Keith Ridgway

Hawthorn & Child Keith Ridgway,2013-09-23 A mind-blowing adventure into a literary fourth dimension: part noir, part London snapshot, all unsettlingly amazing Hawthorn and his partner, Child, are called to the scene of a mysterious shooting in North London. The only witness is unreliable, the clues are scarce, and the victim, a young man who lives nearby, swears he was shot by a ghost car. While Hawthorn battles with fatigue and strange dreams, the crime and the narrative slip from his grasp and the stories of other Londoners take over: a young pickpocket on the run from his boss; an editor in possession of a disturbing manuscript; a teenage girl who spends her days at the Tate Modern; a pack of wolves; and a madman who has been infected by the former Prime Minister Tony Blair. Haunting these disparate lives is the shadowy figure of Mishazzo, an elusive crime magnate who may be running the city, or may not exist at all.

*A Shock* Keith Ridgway,2021-07-05 Ever since Keith Ridgway published his landmark cult novel Hawthorn & Child, his ardent fans have yearned for more. Finally, Ridgway gives us *A Shock*, his thrilling and unsparing, slippery and shockingly good new novel. Formed as a rondel of interlocking stories with a clutch of more or less loosely connected repeating characters, it's at once deracinated yet potent with place, druggy yet frighteningly shot through with reality. His people appear, disappear, and reappear. They're on the fringes of London, clinging to sanity or solvency or a story by their fingernails, consumed by emotions and anxieties in fuzzily understood situations. A deft, high-wire act, full of imprecise yet sharp dialog as well as witchy sleights of hand reminiscent of Muriel Spark, *A Shock* delivers a knockout punch of an ending. Perhaps Ridgway's most breathtaking quality is his scintillating stealthiness: you can never quite put your finger on how he casts his spell—he delivers the shock of a master jewel thief (already far-off and scot-free) stealing your watch: when at some point you look down at your wrist, all you see is that in more than one way you don't know what time it is...

The third edition: Includes perspectives from key industry executives at studios, networks, agencies and online leaders, including Fox, Paramount, Lucasfilm, Endeavor, Tencent, MPAA, YouTube, Amazon, and many more; Explores the explosive growth of the Chinese market, including box office trends, participation in financing Hollywood feature films, and the surge in online usage; Illustrates how online streaming leaders like Netflix, Amazon, Apple, YouTube, Hulu and Facebook are changing the way TV content is

**Fixing Haiti** Jorge Heine, Andrew Stuart Thompson, 2011 Haiti may well be the only country in the Americas with a last name. References to the land of the black Jacobins are almost always followed by the phrase the poorest country in the Western Hemisphere. To that dubious distinction, on 12 January 2010 Haiti added another, when it was hit by the most devastating natural disaster in the Americas, a 7.0 Richter scale earthquake. More than 220,000 people lost their lives and much of its vibrant capital, Port-au-Prince, was reduced to rubble. Since 2004, the United Nations has been in Haiti through MINUSTAH, in an ambitious attempt to help Haiti raise itself by its bootstraps. This effort has now acquired additional urgency. Is Haiti a failed state? Does it deserve a Marshall-plan-like program? What will it take to address the Haitian predicament? In this book, some of the world's leading experts on Haiti examine the challenges faced by the first black republic, the tasks undertaken by the UN, and the new role of hemispheric players like Argentina, Brazil and Chile, as well as that of Canada, France and the United States.

