Leadership Lessons from the Life of Rasoolullah Mirza Yawar Baig,2012-10-01 There is a distinct difference between how one whose core faith is that Muhammad(Peace be upon him) was the Messenger of Allah and how someone who does not hold this belief, writes about him. This book, however, is not simply an analysis of history. It is a labor of love and reverence while being analytical and objective. It is an attempt by one who not only believes that Muhammad(Peace be upon him) was the best leader that ever existed but who believes in him and his message and wants to share it. The life of Muhammad(Peace be upon him) the Messenger of Allah is rich and full of lessons. It has been so well documented and so much has been written about his life over the centuries that another attempt is almost unnecessary. However, I decided to write this for two reasons: to make the lessons from the life of Rasoolullah(Peace be upon him) relating specifically to leadership easily accessible to the seeker, whether Muslim or not; and to make an attempt to see how these lessons are applicable today in a world that is in principle, very similar to the world he lived in. My premise is this: Since he was able to change his world and take his people from being the most insignificant, oppressed and weakest to becoming the predominant, admired and strongest in just one generation; if we learn how he was able to do it, we will be able to learn how to succeed in our world today.

Financial Inclusion and Poverty Alleviation Muhamed Zulkhibri,Abdul Ghafar Ismail,2017-11-30 This book explores the relationships between financial inclusion, poverty and inclusive development from Islamic perspectives. Financial inclusion has become an important global agenda and priority for policymakers and regulators in many Muslim countries for sustainable long-term economic growth. It has also become an integral part of many development institutions and multilateral development banks in efforts to promote inclusive growth. Many studies in economic development and poverty reduction suggest that financial inclusion matters. Financial inclusion, within the broader context of inclusive development, is viewed as an important means to tackle poverty and inequality and to address the sustainable development goals (SDGs). This book contributes to the literature on these topics and will be of interest to researchers and academics interested in Islamic finance and financial inclusion.

Qur'an of the Oppressed Shadaab Rahemtulla,2017-02-09 This study analyses the commentaries of four Muslim intellectuals who have turned to scripture as a liberating text to confront an array of problems, from patriarchy, racism, and empire to poverty and interreligious communal violence. Shadaab Rahemtulla considers the exegeses of the South African Farid Esack (b. 1956), the Indian Asghar Ali Engineer (1939-2013), the African American Amina Wadud (b. 1952), and the Pakistani American Asma Barlas (b. 1950). Rahemtulla examines how these intellectuals have been able to expound this seventh-century Arabian text in a socially liberating way, addressing their own lived realities of oppression, and thus contexts that are worlds removed from that of the text's immediate audience. Through a close reading of their works, he underlines the importance of both the ethico-social content of the Qur'an and their usage of new and innovative reading practices. This work provides a rich analysis of the thought-ways of specific Muslim intellectuals, thereby substantiating a broadly framed school of thought. Rahemtulla draws out their specific and general importance without displaying an uncritical sympathy. He sheds light on the impact of modern exegetical commentary which is more self-consciously concerned with historical context and present realities. In a mutually reinforcing way, this work thus illuminates both the role of agency and hermeneutical approaches in modern Islamic thought.

The Qur'an and the Bible Gabriel Said Reynolds,2018-01-01 While the Hebrew Bible and the New Testament are understood to be related texts, the sacred scripture of Islam, the third Abrahamic faith, has generally been considered separately. Noted religious scholar Gabriel Said Reynolds draws on centuries of Qur'anic and Biblical studies to offer rigorous and revelatory commentary on how these holy books are intrinsically connected.--Dust jacket.
