**A Geo-Big Year** Alan M. MacEachren, 2022-11-22 A Geo-Big Year: Pandemic Retirement is for the Birds. This book recounts a year-long birding quest across Pennsylvania in 2021. The quest was to see at least 67 bird species in each of the state's 67 counties. During the quest year, the author (now Professor of Geography Emeritus from Penn State University) coped with the process of retiring after 42 years in academia and the challenges that the Covid-19 pandemic posed for safe travel. The book chronicles the birding experiences and birds seen as well as the travel and retirement challenges. The story, told chronologically, is focused on the search for birds. It includes an account of what birds were seen (or not seen) in specific counties and specific sites within those counties. It also recounts the quest itself as it unfolded. Written by a Geographer, places visited are also highlighted. The narrative conveys the adventure of experiencing the mix of both popular and seldom visited places. These places were mostly rural and included state and county parks, game lands, wildlife refuges, trails, and forests across the state together with less attractive places (for humans) that still attract birds (such as cemeteries, retention ponds, and county dumps). The book includes 471 black and white figures, most of which are photo composites of birds seen and/or of the places visited. In total, the 471 figures consist of more than 600 photos of birds plus more than 300 other images (that include landscape scenes, signage, non-bird creatures seen, maps, and graphs). The book is intended for a wide audience. Aspects of the account should resonate with readers who: are or want to be birders; are retired or contemplating retirement; like to travel, particularly on

back roads and to natural places that are off the beaten track; are academics thinking about work life balance; have tried (or thought about trying) camping after not doing any for a long time; have a bucket list to pursue; have experienced life changes or expect to have some soon; or have ever contemplated pursuing a birding big year or any other kind of year-long quest.

Curse on the Land Faith Hunter,2016-11-01 Set in the same world as Faith Hunter's New York Times bestselling Jane Yellowrock novels, the second Soulwood novel tells the story of a woman whose power comes from deep within the earth... Before Nell Ingram met skinwalker Jane Yellowrock, she had no one to rely on, finding strength only in her arcane connection to the dark woods around her. But now she has friends in the newly formed PsyLED team to keep her grounded—even if being part of the agency responsible for policing paranormals comes with dangers

of its own.... After training at the PsyLED academy, Nell returns home to her woods to find the land feeling sick and restless. And that sickness is spreading. With the help of her team, under the leadership of agent Rick LaFleur, Nell tries to determine the cause. But nothing can prepare them for the evil that awaits: an entity that feeds on death itself. And it wants more....

**Mapping Trophy Bucks** Brad Herndon, 2003-09-17 Using Topographic Maps to Find Deer  
Topographic maps and aerial photos can lead you right to the biggest bucks you've ever seen. You just have to know how to use them. Brad Herndon takes the mystery out of finding deer with maps. Through years of dedicated hunting and careful study of maps and photos, Herndon has perfected the use of maps to find the routes deer travel. And once you know where the deer will be headed you can establish the perfect ambush site. Maps are often the forgotten link in scouting prime deer habitat. Yet because they show you all the hills, gullies, rivers and ridges, you can learn the lay of the land without walking mile after unproductive mile. Maps won't eliminate the need to get in the woods, but they will tell the best places to start your search for the buck of your dreams. Herndon also shows hunters how to use the latest Internet and computer technology to personalize any map. Mark your stand locations, the locations of deer sign, even note the best possible wind direction to make your hunt a success. If you hunt deer, let Mapping Trophy Bucks lead you right to where the big boys hide. The rest is up to you.

Postal Brock Wilbur,Nathan Rabin,2020-04-07 In 1997, game studio Running With Scissors released its debut title, Postal, an isometric shooter aimed at shocking an imagined pearl-clutching public. The game was crass, gory, and dumb—all of which might have been forgivable if the game had been any fun to play. Postal gained enough notoriety from riding the wave of public outrage to warrant a sequel. And DLC. And a remake. And, perhaps most surprising of all, a Golden-Raspberry-winning feature film adaptation directed by the infamous Uwe Boll. In this thoughtful and hilarious tag-team performance, Brock Wilbur & Nathan Rabin probe the fascinatingly troubled game and film for what each can tell us about shock culture & mass shootings, interviewing the RWS team and even Boll himself for answers. Like it or not, Postal is the franchise that won't die—no matter how many molotov cocktails you throw at it.
