The Super Simple HCG Diet Kathleen Barnes,2013-04-18 The Super Simple HCG Diet is the simplest and most successful way to shed excess weight--3 to 5 pounds a week--without the complexities of the original HCG Diet. • Have you considered the HCG Diet? • Are you worried that you won't be able to stick to the 500-calorie restriction? • Or worried you won't have enough energy? • Or worried you'll just become numbingly bored with the limited food choices? • Afraid to inject yourself? This book debunks the myths of the 500-calorie Simeons HCG Diet and the outdated protocols that are difficult to understand and practically impossible to follow. Easing the calorie restriction to allow 700 calories a day, The Super Simple HCG Diet offers you a simpler program that still ensures success--allowing easier compliance without sacrificing rapid weight reduction. It also eliminates the complex phase system and, for those who need to stay on the program for several months, allows small breaks without abandoning the diet and weight control program altogether. The Super Simple HCG Diet is based on the author's personal experience. New Pounds and Inches Richard L. Lipman M.D., 2013-02 The HCG diet has caught the attention of most overweight Americans as it promises to help the dieter lose a pound a day without hunger or cravings and without a minute of exercise. The HCG diet was conceived in 1950, by Dr. A.T. Simeons, who wrote in his booklet, Pounds and Inches, that injecting HCG, a hormone produced normally by pregnant women, could not only produce spectacular weight loss results, but at the same time re-set the metabolism centers in the brain permanently. Simeons' plan required daily injections of HCG, and a rigid semi-starvation 500 calorie a day diet. Although many people have been successful with the plan, an equal number have found the HCG diet difficult to follow and have increasing questions about the HCG's safety and effectiveness. In the New Pounds and Inches, Richard L. Lipman M.D., a board certified endocrinologist and internist, updates and revises Simeons' 1954 plan using modern day science and his personal experience treating thousands of patients with HCG. Dr Lipman clarifies all of the controversies surrounding the HCG diet. The New Pounds and Inches uses oral HCG, an 800 calorie food plan, protein with all three meals, many fruits, unlimited vegetables, and many more foods, beverages and snacks unavailable to Dr. Simeons. It presents a workable exercise program, a maintenance plan and concludes with hundreds of appropriate HCG recipes. The New Pounds and Inches offers a safe, effective weight loss plan that sets the standard in weight loss for both practitioners and patients.
