The Snowy Day Ezra Jack Keats, 2012-10-11 The magic and wonder of winter's first snowfall is perfectly captured in Ezra Jack Keat's Caldecott Medal-winning picture book. Young readers can enjoy this celebrated classic as a full-sized board book, perfect for read-alouds of all kinds and a great gift for the holiday season. In 1962, a little boy named Peter put on his snowsuit and stepped out of his house and into the hearts of millions of readers. Universal in its appeal, this story beautifully depicts a child's wonder at a new world, and the hope of capturing and keeping that wonder forever. This big, sturdy edition will bring even more young readers to the story of Peter and his adventures in the snow. Ezra Jack Keats was also the creator of such classics as Goggles, A Letter to Amy, Pet Show!, Peter's Chair, and A Whistle for Willie. (This book is also available in Spanish, as *Un día de nieve*.) Praise for *The Snowy Day*: "Keats made Peter's world so inviting that it beckons us. Perhaps the busyness of daily life in the 21st century makes us appreciate Peter even more—a kid who has the luxury of a whole day to just be outside, surrounded by snow that's begging to be enjoyed." —The Atlantic Ezra Jack Keats's classic *The Snowy Day*, winner of the 1963 Caldecott Medal, pays homage to the wonder and pure pleasure a child experiences when the world is blanketed in snow.—Publisher's Weekly

Experimental and Expanded Animation Vicky Smith, Nicky Hamlyn, 2018-08-21 This book discusses developments and continuities in experimental animation that, since Robert Russett and Cecile Starr's *Experimental Animation: Origins of a New Art* (1976), has proliferated in the context of expanded cinema, performance and live 'making' and is today exhibited in galleries, public sites and online. With reference to historical, critical, phenomenological and inter-disciplinary approaches, international researchers offer new

and diverse methodologies for thinking through these myriad animation practices. This volume addresses fundamental questions of form, such as drawing and the line, but also broadens out to encompass topics such as the inter-medial, post-humanism, the real, fakeness and fabrication, causation, new forms of synthetic space, ecology, critical re-workings of cartoons, and process as narrative. This book will appeal to cross and inter-disciplinary researchers, animation practitioners, scholars, teachers and students from Fine Art, Film and Media Studies, Philosophy and Aesthetics.
