History of the Ottawa and Chippewa Indians of Michigan Andrew J. Blackbird,1887 Blackbird (Mack-e-te-be-nessy) was an Ottawa chief's son who served as an official interpreter for the U.S. government and later as a postmaster while remaining active in Native American affairs as a teacher, advisor on diplomatic issues, lecturer and temperance advocate. In this work he describes how he became knowledgeable about both Native American and white cultural traditions and chronicles his struggles to achieve two years of higher education at the Ypsilanti State Normal School. He also deals with the history of many native peoples throughout the Michigan region (especially the Mackinac Straits), combining information on political, military, and diplomatic matters with legends, personal reminiscences, and a discussion of comparative beliefs and values, and offering insights into the ways that increasing contact between Indians and whites were changing native lifeways. He especially emphasizes traditional hunting, fishing, sugaring, and trapping practices and the seasonal tasks of daily living. Ottawa traditions, according to the author, recall their earlier home on Canada's Ottawa River and how they were deliberately infected by smallpox by the English Canadians after allying themselves with the French. Blackbird finds Biblical parallels with Ottawa and Chippewa accounts of a great flood and a fish which ingests and expels a celebrated prophet. He includes his own oratorical Lamentation on white treatment of the Ottawas, twenty-one moral commandments of the Ottawa and Chippewa, the Ten Commandments and other religious material in the Ottawa and Chippewa language, and a grammar of that language. Henry Rowe Schoolcraft appears in the narrative in his role as an Indian agent.

The Big Nest Originated the Big Bang of Stephen Hawking’s Black Holes William Moreira,2013-08-01 Author William Moreira has spent decades studying and seeking God—sometimes while flying high above the clouds in his Cessna. In that time, he has discovered that God is everywhere. Now, in this new study, he takes issue with Stephen Hawking and other scientists and individuals who argue against God’s existence. He seeks to disprove their theories and contemplates ways you can • use your brain to discover the true nature of the universe; • live in a manner that will lead to a happy place in eternity; and • argue against the theories of Hawking and his constituents. While some aspects of the universe will remain a mystery, it’s clear that God exists. What’s more, it’s up to you to find the right path to moral evolution. You must look at the infinity of the illuminated dark matter encrusted within the stars and, in exaltation, accept that there is a super power and that God is everywhere. Join Moreira as he takes on various foolish views about the universe and existence. You can find faith, understanding, and the knowledge needed to live a more fulfilling life with The Big Nest Originated the Big Bang of Stephen Hawking’s Black Holes.

0500 Letters from a Ww li Combat Infantryman Verdi Gilbertson,2015-11-11 May 7, 1945 Well, the war ended today. Tomorrow is officially V - E Day! All is quiet on the western front. Thank our Almighty God that at last we have peace over here. We cant really be happy as long as we have boys fighting on the other side of the world but it is also a big step towards ending the war over there too. We hope and pray that it ends soon. It looked like the 4th of July here tonight. The French civilians are shooting up flares and rockets of all colors. The soldiers are not celebrating very much though. The order to Cease Firing has come. I just cant help but thinking of our buddies who were left behind on the battlefields and never will hear the order.

The Murder of Anton Livius Hansjorg Schneider,2023-07-25 Inspector Hunkeler is summoned back to Basel from his New Year holiday to unravel a gruesome killing in a community garden on the city’s outskirts. An old man has been shot in the head and found in his garden shed hanging from a butcher’s hook. Hunkeler must deal not only with the quarrelsome tenants of the garden but with the challenges of investigating a murder that has taken place outside his jurisdiction, across the French border in Alsace. The clues lead to the Emmental in Berne, and then to Alsace where wounds from the Second World War have never healed. Series: The third in the Inspector Hunkeler series published in English. The first was The Basel Killings published by Bitter Lemon in 2021, winner of the Friedrich Glauser Prize, Germany’s most prestigious crime fiction award. The second was Silver Pebbles, a beautifully crafted thriller about stolen diamonds, drug couriers and people accidentally caught in a vortex of crime. Character-driven: Hunkeler is close to retirement age, gruff, intuitive, and endowed with a deep sense of psychology and a horror of social injustice. “Reminiscent of Wallander and Rebus, a little jaded, a bit rebellious and always independent with a strong intuition. said the Financial Times. It feels like Hunkeler investigates mostly by spending time in the bars and inns of his beloved city and neighbouring Alsace where he shares a small farmhouse with his long-suffering ‘girlfriend’ Hedwig. Sense of place: It is a harsh winter with unusually heavy snowfall and persistent sub-zero

temperatures. The city of Basel and neighbouring Alsace are evoked with great love by Schneider, who in real life lives on the same street and frequents the same bars and restaurants as Inspector Hunkeler. As an outsider, Hunkeler is alive to class differences and social milieux. The contrast between the xenophobia of the local police and the Swiss press and the desperate, often lonely, world of Balkan and other immigrants informs the story.
