Carcass management guidelines Miller, L.P., Miknis, R.A. and Flory, G.A.,2020-12-28 Animal disease outbreaks pose many challenges for response authorities that can impact livelihoods, food security, and the environment. The guidelines apply to animal disease outbreaks of varying sizes, whether the outbreak is isolated to a single premise or spans a region to cover numerous premises. However, they are focused on small to medium-sized holdings in countries without access to engineered landfills, rendering plants or controlled incinerators. The guidelines are written in the spirit of “keep it simple and doable”, considering the limited human and financial resources that many countries are constrained with.
