Global Alliances in Tourism and Hospitality Management Dimitrios Buhalis,John Crotts,2013-02-01 Target your business strategies to fit specific tourist cultures! Since Thomas Cook packaged the first tour in 1841, hospitality and tourism enterprises have forged long-term alliances with one another. Yet research suggests that most such alliances will fail. What goes wrong? How can tourism professionals take advantage of all the benefits of international cooperation while minimizing the potentially disastrous risks of failure? Global Alliances in Tourism and Hospitality Management provides empirical research, case studies, and theory to help you make the right decisions about this potentially high-profit strategy. To compete in the world travel market, a firm must increase its ability to reach, serve, and satisfy its target markets, while lowering costs. Making an alliance is often the most efficient and effective way to reach these twin goals. However, many firms make alliances without sufficient planning and end up paying the price in failed tours, dissatisfied customers, and damaged reputation. The five critical questions that must be answered before creating a partnership include: Do we want to partner? Do we have an ability to partner? With whom do we partner? How do we partner? How do we sustain and renew a partnership over time? Global Alliances in Tourism and Hospitality Management offers specific, detailed ideas and research on vital topics, including: deciding how and when to form alliances handling multicultural management issues identifying the basic elements of successful--and not so successful--partnerships discovering the effects of culture on purchasing decisions dealing with conflicts within alliances ensuring cross-agency cooperation The development and management of alliances is a critical skill. Global Alliances in Tourism and Hospitality Management provides you with the strategies you need to build successful alliances. International in scope, this informative guide will help marketers, managers, and other professionals in the hospitality industry to lower company costs, raise profits, and gain strategic advantages in diversified markets.

Investigating the Almost Perfect Murders Anthony Nott,2020-03-30 A British detective superintendent recounts a remarkable ten-year investigation, and other compelling murder cases he worked in his long police career. Anthony Nott joined the Metropolitan Police in 1971, in a very different world from that of today. In this memoir he describes his early experiences in the Met, including the arrest of a man for murdering a prostitute in Kings Cross. He was present when a fellow police officer was almost stabbed to death, and witnessed an act of police brutality when he interrupted the beating of a petty criminal in a cell by the CID. In 1976, he transferred to the county force of Dorset where, not long after his promotion to detective sergeant, he engaged in what would be a ten-year long investigation into the disappearance of Monica Taylor, leading to the eventual conviction of her husband, Peter, for what was almost the perfect murder—Monica's remains were never found. He also recounts a series of other cases in which he was involved, from the murder and decapitation of a woman in Bournemouth and the random killing of another, to the extremely violent killing of a gay man in Boscombe Gardens, Bournemouth, in which it took two years to bring the perpetrators to justice. While he served as a DCI in Bournemouth in 1994, the chance visit of a detective sergeant from Guernsey, who was investigating a life insurance fraud, led to the reopening of a missing person enquiry from eight years earlier, and resulted in the conviction of Russell Causley for murder, despite his wife's body also never being recovered. This book provides an insight into the methodical and transparent way in which the police investigate complicated crimes—from riots to almost perfect murders.