**The Digital Transformation Playbook** David L. Rogers, 2016-04-05 Rethink your business for the digital age. Every business begun before the Internet now faces the same challenge: How to transform to compete in a digital economy? Globally recognized digital expert David L. Rogers argues that digital transformation is not about updating your technology but about upgrading your strategic thinking. Based on Rogers's decade of research and teaching at Columbia Business School, and his consulting for businesses around the world, The Digital Transformation Playbook shows how pre-digital-era companies can

reinvalidate their game plans and capture the new opportunities of the digital world. Rogers shows why traditional businesses need to rethink their underlying assumptions in five domains of strategy—customers, competition, data, innovation, and value. He reveals how to harness customer networks, platforms, big data, rapid experimentation, and disruptive business models—and how to integrate these into your existing business and organization. Rogers illustrates every strategy in this playbook with real-world case studies, from Google to GE, from Airbnb to the New York Times. With practical frameworks and nine step-by-step planning tools, he distills the lessons of today's greatest digital innovators and makes them usable for businesses at any stage. Many books offer advice for digital start-ups, but *The Digital Transformation Playbook* is the first complete treatment of how legacy businesses can transform to thrive in the digital age. It is an indispensable guide for executives looking to take their firms to the next stage of profitable growth.

**Muslim Societies in Postnormal Times** Ziauddin Sardar, Jordi Serra, Scott Jordan, 2019-12-01 Where will Muslim societies be tomorrow? The world is increasingly and constantly changing, making it hard to keep up. This makes the state much more dire and troublesome for those already marginalised – particularly Muslim societies. Normal is no longer capable of upholding the promise of tomorrow's certainty. These are postnormal times. In this storm of ignorance and uncertainty, Muslim societies stand to lose the most. But this is not destiny. In the cultivation of a new type of literacy – futures literacy – there resides a hope. *Muslim Societies in Postnormal Times* offers an alternative where we can 'rescue' and decolonise our futures. Sardar, Serra, and Jordan take an open and plural approach to the future revealing the true potentials that lie before us. Through detailed analysis of contemporary trends, the road to destruction is revealed. Through identifying and exploring emerging issues, agency through options can allow for positive change. And in the extrapolation of these ideas into scenarios, the authors pave the way for us to navigate our own preferred futures. Their study challenges the reader to think about the future in a new way, redefining the monolithic future as three tomorrows (Extended Present, Familiar Futures, and Unthought Futures), along the way ever watchful for Black Swans, Black Elephants, and the illustrious Black Jellyfish that could disrupt the path ahead. The authors pull no punches in critically evaluating the possibilities and nightmares that could potentially befall Muslim societies. Through a display of creativity and imagination, this book looks beyond the conventional to illuminate impacts in the context of the complex, interconnected world we find ourselves in. This informative and enlightening text will push readers to see beyond popular, yet native notions of present and future. In the exposition of the reader's ignorance and uncertainty, they will begin to look for the unthought and take agency in recolonising and navigating their preferred tomorrow.

Economics: The User's Guide Ha-Joon Chang, 2015-10-20 From the internationally bestselling author and prizewinning economist--a highly original guide to the global economy. In his bestselling *23 Things They Don't Tell You About Capitalism*, Cambridge economist Ha-Joon Chang brilliantly debunked many of the predominant myths of neoclassical economics. Now, in an entertaining and accessible primer, he explains how the global economy actually works--in real-world terms. Writing with irreverent wit, a deep knowledge of history, and a disregard for conventional economic pieties, Chang offers insights that will never be found in the textbooks. Unlike many economists, who present only one view of their discipline, Chang introduces a wide range of economic theories, from classical to Keynesian, revealing how each has its strengths and weaknesses, and why there is no one way to explain economic behavior. Instead, by ignoring the received wisdom and exposing the myriad forces that shape our financial world, Chang gives us the tools we need to understand our increasingly

global and interconnected world often driven by economics. From the future of the Euro, inequality in China, or the condition of the American manufacturing industry here in the United States--Economics: The User's Guide is a concise and expertly crafted guide to economic fundamentals that offers a clear and accurate picture of the global economy and how and why it affects our daily lives.

**Weed and Pest Control** Sonia Soloneski, Marcelo Larramendy, 2013-03-14 This book covers alternative insect control strategies, such as the allelopathy phenomenon, tactics in integrated pest management of opportunistic generalist insect species, biological control of root pathogens, insect pest control by polyculture strategy, application of several integrated pest management programs, irrigation tactics and soil physical processes, and carbon stocks to manage weeds.

**Twelve Years a Slave** Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
