The Heart of Care: Dignity in Action Amanda Waring,2012-04-01 I felt like a caged animal.' This damning indictment by Dame Dorothy Tutin of her treatment in hospital at the age of 70 propelled her daughter Amanda Waring into a crusade to ensure that all older people in care are treated with kindness, compassion and dignity. Amanda is now a widely respected filmmaker, public speaker and teacher specialising in dignified care of the elderly. The Heart of Care distils her experiences, covering such topics as : the transition from home or hospital to care home ; creating person-centred, compassionate care homes; coping with dementia ; creativity and activity in care ; honouring and celebrating our elders ; maintaining spiritual and emotional care The Heart of Care encourages all carers to look into themselves and question their attitudes, prejudices and behaviour. Combining anecdote, reminiscence, practical advice and role-model exercises that really work, Amanda Waring gently motivates and educates us all to be better carers. Acknowledging that the path can be hard, she includes tips and advice to keep carers engaged and motivated when the going gets tough. As our population rapidly ages and more and more people find themselves researching options for care of the elderly, and as lurid and disturbing stories about substandard care hit the headlines on a daily basis, we all need to look closely at these issues. Essential reading for all who care for an elderly person, whether stranger or loved one, The Heart of Care promotes respect for the dignity and intrinsic worth of others, regardless of age or disability.

Care Giving from the Heart Kenneth Mwirichia,2008-10 The vision behind this book I was inspired to write this book because of the great need in the long-term care industry to blend love, compassion, and respect when caring for residents. The spirit of love and compassion for the work we do and those we care for is vital in long-term care. This sense of caring and concern for residents can never be replaced by advancements in modern technology. Rather it is provided one-on-one, one person at a time. This book will help readers at several levels. It will help you understand the basics of long-term care giving, and will also help you assess whether you have the heart and temperament for care giving. Written in non-technical terms, the book is easy to understand even if you have no experience in care giving. In the text Ive combined my personal experiences with the realities of care giving, and even a bit of humor, while covering standard procedures in the long-term care setting. At its heart this book focuses on the basics of personal, hands-on care for those who need it most. The book was written in the spirit of love, respect, humility, and compassion. For that is where it all began, with the mother of nursing, Florence Nightingale, who demonstrated care giving from the heart.

How to Create Heart-Based Hospitality: The Future of the Hotel Hospitality Experience Peter McAlpine, This book shows hoteliers how to create a spirit of hospitality that is impossible to create with the globally pervasive, standards manual-based concept of SOP-Customer Satisfaction. Heart-Based Hospitality is an energetic and spiritual concept of hospitality, and it provides a completely new direction in hospitality. It is based on creating an ever-increasing spirit of unconditional love, Metta loving-kindness, compassion, and heart-warming care, which are the forgotten essence of hospitality. By working with energy, especially heart energy, and by developing the spiritual capacity of the staff you can create limitless levels of spiritual and energetic hospitality far above the traditional SOP-Customer Satisfaction ceiling. As you develop Heart-Based Hospitality you can increase the softness, gentleness, loving-kindness, compassion, and heart-warming care of the staff and the energetic warmth of the hospitality without limit. Heart-Based Hospitality is a concept and a direction that enables the spirit of hospitality to evolve energetically and spiritually. It will revolutionise the hospitality industry. I call the level Heart-Based Hospitality because it is created by working with human energy, especially with the energy of the heart; by developing the heart's intelligence; by increasing heart coherence so as to open the heart to experience ever-stronger emotions of love; and by developing spiritual capacity which increases the desire to show unconditional love, Metta loving-kindness, heart-warming care, and compassion from the heart. The future hospitality experience will be energetic and spiritual. Hotels in the future will also use heart field energy techniques to change the energetic vibration of the hotel staff, the guests, and spaces. They will also infuse spaces, facilities, and guest accommodation with pleasant-feeling energy through specific meditations. I have written the book in order to bring about a revolution of change in the hotel industry. The book shows hotels how to implement and develop the process of creating Heart-Based Hospitality. Part 1, the Introduction to the book, explains what the book is about. Go to this link: http://heartbasedhospitality.com/?page_id=57800

