a retired educator with over thirty years of public school teaching experience. She holds Bachelor of Arts Degree from Case Western Reserve University, a Master's Degree in French Literature from New York University, a Sixth Year Degree in Elementary Education from Southern Connecticut State University, and Reiki Master Certificate. At present, in addition to wellness coaching, she enjoys writing in a variety of literary genres, and tutoring students of all grade levels and ages in a variety of academic subject areas. She is the author of a children's book entitled *My Cat, Merigold*. More information is available on her website, ANGELICAJOYBOOKS.Com.

50 Fantastic Ideas for Co-Regulation Kerry Murphy, 2024-04-25 _____ The 50 Fantastic Ideas series is packed full of fun, original, skills-based activities for Early Years practitioners to use with children aged 0-5. Each activity features step-by-step guidance, a list of resources, and a detailed explanation of the skills children will learn. Creative, simple, and highly effective, this series is a must-have for every Early Years setting. _____ Co-regulation is the process when children develop the ability to manage emotions, responses, and impulses both in mind and body (self-regulation) through connection with nurturing and reliable caregivers. Children need to understand their own feelings and those of others, and learn to regulate their behaviour accordingly. One of the key ways children learn to self-regulate is through co-regulation. With modelling, support and nurture, practitioners can learn to co-regulate alongside the children so that they can develop those important skills. This dip-in-and-out guide will help practitioners provide the strongest foundations for children and to give them the best emotional start in life. It provides meaningful and inclusive ideas for co-regulation that can be embedded into everyday practice, and be used for a broad range of emotional needs, without being tokenistic. These practical and easy-to-resource ideas are expertly formulated to support and develop children's self-regulation skills.
