Controversy in Science Museums Erminia Pedretti,Ana Maria Navas Iannini,2020-04-30 Controversy in Science Museums focuses on exhibitions that approach sensitive or controversial topics. With a keen sense of past and current practices, Pedretti and Navas Iannini examine and re-imagine how museums and science centres can create exhibitions that embrace criticality and visitor agency. Drawing on international case studies and voices from visitors and museum professionals, as well as theoretical insights about scientific literacy and science communication, the authors explore the textured notion of controversy and the challenges and opportunities practitioners may encounter as they plan for and develop controversial science exhibitions. They assert that science museums can no longer serve as mere repositories for objects or sites for transmitting

facts, but that they should also become spaces for conversations that are inclusive, critical, and socially responsible. Controversy in Science Museums provides an invaluable resource for museum professionals who are interested in creating and hosting controversial exhibitions, and for scholars and students working in the fields of museum studies, science communication, and social studies of science. Anyone wishing to engage in an examination and critique of the changing roles of science museums will find this book relevant, timely, and thought provoking.

A Climate for Change Katharine Hayhoe, Andrew Farley, 2009-10-29 Most Christian lifestyle or environmental books focus on how to live in a sustainable and conservational manner. A CLIMATE FOR CHANGE shows why Christians should be living that way, and the consequences of doing so. Drawing on the two authors' experiences, one as an internationally recognized climate scientist and the other as an evangelical leader of a growing church, this book explains the science underlying global warming, the impact that human activities have on it, and how our Christian faith should play a significant role in guiding our opinions and actions on this important issue.
