The Game of Hearts Barnet Phillips,2017-10-26 Excerpt from The Game of Hearts: Rules of the Game; How to Play Hearts It has too, the same fundamental rules as Whist, is played in exactly the same manner, only that there are no' partners, each one play ing for himself, and that the number of tricks taken do not count, and also that there is no trump. To play Hearts well requires, perhaps, less study than Whist, and is more agreeable on that account; but still a certain amount of skill is necessary, and the run of the cards must be remembered. Resonant Games Eric Klopfer,Jason Haas,Scot Osterweil,Louisa Rosenheck,2018-07-17 Principles for designing educational games that integrate content and play and create learning experiences connecting to many areas of learners' lives. Too often educational videogames are narrowly focused on specific learning outcomes dictated by school curricula and fail to engage young learners. This book suggests another approach, offering a guide to designing games that integrates content and play and creates learning experiences that connect to many areas of learners' lives. These games are not gamified workbooks but are embedded in a long-form experience of exploration, discovery, and collaboration that takes into consideration the learning environment. Resonant Games describes

twenty essential principles for designing games that offer this kind of deeper learning experience, presenting them in connection with five games or collections of games developed at MIT's educational game research lab, the Education Arcade. Each of the games—which range from Vanished, an alternate reality game for middle schoolers promoting STEM careers, to Ubiquitous Bio, a series of casual mobile games for high school biology students—has a different story, but all spring from these fundamental assumptions: honor the whole learner, as a full human being, not an empty vessel awaiting a fill-up; honor the sociality of learning and play; honor a deep connection between the content and the game; and honor the learning context—most often the public school classroom, but also beyond the classroom.
