Using a unique plan of action, “The Four S’s”, the book presents an organizational mindset focused on the added value of telling your Story, revealing your Style, proclaiming your Substance, and Sharing your uniqueness effectively. In today’s competitive market, a winning portfolio is much more than a simple accounting of digital skills and volumes of high-resolution graphics. This book shows students what recruiters really value and how to ensure their portfolios make the right impression. Design Portfolios: A Recruiter’s View explains: How to develop a memorable organizational approach around story, style, substance, and sharing and create a winning portfolio Answers to the key questions students ask to fill in gaps in their academic instruction Real examples of resumes, cover letters, and portfolios that reveal what is needed for success Years of “big picture” insight gained from actual portfolio reviews during the author’s time as a designer and recruiter Aimed at the inexperienced design student rather than the practicing professional, Design Portfolios: A Recruiter’s View is an easy-to-understand and constructive guide that is incredibly helpful to young designers with project histories that consist only of academic and internship work.