Take Good Care Cynthia Orange,2017-03-07 During the coronavirus pandemic, many of us are caring for others, both professionally and personally - while also attending to our own health and well-being. This book helps those who care for others navigate the subtle but important difference between caretaking and caregiving. In a time when tens of millions of people provide care for family members, older adults, and people with special needs, we should all be experts at it. Instead, we often struggle with caring for others while taking care of ourselves. Cynthia Orange's newest gem is a rare combination of inspiration and information that invites us to examine our behavior and feelings with an open heart, free from judgment, as we care for others and ourselves. Take Good Care offers valuable care suggestions throughout—from how to navigate difficult conversations to what contact numbers to post on the refrigerator. This manual for living will enlighten any caregiver's experience, and Cynthia holds your hand through the process as only she can. —Lisa Sue Woitz, author of Unwelcome Inheritance: Break Your Family's Cycle of Addictive Behaviors In Take Good Care, author Cynthia Orange brings together compelling testimonies from a wide range of caregivers, advice from leading experts in the field, and her own hard-won wisdom to capture the subtle differences between caretaking and caregiving. With a foreword by Susan Allen Toth, the critically acclaimed author of No Saints around Here: A Caregiver's Days, this book shows us how and why caring for each other can be a mutually rewarding experience. It's easy to become overinvolved in another person's life and needs when giving care. Feeling burdened with expectations and resentments in a codependent relationship hinders a sense of joy, purpose, and engagement. Relationships require empathy and boundaries; with them, a codependent caretaker can transform into an intentional, self-aware, and compassionate caregiver.

The Compassionate Heart Robin Haywood,2014-02-15 First Lady Rosalynn Carter once said, There are four kinds of people in the world those who have been caregivers, those who are currently caregivers, those who will be caregivers, and those who will need caregivers. Caregiving is the ultimate act of love. But even though taking care of another person can be spiritually rewarding, it can be challenging as well. Family members are often thrust into the role of home caregivers to spouses, partners, parents, or children for years they are the backbone of the at-home healthcare system. The Compassionate Heart is a book that recognizes that those who selflessly tend to others need to also take care of themselves. The book offers uplifting words of encouragement, support, and understanding paired with the inspirational art of Robin Pickens. It's the perfect gift to give to caregivers to show them they are not alone, and that they are appreciated by others who sympathize with their situation.

Heartwarming: How Our Inner Thermostat Made Us Human Hans Rocha Ijzerman,2021-02-02 An illuminating investigation of core body temperature regulation and its powerful effect on human civilization. A hot cup of tea, coffee, or cocoa is calming and comforting—but how can holding a warm mug affect our emotions? In Heartwarming, social psychologist Hans Rocha Ijzerman explores temperature through the long lens of

evolution. Besides breathing, regulating body temperature is one of the most fundamental tasks for any animal. Like huddling penguins, we humans have long relied on one another to maintain our temperatures; over millennia, this instinct for thermoregulation has shaped our lives and culture. Temperature contributed to our evolution—our upright walking, our loss of fur, and our big brains—and now continues to affect our lives in unexpected ways, and the link from a warm mug to our emotions is anything but straightforward. Studies have shown, for example, that a chilly deliberation room can predispose a jury to convict and that a cold day can make us more likely to buy a house. Our mind-body connection works the other way, too: thinking about friendly or caring people can make us feel warmer. Understanding how we subconsciously strive to keep our temperature in an optimal range can help us in our relationships, jobs, and even in the world of social media. As Ijzerman illuminates how temperature affects human sociality, he examines fascinating new questions: How will climate change impact society? Why are some people chronically cold, and others overheated? Can thermoregulation keep relationships closer, even across a distance? The answers offer new insights for all of us who want to better understand our bodies, our minds, and each other. Heartwarming takes readers on an engaging journey through the world, seen from the perspectives of coldness and warmth.
