**Happy Clouds, Happy Trees** Kristin G. Congdon,Doug Blandy,Danny Coeyman,2014-04-21 Readers will know Bob Ross (1942–1995) as the gentle, afro'd painter of happy trees on PBS. And while the Florida-born artist is reviled or ignored by the elite art world and scholarly art educators, he continues to be embraced around the globe as a healer and painter, even decades after his death. In Happy Clouds, Happy Trees, the authors thoughtfully explore how the Bob Ross phenomenon grew into a juggernaut. Although his sincerity in embracing democracy, gift economies, conservation, and self-help may have left him previously denigrated as a subject of rigorous scholarship, this book uses contemporary art theory to explore the sophistication of Bob Ross's vision as an artist. It traces the ways in which his many fans have worshiped, emulated, and parodied him and

his work. His technique allowed him to paint over 35,000 paintings in his lifetime, mostly of mountains and trees in landscapes heavily influenced by his time in the Air Force and stationed in Alaska. The authors address issues of amateur art, sentimentality, imitation, boredom, seduction, and democratic practices in the art world. They fully examine Ross as a painter, teacher, healer, media star, performer, magician, and networker. In-depth comparisons are made to Andy Warhol and Thomas Kinkade, and mention is made of his life in relation to Joseph Beuys, Elvis Presley, St. Francis of Assisi, Carl Rogers, and many other creative personalities. In the end, *Happy Clouds, Happy Trees* presents Ross as a gift giver, someone who freely teaches the act of painting to anyone who believes in Ross's vision that "this is your world."

**Sign Painters** Faythe Levine, Sam Macon, 2013-07-02 There was a time, as recently as the 1980s, when storefronts, murals, banners, barn signs, billboards, and even street signs were all hand-lettered with brush and paint. But, like many skilled trades, the sign industry has been overrun by the techno-fueled promise of quicker and cheaper. The resulting proliferation of computer-designed, die-cut vinyl lettering and inkjet printers has ushered a creeping sameness into our visual landscape. Fortunately, there is a growing trend to seek out traditional sign painters and a renaissance in the trade. In 2010 filmmakers Faythe Levine, coauthor of *Handmade Nation*, and Sam Macon began documenting these dedicated practitioners, their time-honored methods, and their appreciation for quality and craftsmanship. *Sign Painters*, the first anecdotal history of the craft, features stories and photographs of more than two dozen sign painters working in cities throughout the United States. With a foreword by legendary artist (and former sign painter) Ed Ruscha, this vibrant book profiles sign painters young and old, from the new vanguard working solo to collaborative shops such as San Francisco's New Bohemia Signs and New York's Colossal Media's Sky High Murals.
