Historical Dictionary of Somalia Mohamed Haji Mukhtar,2003-02-25 The volume will cover all aspects of Somalia, providing useful information about the country in a comprehensive manner. The book also reflects on the contributions of the Somali sources on history and culture. Arabic sources and other non-English colonial sources of great importance to the subject are also highlighted. A vital addition to reference collections supporting undergraduate and graduate programs on Africa and the Middle East, international relations, and economics_and a useful fact-filled compendium for government and public libraries, NGO's, and other special libraries as well.

Sufi Narratives of Intimacy Sa'diyya Shaikh,2012-03-05 Thirteenth-century Sufi poet, mystic, and legal scholar Muhyi al-Din ibn al-'Arabi gave deep and sustained attention to gender as integral to questions of human existence and moral personhood. Reading his works through a critical feminist lens, Sa'diyya Shaikh opens fertile spaces in which new and creative encounters with gender justice in Islam can take place. Grounding her work in Islamic epistemology, Shaikh attends to the ways in which Sufi metaphysics and theology might allow for fundamental shifts in Islamic gender ethics and legal formulations, addressing wide-ranging contemporary challenges including questions of women's rights in marriage and divorce, the politics of veiling, and women's leadership of ritual prayer. Shaikh deftly deconstructs traditional binaries between the spiritual and the political, private conceptions of spiritual development and public notions of social justice, and the realms of inner refinement and those of communal virtue. Drawing on the treasured works of Sufism, Shaikh raises a number of critical questions about the nature of selfhood, subjectivity, spirituality, and society to contribute richly to the prospects of Islamic feminism as well as feminist ethics more broadly.

You Ask, I Tell Hansa Wadkar,2014-04-01 The rise to stardom and tragic fall of one of the heroines of Indian film. Hansa Wadkar (born Ratan Bhalchandra) was one of Maharashtra's best known stage and screen personalities. By the time she was married — to a much older family friend and impresario when she was just 15 — she had already starred in nine or ten movies and was becoming a name in the film world. Supporting her family on her earnings, her brother sick with malaria, and both parents having taken to drink, life was not easy for the young woman. But Hansa was not only beautiful and immensely talented, she was tough, wilful, capricious and headstrong. Her autobiography, *Sangtye Aika* published in 1970 and translated into English here for the first time, created a sensation for its frankness and boldness. It was later made into a film, *Bhumika*, by the legendary director Shyam Benegal and starred Smita Patil in the title role. Published by Zubaan.

Fruit Oils: Chemistry and Functionality Mohamed Fawzy Ramadan,2019-05-08 *Fruit Oils: Chemistry and Functionality* presents a comprehensive overview of recent advances in the chemistry and functionality of lipid bioactive phytochemicals found in fruit oils. The chapters in this text examine the composition, physicochemical characteristics and organoleptic attributes of each of the major fruit oils. The nutritional quality, oxidative stability, and potential food and non-food applications of these oils are also extensively covered. The potential health benefits of the bioactive lipids found in these fruit oils are also a focus of this text. For each oil presented, the levels of omega-9, omega-6 and omega-3 fatty acids are specified, indicating the level of health-promoting traits exhibited in each. The oils and fats extracted from fruits generally differ from one another both in terms of their major and minor bioactive constituents. The methods used to extract oils and fats as well as the processing techniques such as refining, bleaching and deodorization affect their major and minor constituents. In addition, different post-processing treatments of fruit oils and fats may alter or degrade

important bioactive constituents. Treatments such as heating, frying, cooking and storage and major constituents such as sterols and tocopherols are extensively covered in this text. Although there have been reference works published on the composition and biological properties of lipids from oilseeds, there is currently no book focused on the composition and functionality of fruit oils. *Fruit Oils: Chemistry and Functionality* aims to fill this gap for researchers, presenting a detailed overview of the chemical makeup and functionality of all the important fruit oils.

Opuntia spp.: Chemistry, Bioactivity and Industrial Applications Mohamed Fawzy Ramadan, Tamer E. Moussa Ayoub, Sascha Rohn, 2021-09-27 The *Opuntia* fruits, commonly known as cactus pears or prickly pears, have been suggested by the Food and Agriculture Organization to be a promising and strategic crop in regions suffering from lack of water. In Mexico, India, South Africa, and the Mediterranean, the *Opuntia* fruits have become popular due to their nutritive value and health-promoting benefits, including antioxidant, antiulcerogenic and antiatherogenic traits and protective effects against LDL oxidation. Additionally, readily absorbable sugars, high vitamin C and mineral content, and a pleasant flavour make *Opuntia* tailor-made for novel foods. Due to their ecological advantages, high functional value, and health-related traits, *Opuntia* fruits can be highly exploited in different food processing applications. For instance, *Opuntia* cactus fruits are used for the preparation of juices and marmalades; *Opuntia* cactus plants are used to feed animals in African and Latin American countries; Peruvian farmers cultivate *Opuntia* cactus for growing the cochineal (*Dactylopius coccus*) insect and producing the natural dye carmine; and the commercial production of food and non-food products from *Opuntia* has been established in Mexico, USA and several Mediterranean countries. *Opuntia* spp.: Chemistry, Bioactivity and Industrial Applications creates a multidisciplinary forum of discussion on *Opuntia* cactus with special emphasis on its horticulture, post-harvest, marketability, chemistry, functionality, health-promoting properties, technology and processing. The text includes detailed discussion of the impact of traditional and innovative processing on the recovery of high-added value compounds from *Opuntia* spp. by-products. Later chapters explore the potential applications of *Opuntia* spp. in food, cosmetics and pharmaceutical products.

