**Toy Wars** G. Wayne Miller, 2012-11-21 This is the real toy story, an unprecedented behind-the-scenes journey through a world of influence, fantasy, and multimillion-dollar Hollywood deals, a world where the whims of children make millionaires and topple titans. This is also the story of an

unusual man. Alan Hassenfeld, the chief executive officer of Hasbro, never intended to run a Fortune 500 company. A free spirit who dreamed of being a writer and exploring Asia, he was content to remain in the shadow of his older brother Stephen, a marketing genius who transformed a family firm established by immigrant Jews into powerhouse and Wall Street darling. Then tragedy struck. Stephen, and intensely private man, died of AIDS, a disease he had not acknowledged he had, even to his family. Alan Hassenfeld was named CEO, just as Hasbro was facing a daunting onslaught of challenges. Toy Wars is about Alan's struggle to balance the demands of the bottom line with his ideals about the kind of toys children deserve, as well as the ethical obligations of management. Wayne Miller, an award-winning journalist and novelist, was granted unprecedented access to Hasbro, the maker of G.I. Joe, Star Wars toys, Mr. Potato Head, Batman, Monopoly, Scrabble, Trivial Pursuit, and countless other favorites. For five years, he sat in on design sessions, marketing meetings, and focus groups, and interviewed employees in every part of the company. He witnessed a major corporate restructuring; crucial deal with Dreamworks SKG; a hostile takeover bid by archrival Mattel; the collapse of a \$45 million virtual reality game; and the company makeover of G.I. Joe, Hasbro's flagship product and one of the most popular toys of all time. Toy Wars is filled with many colorful characters, including: Hollywood moguls Steven Spielberg and George Lucas, whose kid-friendly movies can translate into licensing gold for toymakers Mighty Morphin Power Rangers creator Haim

Saban, who tapped into a popular Japanese TV series and made it a worldwide television and merchandising phenomenon Mattel CEO Jill Barad, the second-highest-paid woman in corporate America, who promotes and defends Barbie with the zeal of a religious crusader Hasbro executive Al Verrecchia, the loyal second in command who did not let friendship or tradition stand in the way of a dramatic restructuring Larry Bernstein, arguably the best toy salesman ever, a riotous raconteur whose divisional presidency crumbled when he was unable to meet Hasbro's profit goals Rich in family drama and written with sly wit, Toy Wars is a deeply compelling business story, a fascinating tour through a billion-dollar industry that exerts tremendous influence on the lives of children everywhere.

**Kid Number One** G. Wayne Miller, 2019-09-15 Having escaped religious persecution in Eastern Europe in 1903, Alan Hassenfeld's grandfather and great-uncle arrived in America as penniless teenage immigrants - refugees who went from hawking rags on the streets of New York City to building what became the world's largest toy company, Hasbro. Alan's father, Merrill, brought Mr. Potato Head and G.I. Joe to consumers and his only brother, Stephen, made Hasbro a Fortune 500 company and Hollywood player. Alan was the free spirit who wanted to write novels, date beautiful women and travel the world. He never wanted to run Hasbro, and no one ever believed he would - or could. And then Stephen died, tragically of AIDS. Kid Number One, as Alan liked to call himself, was suddenly chairman and CEO. Silencing the skeptics,

he took the company to greater heights - and then almost killed it with a series of bad decisions including Hasbro's acquisition of rights to POKÉMON. Putting ego aside, Hassenfeld gave his long-time lieutenant Al Verrecchia command and set in motion a plan whereby he would leave the corner office. Verrecchia saved the company, and after renewed success, he himself retired, leaving Hasbro in the hands of current CEO and chairman Brian Goldner, so highly regarded that he was brought onto the board of CBS. With his fortune, Hassenfeld could have sailed into the sunset on a yacht, but instead, he went to work expanding the long family tradition of Tikkun Olam - repairing the world - begun by his grandfather and great-uncle, who, grateful to have survived, tirelessly helped immigrants and needy citizens of their new country. Alan Hassenfeld's philanthropy has helped build two children's hospitals, establish numerous educational and health programs, train young doctors and scientists, resettle refugees, promote peace in the Mideast and more. For decades, he also has been a highly visible advocate for national political and ethics reform, despite personal threats and the scorn of crooked politicians. Kid Number One: A story of heart, soul and business, featuring Alan Hassenfeld and Hasbro, weaves these stories into a seamless, dramatic narrative that begins with the slaughter of Jews in 1903 Poland and continues to today -- when in an era of unchecked narcissism and greed, Hassenfeld, like Bill Gates, serves as a model for what people of great wealth can do when they put self aside. Kid Number One also chronicles the

history of American toys -- and not just such Hasbro classics as Monopoly, Transformers and Star Wars, but also Mattel's timeless brands including Barbie and many lesser-known toys by companies large and small, many no longer in existence. Granted exclusive and unprecedented access inside a \$5-billion toy and family-entertainment company and one of America's leading if largely unknown philanthropies, G. Wayne Miller, author of the best-selling Toy Wars: The epic struggle between G.I. Joe, Barbie and the companies that make them, is uniquely qualified to tell this tale.

