Buying and Selling Real Estate by Owner Everett L. Gracey,1998 This work is absolutely essential for anyone who wants to know how to sell his/her home without a real estate agent or what to look for in purchasing a home.

Show and Sell Bill Hines,2015-11-15 Show and Sell is a guide to selling your home in today's world, written from the perspective of a homeowner who is fresh from the process. The traditional ways to sell a property have been disrupted and displaced by technology, like so many other things in our world today. Traditional 'for sale by owner' (FSBO) has changed quite a bit from the days when you put the ubiquitous red and white sign out front. The antiquated Multiple Listing Service (MLS) that realtors depend on hasn't changed much, and is being displaced by technology and new approaches that benefit home sellers and home buyers. It is no longer a black and white choice between FSBO and using listing/selling realtors in the traditional way. There are new middle-ground choices, which make it easier for homeowners to find exactly the right process for themselves. There are new services provided by visionary realty companies, such as flat-fee MLS, which help to expedite the process, put the power back into the hands of buyers and sellers, and save both parties money. This book will examine those choices, and then walk you through the selling process from start to finish; using the real-life experiences of the author, who is a homeowner, not a realtor. This recent sale is the subject of the story within this book. Follow along as the author takes you through early decisions to closing, exploring all of the options that are available to buyers and sellers today, using the technology that is not only imperative but comfortable to tech-savvy baby boomers, gen-Xers, and millennials. It is a fair and objective examination, including whether these new techniques are really for you. It is indeed a 'Cautionary Tale' due to the many pitfalls and entertaining, unusual stories that occurred along the way. Follow along on this funny and insightful journey and learn from the author's research and mistakes, to enrich your own home selling (or buying) experience.

Chicano Manual on How to Handle Gringos Jos? Angel Guti?rrez,2003-04-30 Under this somewhat threatening title, the renowned civil rights leader Jos? Angel Guti?rrez provides a guidebook to minority empowerment through the use of analysis, practical experience and anecdote. His primary goal is the conversion of Latino demographic power into educational, economic and political power. In an incisive introduction, Guti?rrez analyzes the types of power and evaluates Chicano and Latino access to power at various levels in U.S. society. In very plain, down-to-earth language and examples, Guti?rrez takes pains to make his broad knowledge and experience available to everyone, but especially to those who want to be activists for themselves and their communities. For him the empowerment of a minority or working-class person can transfer into greater empowerment of the whole community. This manual penned by the founder of the only successful Hispanic political party, La Raza Unida, brings together an impressive breadth of models to either follow or avoid. Quite often, Guti?rrez's voice is not only the seasoned voice of reason, but also that of humor, wry wit and satire. If nothing else, The Chicano Manual on How to Handle Gringos is a wonderful survey of the Chicano and Latino community on the move in all spheres of life in the United States on the very eve of its demographic and cultural ascendancy.

The French Way with Design Betty Lou Phillips,2014-07-17 A new look is emerging in France's apartments as well as its imposing chateaux and country manors. Along with signature pieces of national identity—such as finely crafted wood pieces, splendid mirrors, and grandmère's well cared for linens—European mid-century modern furnishings also adorn settings in this age of merging sensibilities. Homes photographed in France and the U.S. show abstract works of art mingling easily with painted furniture, budget-friendly finds from assorted cultures—such as wool rugs and handembroidered linens from India—and pottery, artisan-made pillows, throws and vintage textiles from remote markets in Morocco. BETTY LOU PHILLIPS, ASID, is the author of a dozen books on French design, including her most recent, *The Allure of French and Italian Décor*, French Impressions and Inspirations from France and Italy. Ms. Phillips lives in Dallas, Texas.

Choosing Homes, Choosing Schools Annette Lareau,Kimberly Goyette,2014-03-31 A series of policy shifts over the past decade promises to change how Americans decide where to send their children to school. In theory, the boom in standardized test scores and charter schools will allow parents to evaluate their assigned neighborhood school, or move in search of a better option. But what kind of data do parents actually use while choosing schools? Are there differences among suburban and urban families? How do parents' choices influence school and residential segregation in America? *Choosing Homes, Choosing Schools* presents a breakthrough analysis of the new era of school choice, and what it portends for American neighborhoods. The distinguished contributors to *Choosing Homes, Choosing Schools* investigate the complex relationship between education, neighborhood social networks, and larger patterns of inequality. Paul Jargowsky reviews recent trends in segregation by race and class. His analysis shows that segregation between blacks and whites has declined since 1970, but remains extremely high. Moreover, white families with children are less likely than childless whites to live in neighborhoods with more minority residents. In her chapter, Annette Lareau draws on interviews with parents in three suburban neighborhoods to analyze school-choice decisions. Surprisingly, she finds that middle- and upper-class parents do not rely on active research, such as school tours or test scores. Instead, most simply trust advice from friends and other people in their network. Their decision-making process was largely informal and passive. Eliot Weinginer complements this research when he draws from his data on urban parents. He finds that these families worry endlessly about the selection of a school, and that parents of all backgrounds actively consider alternatives, including charter schools. Middle- and upper-class parents relied more on federally mandated report cards, district websites, and online forums, while working-class parents use network contacts to gain information on school quality. Little previous research has explored what role school concerns play in the preferences of white and minority parents for particular neighborhoods. Featuring innovative work from more than a dozen scholars, *Choosing Homes, Choosing Schools* adroitly addresses this gap and provides a firmer understanding of how Americans choose where to live and send their children to school.