Innovations in Smart Cities Applications Edition 3 Mohamed Ben Ahmed, Anouar Abdelhakim Boudhir, Domingos Santos, Mohamed El Aroussi, İsmail Rakıp Karas, 2020-02-04 This book highlights original research and recent advances in various fields related to smart cities and their applications. It gathers papers presented at the Fourth International Conference on Smart City Applications (SCA19), held on October 2–4, 2019, in Casablanca, Morocco. Bringing together contributions by prominent researchers from around the globe, the book offers an invaluable instructional and research tool for courses on computer science, electrical engineering, and urban sciences. It is also an excellent reference guide for professionals, researchers, and academics in the field of smart cities. This book covers topics including: • Smart Citizenship • Smart Education • Digital Business and Smart Governance • Smart Health Care • New Generation of Networks and Systems for Smart Cities • Smart Grids and Electrical Engineering • Smart Mobility • Smart Security • Sustainable Building • Sustainable Environment

This book edition is an invaluable resource for courses in computer science, electrical engineering and urban sciences for sustainable development.

A Business and Its Beliefs Thomas J. Watson,2003-04 The timeless business book that still brings perspective and guidance to today's bottom-line executives When first published in 1963, IBM CEO Thomas Watson Jr.'s *A Business and Its Beliefs* gave readers an unprecedented look inside IBM's executive offices. Watson--son of IBM's founder--candidly discussed how the company clung to its values during the first great technological shift, and how this refusal to compromise became IBM's strength. He also became one of the first CEOs to question business's place and responsibility in society, and openly discuss how firms could meet expanding social expectations while still turning a profit. The groundbreaking ideas in this book still resonate with today's managers. This newly published edition reintroduces Watson's ideas to a new generation of decision-makers in search of IBM-style standards for their own organizations. A to-the-point examination of the values and beliefs that built and sustained IBM, its message is as valuable today as it was four decades back--and will once again strike a resounding chord with executives everywhere. .†

The Naked Heart Jacqueline Briskin,1990 Jacqueline Briskin is the author of *Paloverde* and *Too Much Too Soon*. This latest novel tells of the effect of World War II on the lives of two schoolgirls, one American and one French, who swear to a friendship that will threaten their lives.

Evolutionary Computation Ashish M. Gujarathi,B. V. Babu,2016-12-01 Edited by professionals with years of experience, this book provides an introduction to the theory of evolutionary algorithms and single- and multi-objective optimization, and then goes on to discuss to explore applications of evolutionary algorithms for many uses with real-world applications. Covering both the theory and applications of evolutionary computation, the book offers exhaustive coverage of several topics on nontraditional evolutionary techniques, details working principles of new and popular evolutionary algorithms, and discusses case studies on both scientific and real-world applications of optimization

Lear Edward Bond,2013-11-12 Edward Bond's version of Lear's story embraces myth and reality, war and politics, to reveal the violence endemic in all unjust societies. He exposes corrupted innocence as the core of social morality, and this false morality as a source of the aggressive tension which must ultimately destroy that society. In a play in which blindness becomes a dramatic metaphor for insight, Bond warns that 'it is so easy to subordinate justice to power, but when this happens power takes on the dynamics and dialectics of aggression, and then nothing is really changed'.

The Molecular Nutrition of Fats Vinood B. Patel,2018-10-29 The *Molecular Nutrition of Fats* presents the nutritional and molecular aspects of fats by assessing their dietary components, their structural and metabolic effects on the cell, and their role in health and disease. Subject areas include molecular mechanisms, membranes, polymorphisms, SNPs, genomic wide analysis, genotypes, gene expression, genetic modifications and other aspects. The book is divided into three sections, providing information on the general and introductory aspects, the molecular biology of the cell, and the genetic machinery and its function. Topics discussed include lipid-related molecules, dietary lipids and lipid metabolism, high fat diets, choline, cholesterol, membranes, trans-and saturated fatty acids, and lipid rafts. Other sections provide comprehensive discussions on G protein-coupled receptors, micro RNA, transcriptomics, transcriptional factors, cholesterol, triacylglycerols, beta-oxidation, cholesteryl ester transfer, beta-oxidation, lysosomes, lipid droplets, insulin mTOR signaling and ligands, and more. Summarizes molecular nutrition in health as related to fats Discusses the impact of fats on cancer, heart disease, dementia, and respiratory and intestinal disease Includes preclinical, clinical and population studies Covers the genome, the whole body and whole communities Includes key facts, a mini dictionary of terms and summary points

Arab Media Systems Carola Richter ,Claudia Kozman,2021-03-03 This volume provides a comparative analysis of media systems in the Arab world,

based on criteria informed by the historical, political, social, and economic factors influencing a country's media. Reaching beyond classical western media system typologies, Arab Media Systems brings together contributions from experts in the field of media in the Middle East and North Africa (MENA) to provide valuable insights into the heterogeneity of this region's media systems. It focuses on trends in government stances towards media, media ownership models, technological innovation, and the role of transnational mobility in shaping media structure and practices. Each chapter in the volume traces a specific country's media – from Lebanon to Morocco – and assesses its media system in terms of historical roots, political and legal frameworks, media economy and ownership patterns, technology and infrastructure, and social factors (including diversity and equality in gender, age, ethnicities, religions, and languages). This book is a welcome contribution to the field of media studies, constituting the only edited collection in recent years to provide a comprehensive and systematic overview of Arab media systems. As such, it will be of great use to students and scholars in media, journalism and communication studies, as well as political scientists, sociologists, and anthropologists with an interest in the MENA region.