**The History Of How Hasbro Egregiously Ruined The ToyBiz Marvel Legends Action Figure Line, Why Action Figures Are So Expensive And Are No Longer Affordable To Buy, And The Ample Benefits Of Collecting Action Figures** Dr Harrison Sachs,2020-02-27 This essay sheds light on the history of how Hasbro egregiously ruined the ToyBiz marvel legends action figure line and also elucidates why action figures are so expensive and are no longer affordable to buy. Moreover, the ample benefits of collecting action figures are delineated in this essay. To the dismay of the action figure collector, Hasbro has egregiously decimated the once renowned Marvel Legends Action Figure Line that ToyBiz worked so ineffectually hard to build from the ground up. The history of the Marvel Legends Action Figure Line dates back to 2002. This

covetable Marvel Legends Action Figure Line was ToyBiz's magnum opus and revolutionized the action figure industry. The advent of the Marvel Legends Action Figure Line rendered action figures of Marvel characters enhanced in every facet. Marvel action figure from this point forward were not only apart of a 1/12 scale line and stood around 6 tall instead of standing 5 tall, but now had extraordinary sculpts, 28-40 points of articulation, and sported high quality details, shadings, textures, paint applications, designs, and accessories. Moreover, the ToyBiz Marvel Legends action figures came bundled with a comic book and even a piece for a robust build a figure that could stand up to 16 tall, such as the Sentinel Build-A-Figure, Apocalypse Build A Figure, and The Galactus Build-A-Figure. Before the release of ToyBiz Marvel Legends Galactus Build-A-Figure Wave that inducted the Build-A-Figure concept as a staple apart of the line, in lieu of build a figure pieces, the Marvel Legends figures the predated the Marvel Legends Galactus Build-A-Figure Wave action figures would come bundled with extraordinary bonus items, such as high quality vehicles or meticulously detailed diorama pieces. Additionally, these high quality Marvel Legends action figures retailed for \$8 and were always eminently aesthetically appealing to take a gander at in their clam shell packaging with featured each character's corresponding comic book cover art serving as the packaging background. The back of the ToyBiz Marvel Legends packaging was enthralling to read since it featured a short biography of the character and even their combat stats. It also showed the other

figures in the line as well as the Build-A-Figure apart of the wave. The ToyBiz Marvel Legends Action Figure line elicited ample spin off action figure lines, such as the X-Men Classics Action Figure Line, the Hulk Classics Action Figure Line, and the Fantastic Four Classics Action Figure Line. The ToyBiz Marvel Legends Action Figure offered action figure box sets featuring 4-7 Marvel action figures and a poster book for \$40. Face-off sets that featured 2 Marvel action figures which came bundled with a sturdy base and an aesthetically appealing background for said base retailed for \$20. The intrinsic value the ToyBiz Marvel Legends action figure line offered devout Marvel fans and action figure collectors was unprecedented. Due to the release of the ToyBiz Marvel Legends Action Figures, Marvel action figures were no longer characterized by insipid mediocrity, but were now being materialized into becoming the action figures that avid action figure collectors have been yearning to add to their collections for years. The ToyBiz Marvel Legends Line featured many prominent characters of iconic Marvel superheroes, such as Iron Man and Captain America, and notorious Marvel supervillians, such as Magneto and Dr. Doom. The Marvel Legends Action Figure Line featured many variants of popular figures that were either repurposed to be different characters, such as the variant for the Dr. Doom action figure being the Doom Bot action figure. Most of the variants for the ToyBiz Marvel Legends were mostly repaints of the same figure, such as the Marvel Legends First Appearance Iron Man action figure sporting golden armour

instead of silver amour. The ToyBiz Marvel Legends Line metaphorically out wright screamed value in all facets.

**My Year Collecting Toys 2017** Matthew Marchon, It's not an addiction, it's a passion. I love collecting toys. Okay, yeah, fine, maybe a little bit of an addiction. We'll let you decide. Journey with me as we take a trip back to 2017. The year my beloved WWF Hasbro figures returned to the shelves as WWE Retros. The year Mega Construx added Masters Of The Universe to their line of mini figures. The year I bought a collection of the 2011 Thundercats and found a bag of He-Man figures at a thrift store in the mountains of New Hampshire. While traveling New England for my hiking guides, I stopped at every toy store, flea market and thrift store I came across. Not to mention my parents' shed and attic, always good places for old treasures. And of course, good old eBay. The cover says it all, you know what we're hunting down. This isn't superheroes and Star Wars, I'm looking for those forgotten lines. And a few not so forgotten. We're talking Dino-Riders and Super Naturals. Wrestling and MOTU. GI Joes, Turtles, the ninja kind, not the ones you have to brake for in the road, Transformers and even, ugh, I know people hate it but I'm gonna say it anyway, Go-Bots. And Thundercats, everyone loves them. Does that make up for it? It was a good year for toy hunting, but not nearly as good as the years that fell around it. Since this book's a little short, we're going to give it away for free, just pretend it's one of those mini comics that came with 80's action figures. But don't let your kids read

it, some of the humor may be a little inappropriate. They can enjoy the pictures though, just like I did with the actual mini comics that came with my figures when I was a kid. Let's take a look at my year collecting toys in 2017.
